2. How to customize the Facebook interface with SC World
3. How to simplify the Facebook interface on Chrome

Instructions to change the Facebook interface

Step 1:

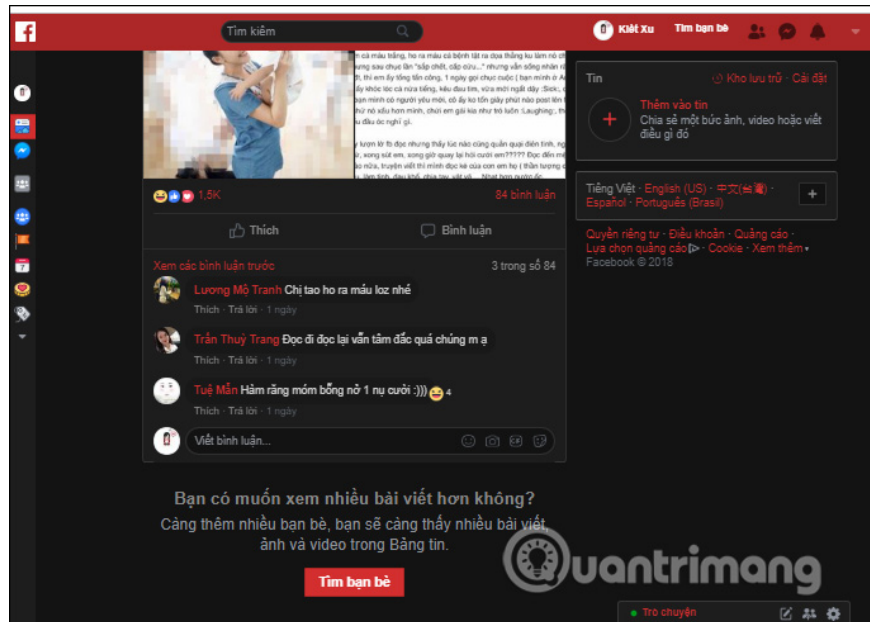

Users click on the link below to install the FBCustomizer utility.

1. Download the FBCustomizer utility

Step 2:

You reload the Facebook interface and will see the interface changed immediately according to the default design of the gadget. The search bar has been made more compact with a rounded design.

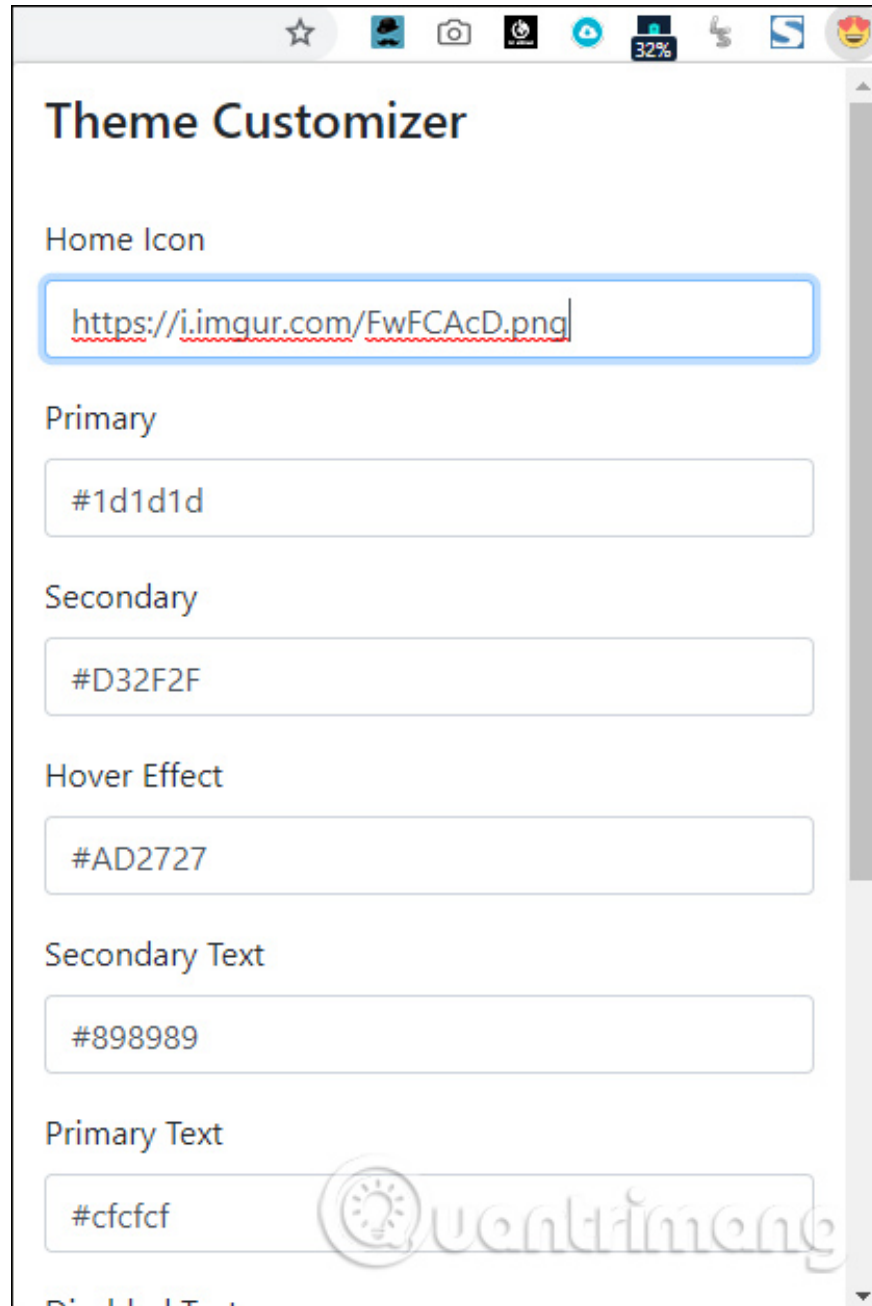

You can see the Facebook interface is much more optimized, the left toolbar will automatically be collapsed when not in use. When the user moves the mouse on the left bar, it automatically displays the same list.

Step 3:

According to the design of the utility, the Facebook interface to the red background, if you want to change the color, click on **the utility icon** at the end of the browser address bar.

There are different sections for users to enter the color code they want to change for elements on the interface. Color code referenced in the article Standard color coding table for programmers, designers, or using color-coded software.

The image shows a browser window with a 'Theme Customizer' page. The browser's address bar and toolbar are visible at the top. The page title is 'Theme Customizer'. Below the title, there are several sections for customization:

- Home Icon:** A text input field containing the URL `https://i.imgur.com/FwFCAcD.png`.
- Primary:** A text input field containing the hex color code `#1d1d1d`.
- Secondary:** A text input field containing the hex color code `#D32F2F`.
- Hover Effect:** A text input field containing the hex color code `#AD2727`.
- Secondary Text:** A text input field containing the hex color code `#898989`.
- Primary Text:** A text input field containing the hex color code `#cfcfcf`.

A watermark for 'Quantrimeng' is visible in the bottom right corner of the page content.

Just enter the color code and reload the Facebook page to see the new interface applied immediately.

The FBCustomizer utility will streamline the interface on Facebook, especially the menu bar to the left of the interface will be hidden. The list will automatically appear when you just need to drag the mouse. Colors on Facebook will be changed according to the color code that users use.
