2. Instructions to change Facebook Fanpage catalog

Step 1:

Access to Facebook Fanpage and click on **About** in the list on the left of the screen.

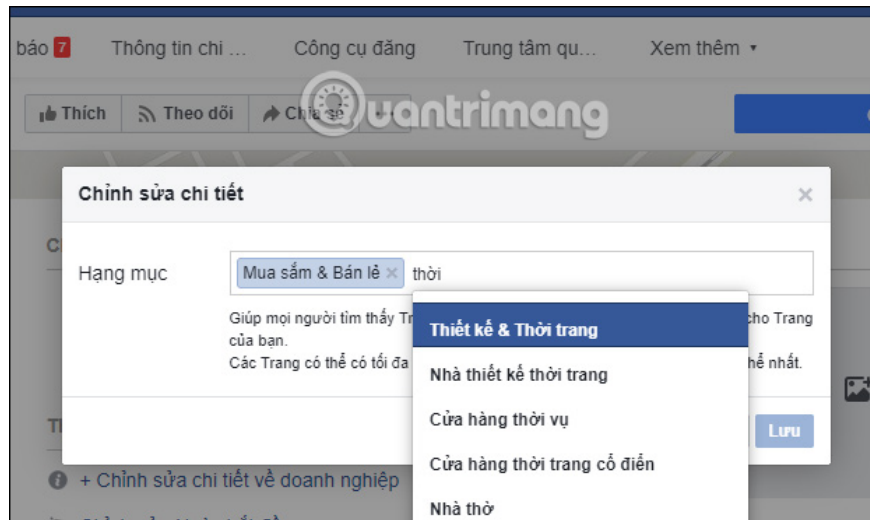

Step 2:

Switching to the new interface, **General section**, we will see **the Items section** added earlier. To change the content click on **Edit**.

Step 3:

Show Edit details interface. Here users can delete the categories that they have added and find other new categories. Each Facebook Fanpage can only select up to 3 categories. Users need to select the correct item with the page content to be more optimized for Facebook when categorizing as well as for users when searching. When entering keywords, the list of suggested items is shown below.

Step 4:

After you have finished editing the page rank, **click Save** to apply the new change.

Facebook then asks users if they want to edit other content, click Other times.

The list results of the page have changed as shown below.

The operation of changing Facebook Fanpage items is very simple and does not limit the number of item changes. However, you should also note that you should not change Fanpage items too much, as well as just choose the right categories with Facebook Fanpage content to increase efficiency when users search for pages.

I wish you all success!
