$$\text{Change MMR score} = (\text{AVG\_MMR} - \text{MMR}) * 0.15 + \text{Placement\_const}$$

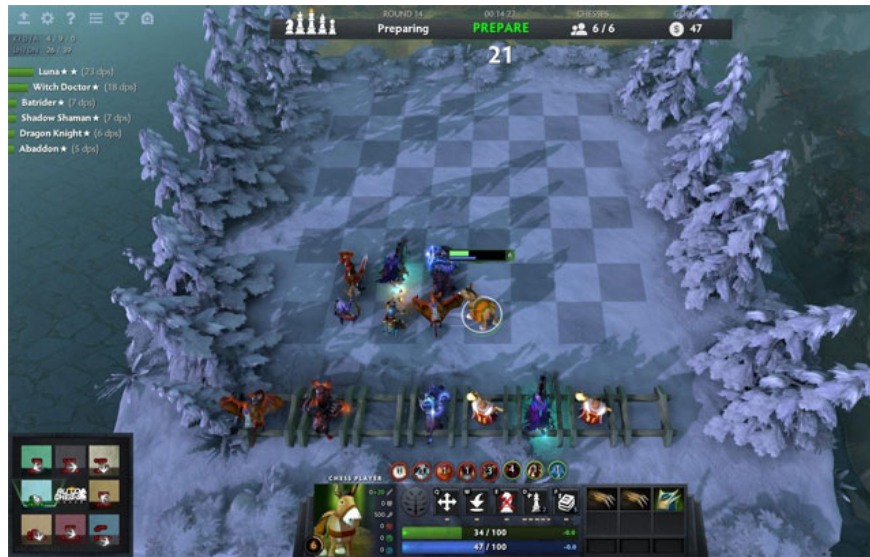

Placement\_const will have the following numbers:

5. -33
6. -49
7. -65
8. -81

In a match, if the player flags have the same rank rank then the bonus points will be as follows:

1. Rank 1: +1.0 rank
2. Rank 2: +0.8 rank
3. Rank 3: +0.6 rank
4. Rank 4: +0.4 rank
5. Grade 5: -0.4 rank
6. Grade 6: -0.6 rank

- 7. Rank 7: -0.8 rank
- 8. Rank 8: -1.0 rank

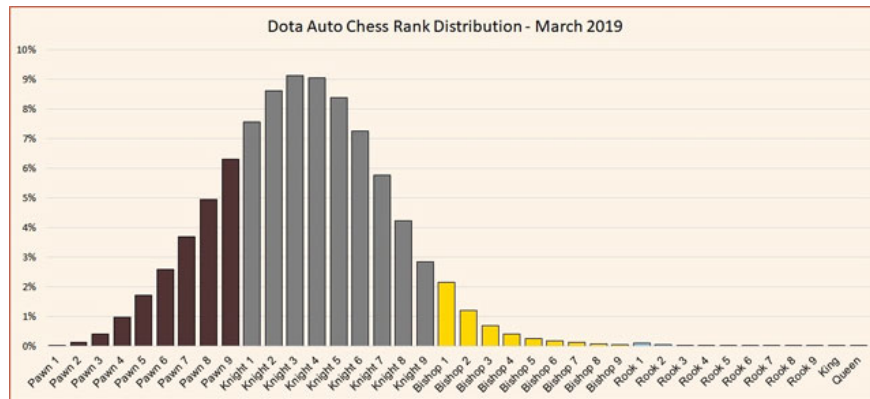

There are some points that you may not know yet, that are ranked players who also have MMR points and this point will change constantly.

In addition, if the player is over 3 rankings, he / she will not receive MMR points when only ranked 4. For example, a player who rank rank will only get MMR points at Lobby Knight 8 when that player reaches level 3.

If a player reaches 4 in the same lobby rank, they will not receive any MMR points. Below is the MMR score table that gamers can use
