

How to build the Nocturne lineup for the DTCL swordsmen season 2

With the standard Nocturne Sword Maker build in this article, you will have a true meat grinder when the damage of the squad if completed is very terrible.

Nocturne The Swordsman is one of the strongest squads in the Arena of Truth at the present time. A complete lineup of Nocturne Swordsmen will have tremendous amount of damage and have a lot of buffs that are resistant.

Reducing the armor of the enemy team, magic resist, reducing the damage received is what your squad will have if you complete it. Especially effective against the Guardian and the Magi squad.

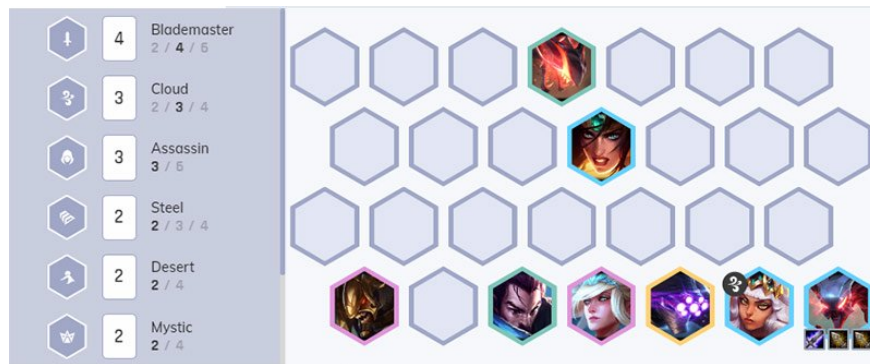

In which Nocturne will be the main damage of the team because Nocturne is one of the current strong Assassins. Guide Nocturne Lineup DTCL Guest 9.24b

Chess complete squad

1. Nocturne (Lead)
2. Sivir
3. Rek'Sai
4. Kha'Zix
5. Yasuo
6. Janna
7. Master Yi
8. Qiyana (Wind)

If you reach level 9, you can add to Steel Lux or Mysterious Lux if you are lucky. If the squad is already really strong, there's no need to upgrade to level 9.

Early game

It's simple, just pick the ones you see appear to be on the team. Suggestions for you are to pick Leblanc or Crocodile to hold items for Nocturne. The Crocodile goes with Sivir to take the passive of Sand or Leblanc with Maokai and Ivern. Don't forget to Rek'Sai to get Steel passive later.

Alternatively, you can choose Yasuo, Sivir along with Renekton. Add 2 easy Guardian to 2 stars like Ornn or Nasus or Braum. Or whatever Guardian you see, as long as the team has it.

Between game

Okay, now you start paying attention to the champions of the complete squad and putting them on the floor. You can raise key champions to 2 gold, do not need to increase 3 gold then to level 6-7 look for Nocturne and join the following team.

If you encounter a lot of assassins, you should put them on the floor first to increase the damage to the squad. If you see Qiyana in the middle of the game, then put it on the floor and have extra slots, then you should let Sivir in or level 7 and bring her to the field. Ideally, you should have Rek'Sai, Kha'Zix, Yasuo, Nocturne, Aatrox, Qiyana (Wind) and Sivir.

At the end of the game

At the end of the game, Nocturne will have 4 Sword Clans, 3 Assassins, 3 Wind, 2 Sand, 2 Steel, 2 Mysteries, when you reach level 8 or at level 7 that have Nature Armor. Now it's crowded, try to raise Nocturne and Sivir into 3 stars.

Equipment needed

You should prioritize the Search of the Unknown King to Nocturne, and it is best to grab the Golden Shovel at first. If not, then you have to lose so that in the next round of shopping you get priority to pick up, in addition, if you have a Golden Shovel when fighting monsters, then only.

1. **Nocturne:** Sword of the Unknown King, Infinity Sword x2 or additional Death Sword with Infinity Sword also. And if you see anyone raising the Kingdom of Water early, then leave a Mercury Cloak for Nocturne.
2. **Sivir:** Silent **Dagger** , Red Charm, **Vongola** / Giant Kill
3. **Qiyana:** Iron Solari Necklaces, Shang Shojin
4. **Kha'Zix:** Angel's **Staff**

If you get 3 stars for Nocturne and give him what he needs then surely at the end of the game you will not be bored at all except for teams with Ma Vu Song Kiem.

This team is mostly more offensive than players, but requires players to have good team rotation skills and good economic management, especially in the middle of the game and the Golden Shovel is required.
