## Instructions for setting wallpaper for Gmail

### Step 1:

Access your personal Gmail account and click on **the gear icon** to select the **Subject** .

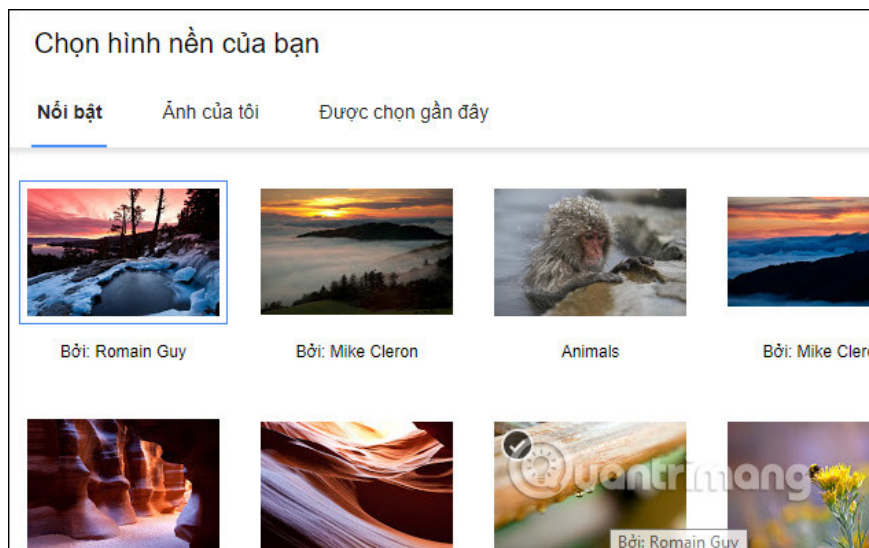

### Step 2:

In the Choose your theme interface we will see Gmail provides users with many different topics. Each wallpaper will be topics such as forests, beaches, or funny paintings, . If you want to see more topics, click on the **other Pictures** section.

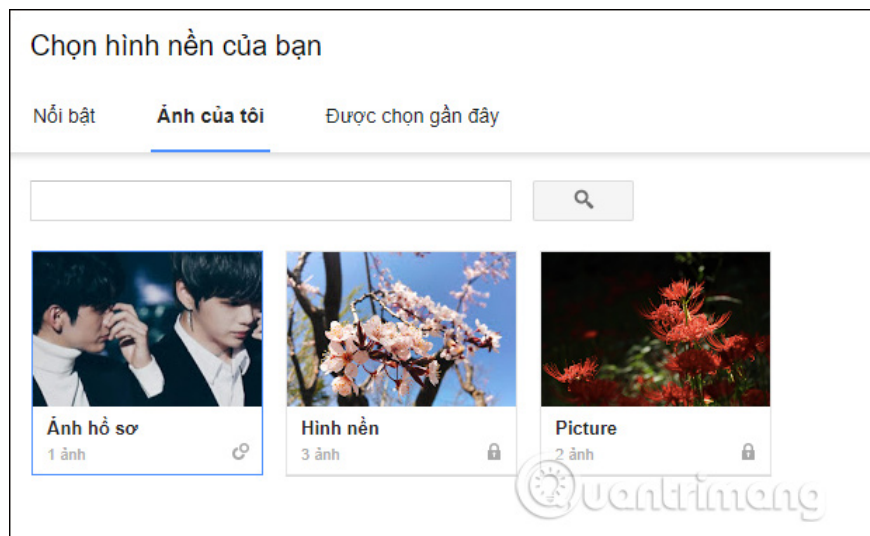

### Step 3:

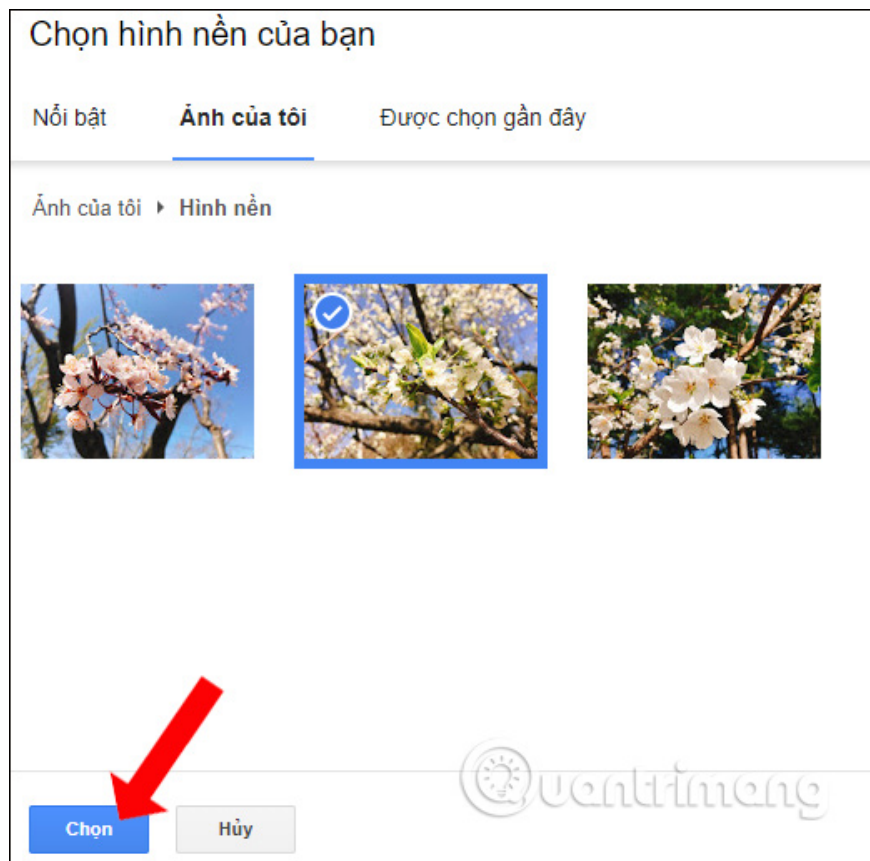

Now users will see more different wallpapers to set for Gmail. In addition, we can click on **My photos** is an image that you have uploaded to Google Photos.

In the My Photos section you will see a representative photo and photo album on Google Photos. Click on the photo album containing the image you want to set as your wallpaper.

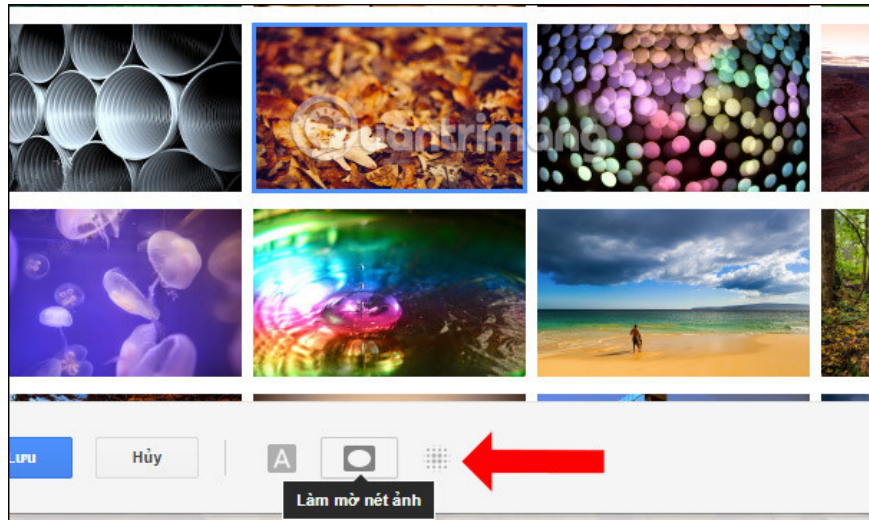

Select the image for the Gmail theme and then click **the Select button** below.

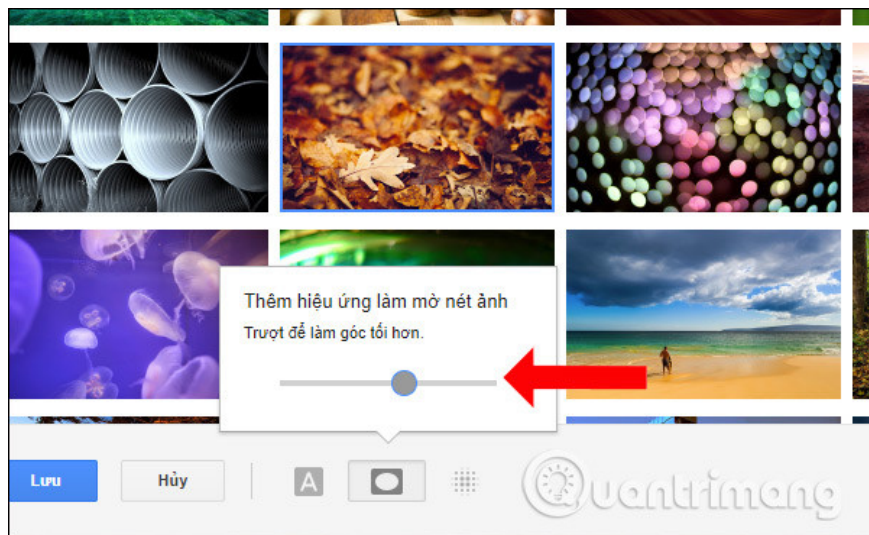

#### Step 4:

Click on the wallpaper that the user wants to set for Gmail, then we'll see Gmail provide more custom wallpaper with the **Background text** button, **Image blur**, or **Blur images** at the bottom of the interface.

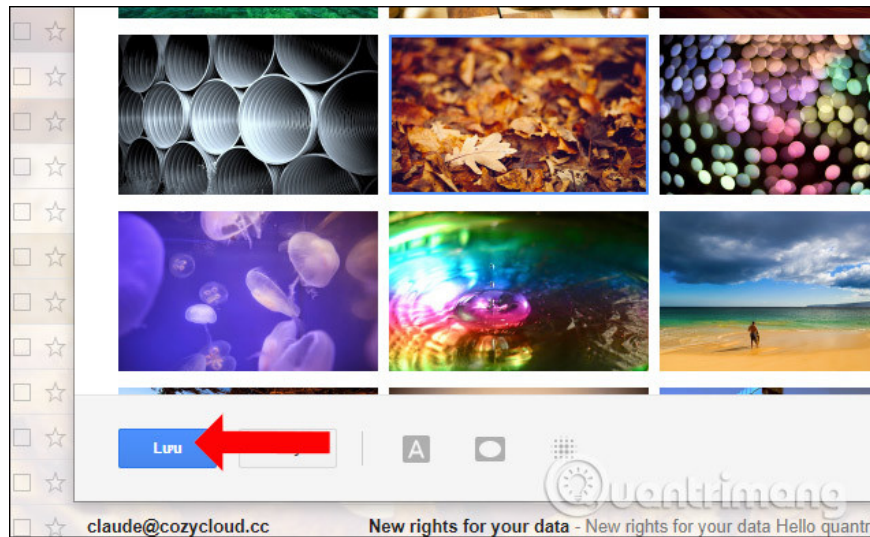

**Adjust the bar** so that you can customize the level of the elements if you want to use with different strengths or weaknesses, depending on the needs of each person.

### Step 5:

Finally after selecting the background image and adjusting the background image, click **the Save button** below to save the new wallpaper for Gmail.

So you have installed a new wallpaper for Gmail, with the provided background images or images uploaded from Google Photos. Besides, users will also have the option to customize the display level of the wallpaper in the Gmail interface, with the edit buttons provided by Gmail.
