

How to cancel a friend invitation on Facebook in the fastest way

How to cancel a friend invitation on Facebook in the fastest way. When adding you on Facebook you need to have the approval of both. If not then you will automatically switch to tracking mode. In this article, Software Tips will guide you How to cancel friend invitations on Facebook in the fastest way.

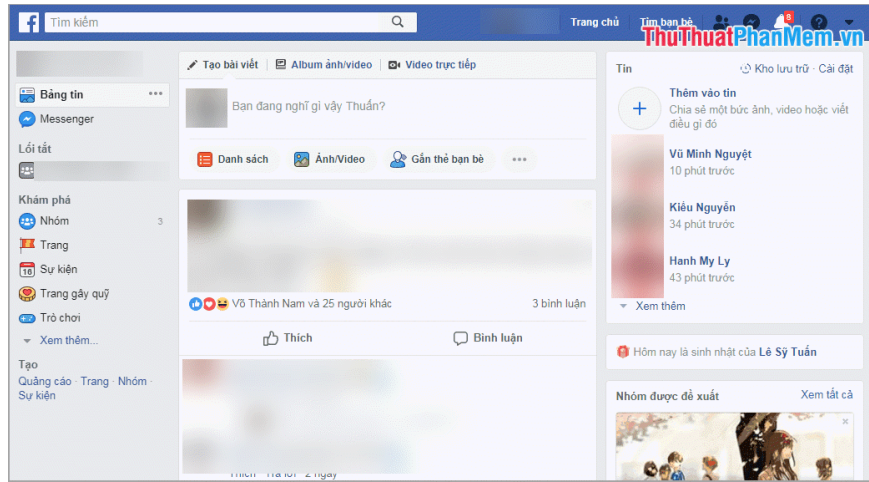

Facebook is a popular social network because they support users who can add friends together. But when adding you on Facebook you need to have the approval of both. If not then you will automatically switch to tracking mode. In this article, Software Tips will guide you How to cancel friend invitations on Facebook in the fastest way.

In fact, the cancellation of the invitation to make multiple friends on Facebook we will use a code to automatically cancel fastest. But Facebook Web is now very restrictive because we access it deep inside for fear of exploiting other people's information. However, in this article, Software Tips will guide you how to use Facebook Mobile version on computer 100% success.

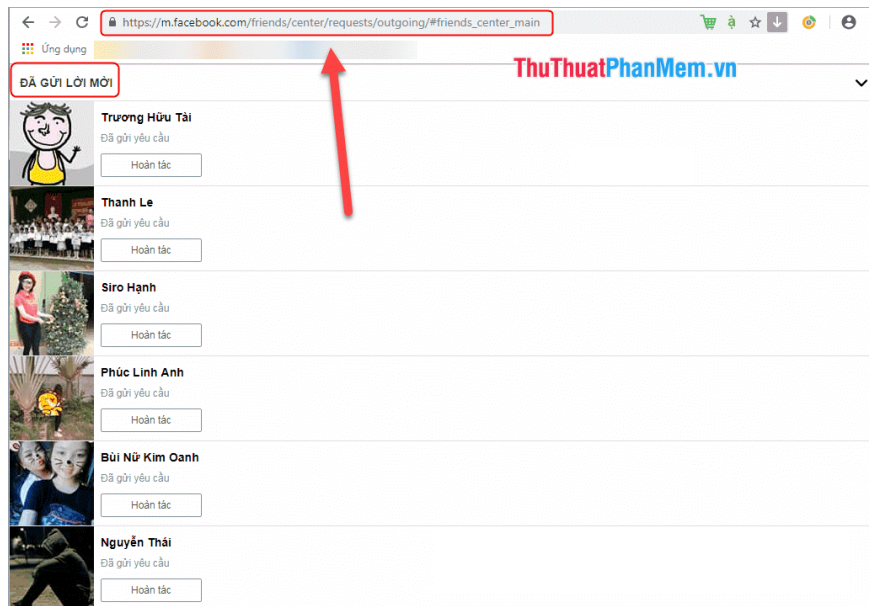

Currently there are many websites that support it, but when you visit, they will use your Token to do bad actions such as: Like other people's posts, Automatic comments, Follow others. The way that the Software Tutorial tips will be 100% secure.

Step 1: You proceed to access Facebook and log in normally.

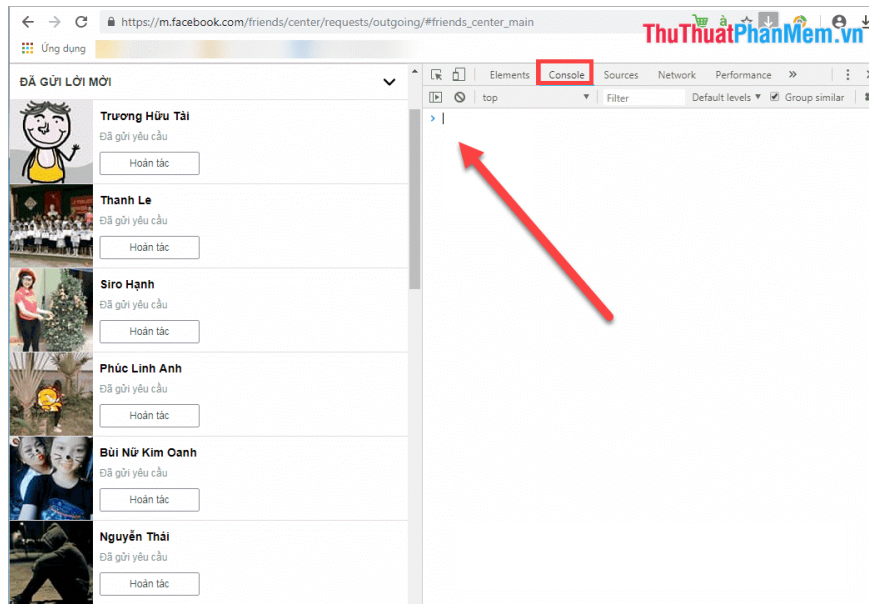

Step 2: Then you proceed to visit this link to see the list of people you have sent invitation to make friends.

https://m.facebook.com/friends/center/requests/outgoing/#friends_center_main

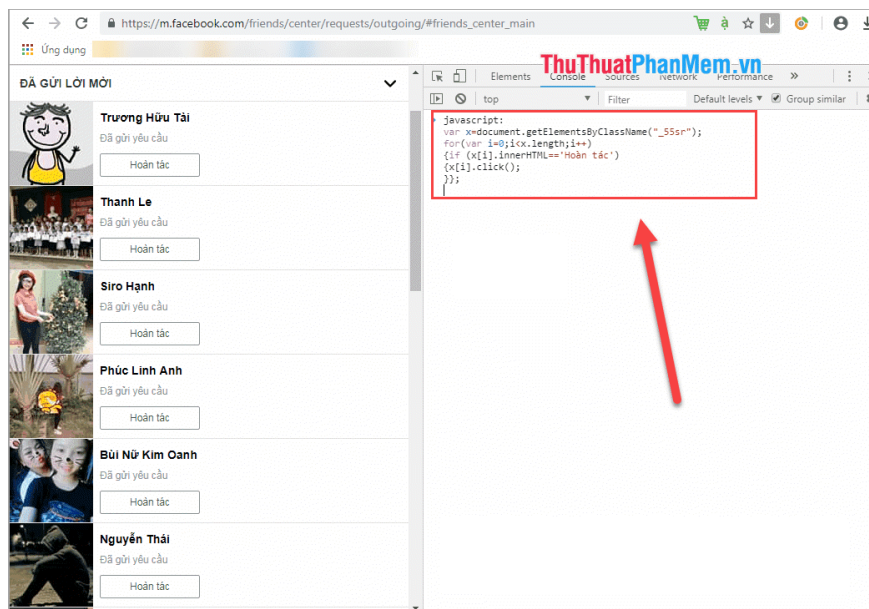

Step 3: Then you press **F12** to open the JavaScript source window and select the **Console** tab . By default, in this section, your **Console** tab will be blank without any content. We just need to add the following code to use.

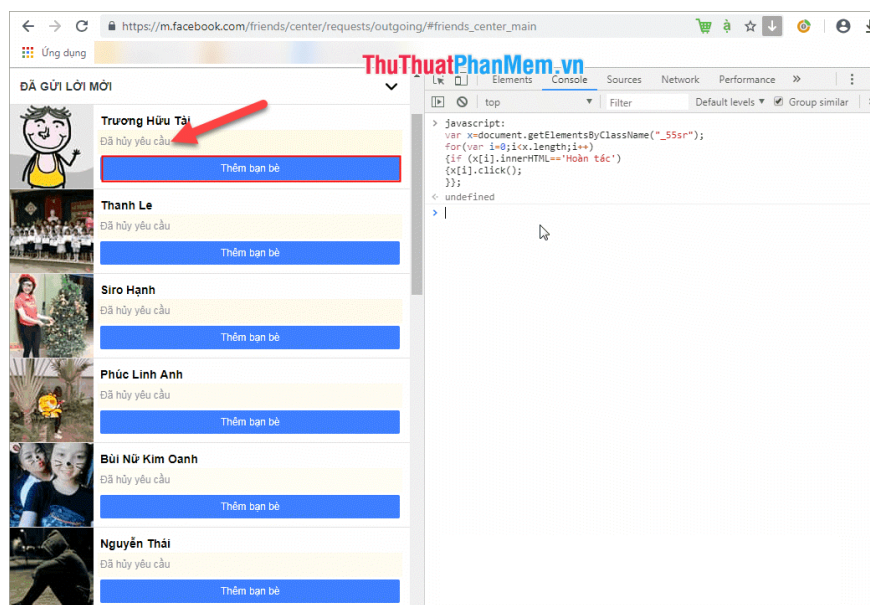

Step 4: You proceed to **Copy** the **code** below and paste it into the **Console** tab and press **Enter** to let it run automatically.

```
javascript: var x=document.getElementsByClassName("_55sr"); for(var i=0;i[x.length];i++){x[i].innerHTML+="Hoàn tác";x[i].click();}
```

B??c 5: Sau ?ó nh?ng l?i m?i k?t b?n trên Facebook c?a b?n s? t? ??ng **Hoàn tác** (thu h?i l?i).

Nh? v?y, v?i cách này s? giúp chúng ta h?y ???c t?t c? các l?i m?i k?t b?n v?i nh?ng ng??i mà h? không ??ng ý. ?
ây là cách làm an toàn nh?t trên Facebook, b?n s? không h? b? khai thác d? li?u cá nhân hay s? ng??i khác truy c
?p Facebook và c??p quy?n c?a mình. Ch? c?n th? thu?t v?i m?t ?o?n Code nh? này các b?n ?ã làm cho Newfeed
trên Facebook c?a mình thú v? h?n và ít "rác" h?n. Chúc các b?n thành công!
