

How to change the Bookmark icon on Chrome, change the Bookmark icon to Google Chrome

Changing the Bookmark icon on Chrome is an interesting trick that helps you add something a little bit called a personality from the user itself. The old Chrome Bookmark icons, which are both old and boring, will be replaced completely with new icons.

Changing the Bookmark icon on Chrome is an interesting trick that helps you add something a little bit called a personality from the user itself. The old Chrome Bookmark icons, which are both old and boring, will be replaced completely with new icons. This means that you will be allowed to customize the icon for a tab or the entire Chrome tab is open with arbitrary PNG image formats.

This does not affect the browser speed or the system, and the remake is extremely simple. So if you want to change a new and more interesting icon, please refer to the following article content.

1. How to create bookmarks on Chrome, Coc Coc and Firefox browsers
2. Instructions for recovering bookmarks have been deleted on Chrome and Firefox
3. How to secure bookmarks on Google Chrome browser?

Instructions to replace the Bookmark icon on Chrome, change Bookmark icon to Google Chrome

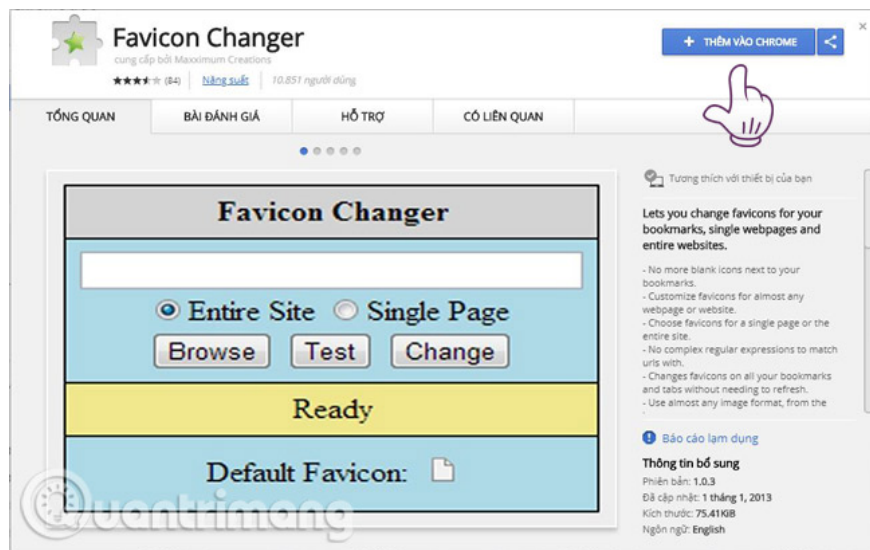

Step 1:

First of all, you need to download a Chrome add-on called Favicon Changer - this utility will allow us to change the default Bookmark icon on Chrome browser.

1. Fvicon Changer for Chrome

Step 2:

After clicking the link above to download Favicon Changer, you will be taken to the app store where this utility is located. Please select *Add to Chrome*.

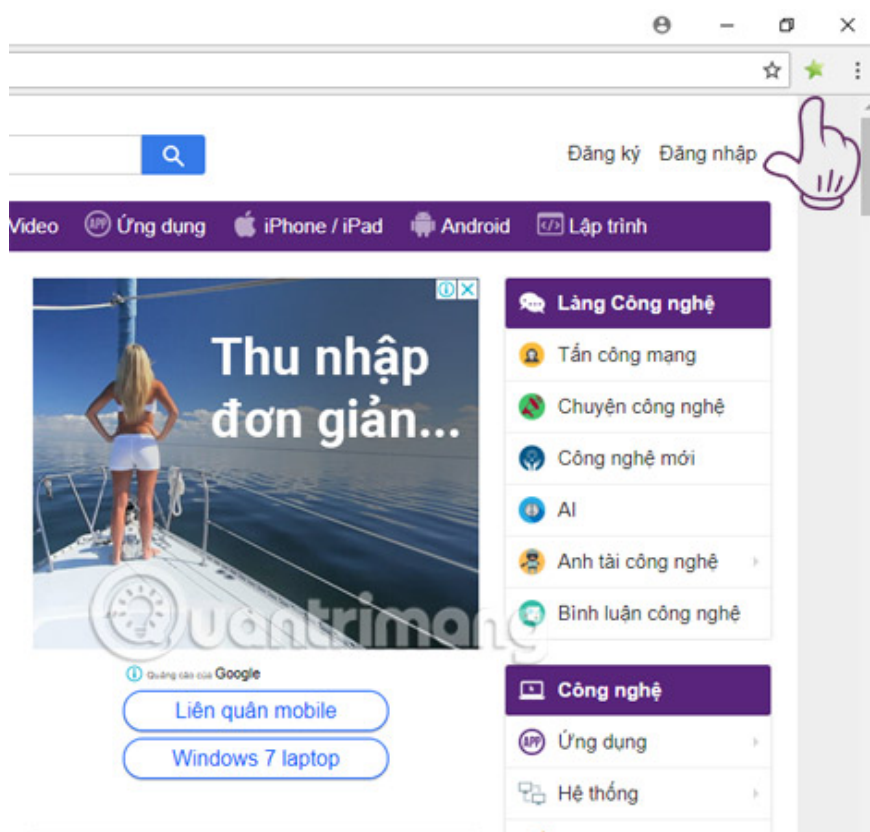

Step 3:

The system confirms again, you click on *Add add-on* to complete the installation.

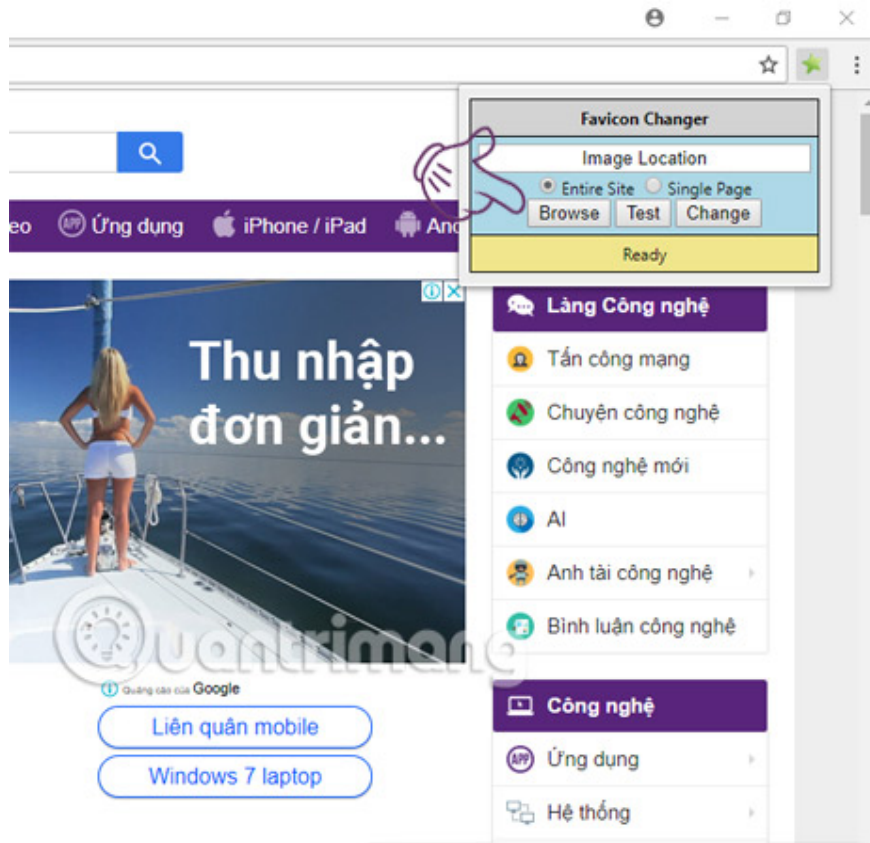

Step 4:

Next, click on *the new star icon* that appears in the upper right corner of the screen to proceed to change Bookmark icon to Google Chrome.

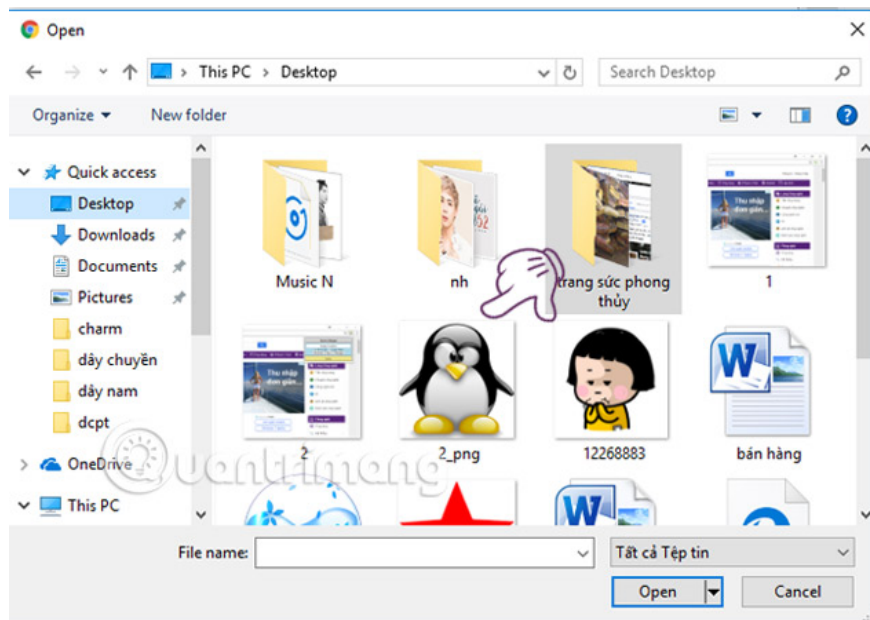

Step 5:

A new interface appears, select *Browse* as shown below.

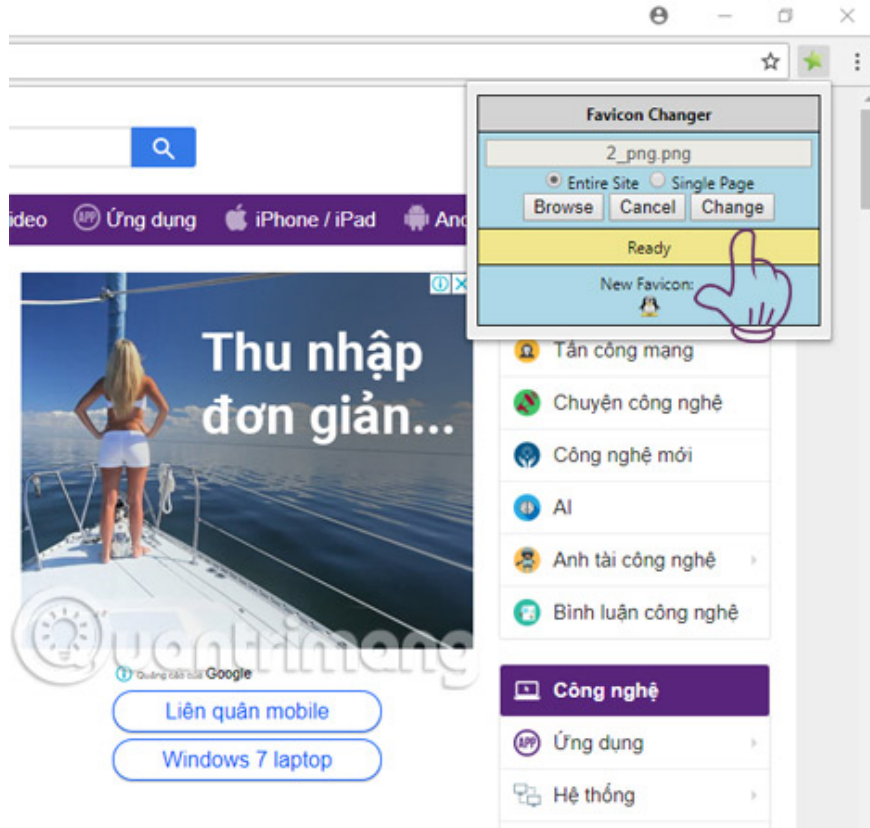

Select a *PNG image*> Select *Open* and proceed to upload them. Please note that the image format must be PNG only, because this is the type of font deleted, the software accepts this type.

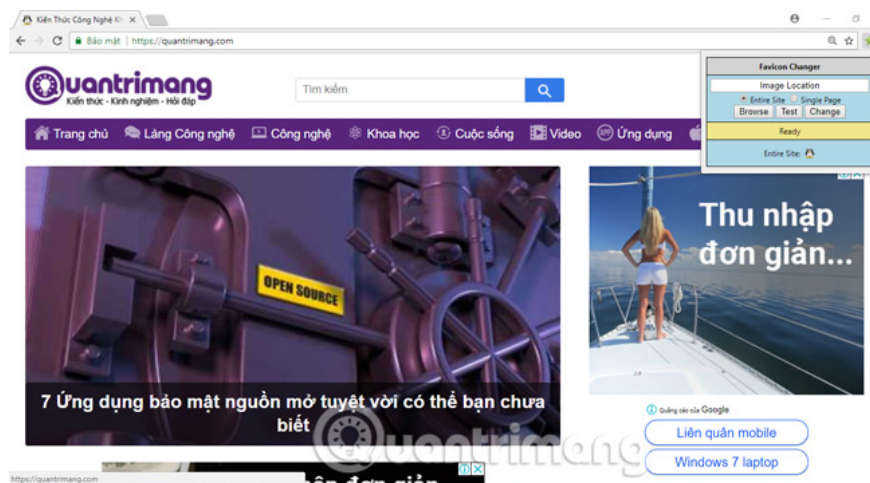

Step 6:

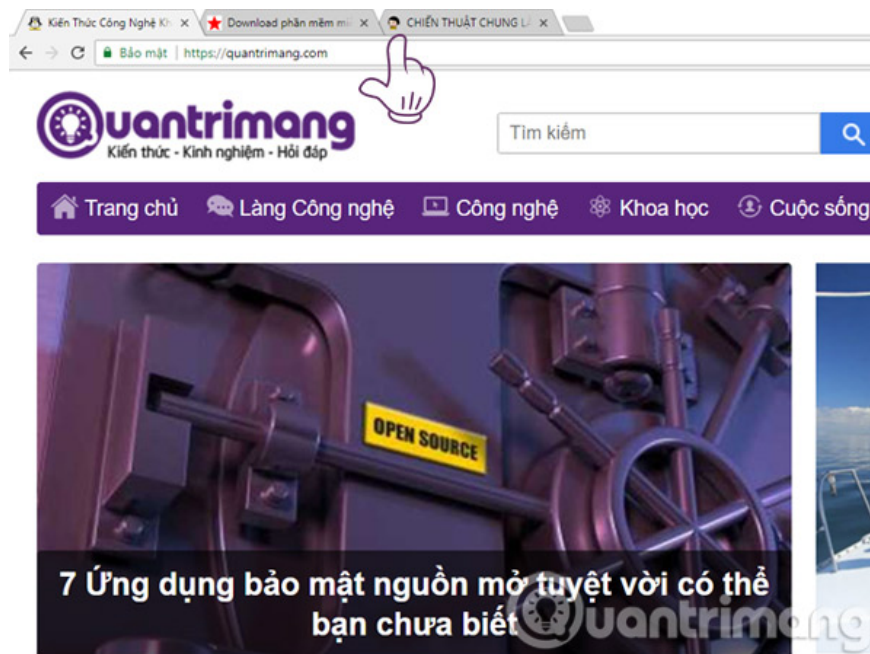

At this point, you will see the software show *New Favicon* , click *Change* to change.

And as you can see, changing the Bookmark icon on Chrome is already successful, you can notice on the title bar.

Similarly, you can do the same steps to change the Bookmark icon on Chrome for other tabs.

Above is how to change the bookmark icon on Chrome, hope this tip will help you have a more interesting experience when using Google Chrome. Also, how to change the Bookmark icon on Chrome can also be applied on C?c C?c browser with the same way.

I wish you all success!
