Instructions to change the sound of charging iPhone battery

Step 1:

Users access Cydia and then add the source <https://repo.packix.com/> . Then click on the search tab and enter the keyword Malipo to search for Malipo tweak and then install it on the device. Finally press **Restart Springboard** to restart the device.

Step 2:

After you've finished tweaking settings, click on **Settings** and choose **Malipo tweak** to change the settings. At this interface, the **Enable Tweak** section **pushes** the horizontal bar to the right to activate tweak. **Vibrate on Charge** option vibrates when charging.

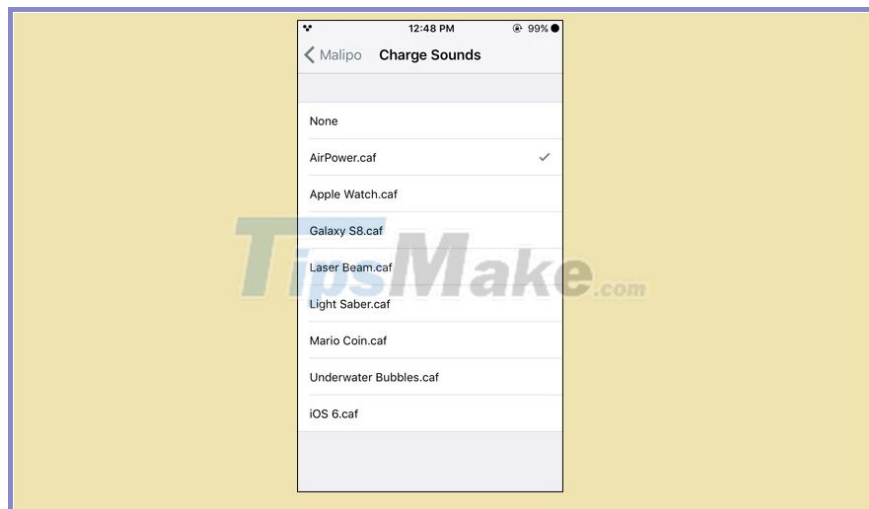

Then click on **Charge Sounds** to select the sound.

Step 3:

In the list there will be some sounds for users to choose to change the sound on the iPhone charging battery. We can add sound to / **Library / Application Support / Malipo / CustomSounds folder** .

After selecting the new battery charge, scroll down and click **Respring** to apply changes to the device.

Now the battery charge on the iPhone will be changed to another sound, new to the sound type you choose on Malipo tweak. If you want to change it back to the default language, select None in Malipo's Charge Sounds section.
