

# How to call Video Call on Instagram

Video Call on Instagram is a new feature that helps users call video to friends, up to 4 people when calling on Instagram.

After adding the Instagram Direct application, IGTV video channel, the manufacturer continues to bring other useful features. Especially in Instagram messaging feature Instagram Direct, users can chat video with personal friends, or with groups of up to 4 people at the same time.

During the call process we can still browse the News Feed, post Story or send messages to anyone through the minimized video call window feature. Users do not need to verify phone numbers to make video calls on Instagram. The following article will guide you how to call video on Instagram.

1. How to call group videos on Facebook Messenger
2. Instructions for making video calls on Zalo
3. 2 steps to make video calls on Facebook

## Video call guide on Instagram

### Step 1:

First of all, users need to update Instagram on Android and iOS. Then access your account. At the main interface click on **the Direct icon** in the top right corner. The interface of accounts that users have recently contacted appear. Click on the available account here or enter the account name in the search bar.

**Step 4:**

If you click on **the thumbnail icon** in the top left corner of the call interface, the call screen will be collapsed. So we will continue to do other work, without interrupting the video calling process on Instagram.

In case the recipient is not online, if online they will receive **a notification of the number of video calls missed**. Just click the Direct icon above to view video call notifications on Instagram.
