

How to change the icon, change the iPhone app icon without jailbreak

You can choose from many different sets of applications in different topics in the guide to change the iPhone application icon in this article

IOS operating system is stable and optimized applications very well for users, but iOS is too little customization of the interface or no settings to help change the icons on the iPhone and iPad.

If you want to have applications or settings that change the iPhone interface like that, users need to jailbreak the device. But jailbreak is not everyone knows and if it does, it is not safe for users because jailbreaking iPhone will often have security issues.

But now to change the iPhone icon, you don't need Jailbreak because there is an online tool that you can change the iPhone / iPad icon with lots of completely free icon sets. Below is a guide to changing the icon on iPhone / iPad and without jailbreaking.

1. How to adjust notification number on iPhone application icon
2. How to deepen the blur effect in iPhone UI UI
3. How to change the Settings interface on iPhone
