

# How to Bypass iCloud Iphone/Ipad with Tenorshare 4MeKey

How to Safe to delete iCloud Activation Lock without effort? Are you having problems with iCloud locked iPhone / iPad / iPod touch? How to bypass iCloud activation lock? 4MeKey can provide you the best iCloud unlock service to turn off the activation key without a password.

For obvious security reasons, your iPhone doesn't make it easy for you to extract the login ID and password information saved on the device. While it's great to prevent any attempts to steal your password if you lose your device, it hurts if you want to access old passwords that you don't remember.

You see, most of us enter passwords once on an iPhone and then forget them, that's until we need them again. And since iOS doesn't allow you to extract passwords from iPhone, accessing the same services on other devices becomes extremely difficult.
