

How to change ringtone and incoming call on Facebook Messenger

This trick will help you turn the default sounds on Facebook Messenger which are so familiar to your favorite sounds, avoid boredom and coincide with others.

Facebook Messenger is a popular chat application enjoyed by many social network users, with many of them replacing the phone's default phone and messaging applications. Regularly use Facebook Messenger but do you know how to change the notification ringtone when there is an incoming message or call?

Surely many of us still do not know this feature, if so, then join the Network Administrator to discover it now. This trick will help you turn the default sounds on Facebook Messenger which are so familiar to your favorite sounds, avoid boredom and coincide with others.

1. Instructions to turn off the sound of notifications on Facebook
2. Instructions on how to mute chat on Facebook
3. How to turn off video audio on Facebook News Feed

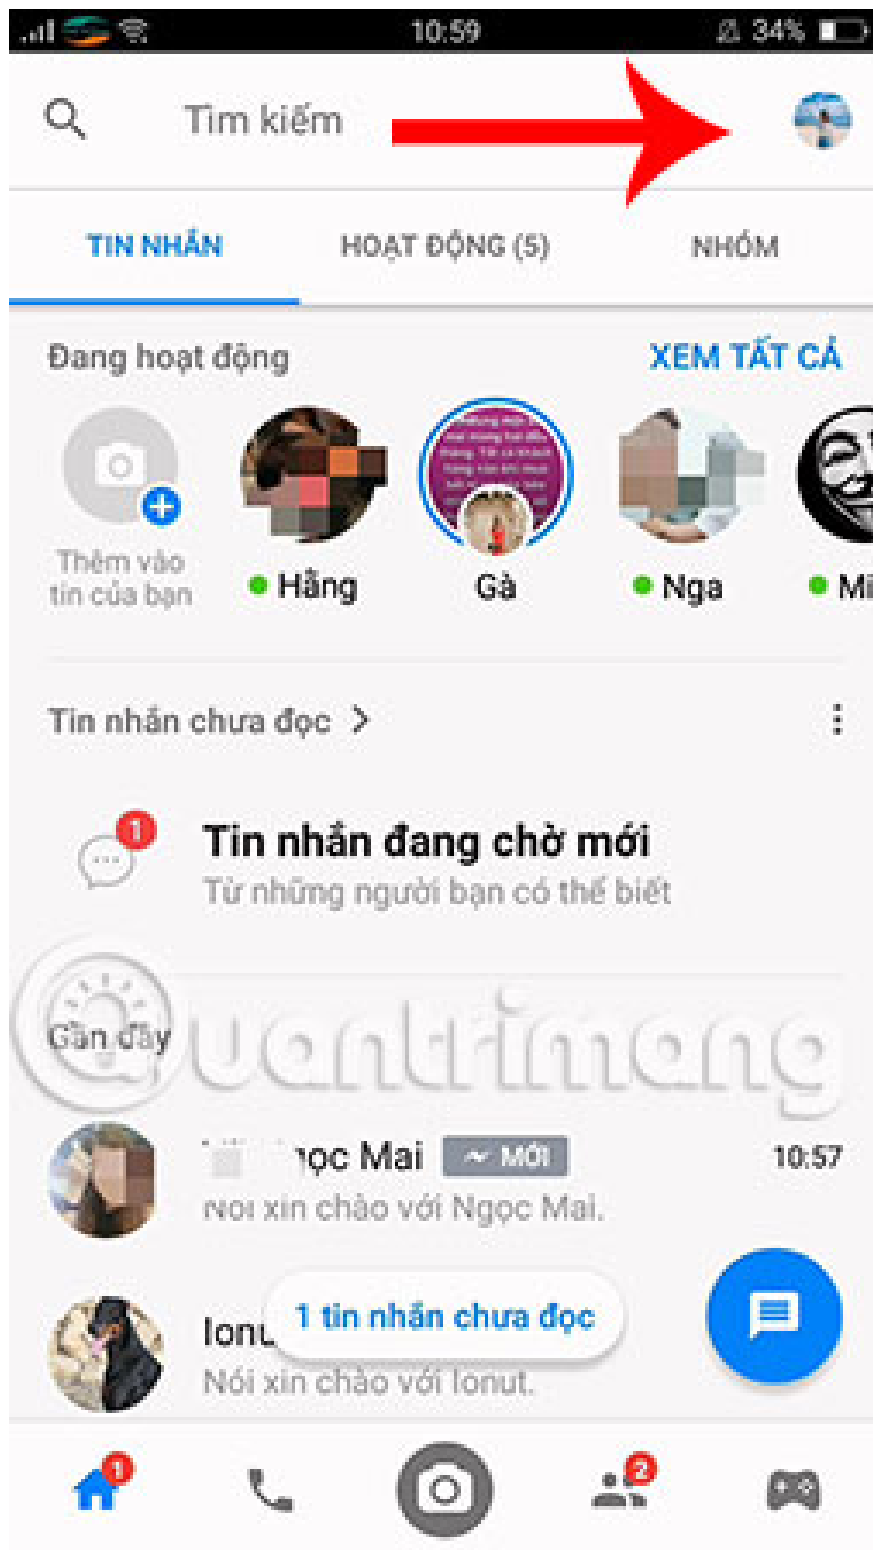

Note: This change is only applied on Android-based devices, so the following article will guide you to change the sound of Facebook Messenger for Android.

Instructions for changing ringtones for Facebook Messenger application

1. Facebook Messenger for Android

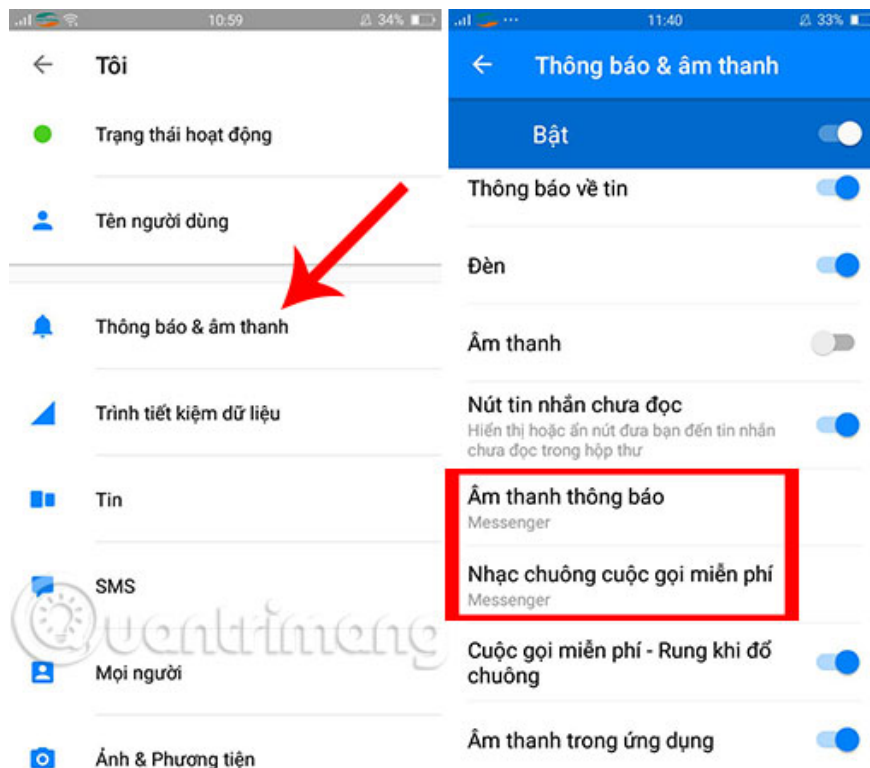

Step 1:

You update the Messenger Facebook application for Android to the latest version, then access the application and click on **the personal account icon** in the upper right corner of the screen.

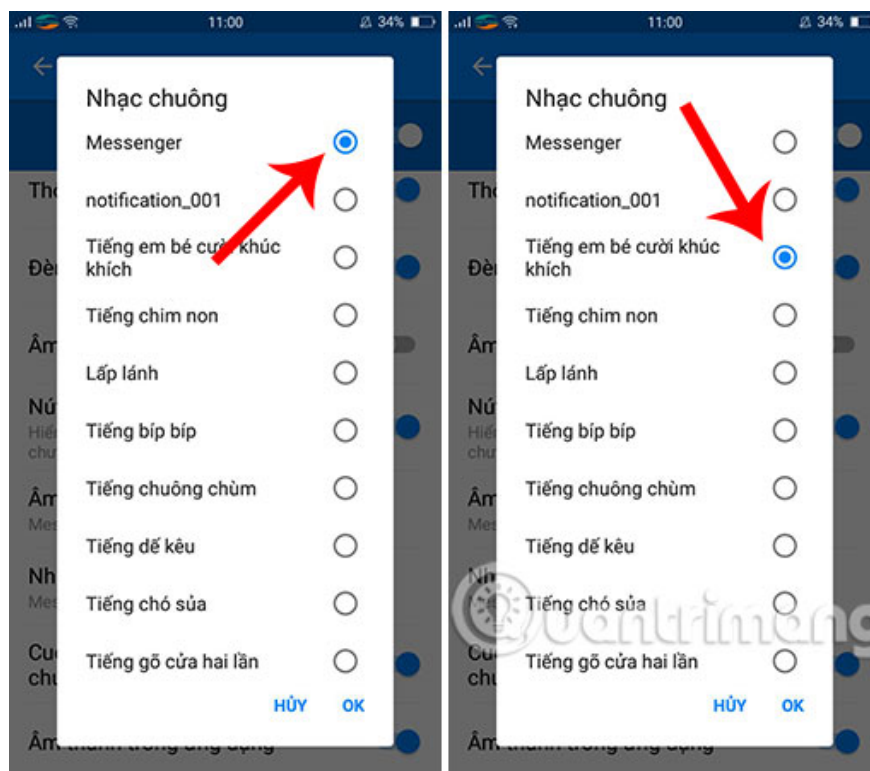

Step 2:

Scroll down to select the **Notifications & Sounds section** , where you will see two categories of **Free Notification Sounds** and **Call Ringtones** , which will allow you to make Facebook Messenger audio settings for Android.

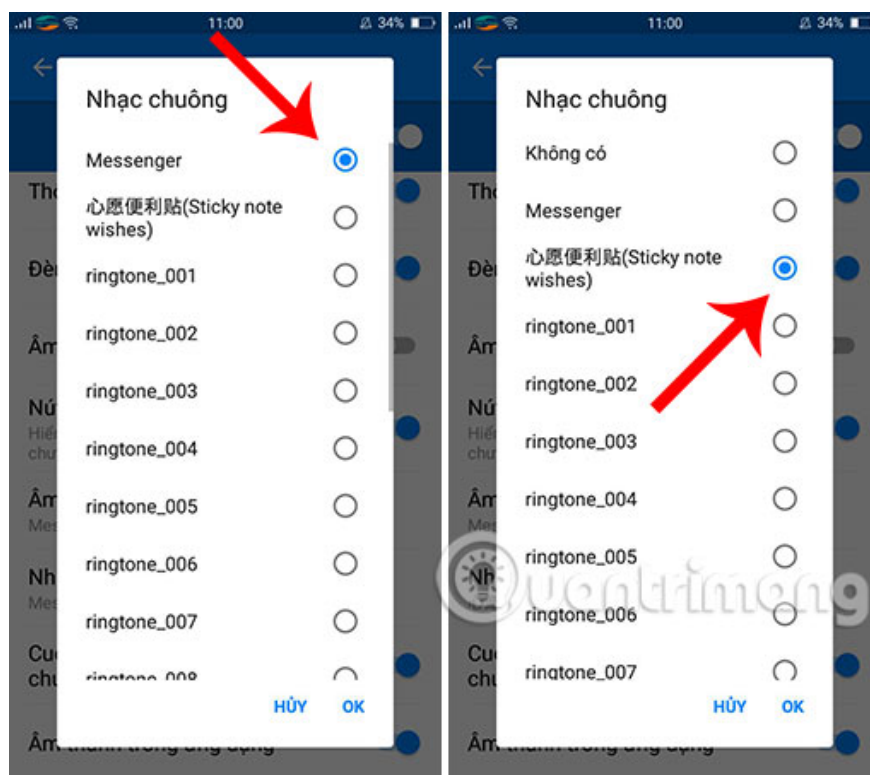

Step 3:

To change the alarm when there is a message on Facebook Messenger, select **Notification sound** . Shortly thereafter, the screen will display a list of ringtones for you to choose, including: The crickets, barking dogs, singing birds, and melodic ringtones. After selecting your favorite music, click **OK** .

Step 4:

You select **the Free Call Ringtones** section to set the alarm for incoming calls (including video calls) on Facebook Messenger. Similar to the message tone, there are many sound effects for you to choose, listen and select the sound you want then press **Ok** to confirm the Facebook Messenger notification sound for Android.

So with just a few simple steps, you have successfully changed the Facebook Messenger notification sound. From now on, when there is only one bell in front of the crowd, you can tell who the announcement is. Surely everyone will be surprised by this.

Hope you are successful.
