Music CD set suitable for Vivian ZZZ

In Zenless Zone Zero, the equipment system is called "Disc Drives", each containing multiple discs with different effects. Phaethon's Song Set is one of the disc drives specially designed for Vivian, with the following effects:?

Phaethon Songs CD set

1. **2-Piece Set:** Increases Abnormal Control by 8%.
2. **4-Piece Set:** When any character on the team uses a Super Combat Technique, Vivian gains 45 points of **Abnormal Mastery** for 8 seconds. If the Super Combat Technique user is not Vivian, Vivian's Ether damage is increased by 25%.

Recommended equipment

To optimize Vivian's combat effectiveness, we recommend combining:?

1. 4-piece Phaethon's Song: Get the most out of the enhanced effects from this disc set.
2. 2-piece Chaotic Jazz or Free Blue: Adds additional support effects, depending on Vivian's playstyle and role in the team.

This combination helps Vivian maximize her ability to control and deal damage in battles.

Recommended Index

To make Vivian shine on the battlefield, prioritize the following stats:

Key Indicators

1. Disc 4: Supernatural Mastery
2. Disc 5: DMG Ether % > Armor Penetration = Attack %
3. Disc 6: Abnormal Control > Attack %

Sub-index

1. Abnormal Mastery > Attack % > Armor Penetration = Flat ATK

Endgame Stats (Level 60)

If built correctly, Vivian should hit the following thresholds at level 60:

1. ATK: 2400 - 3000+
2. HP: 10000
3. Defense: 800
4. Abnormal Control: 144 - 198+
