You want to change the language on facebook from English to Vietnamese, or you want to change the language on facebook from Vietnamese to foreign languages ??to facilitate your use of facebook. If you do not know how to adjust the Facebook language, you should follow the article below.

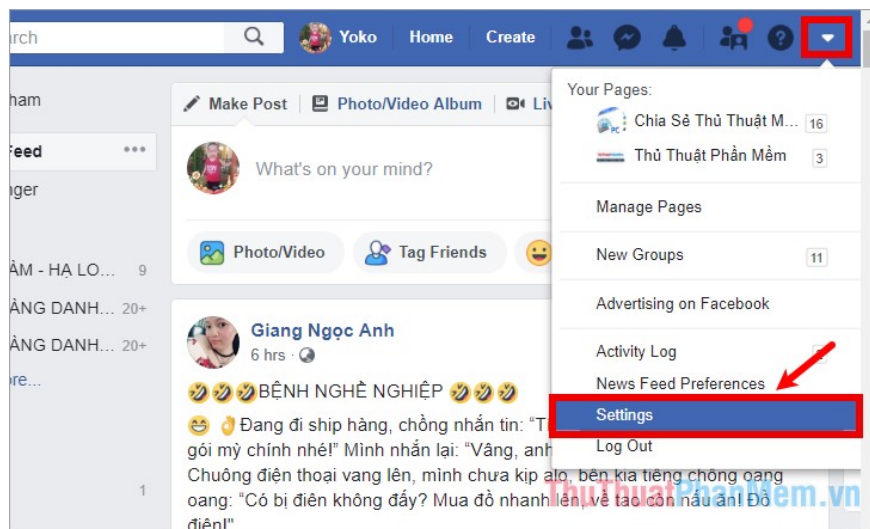

Here's how to change the Facebook language on your computer and on your phone, please refer.

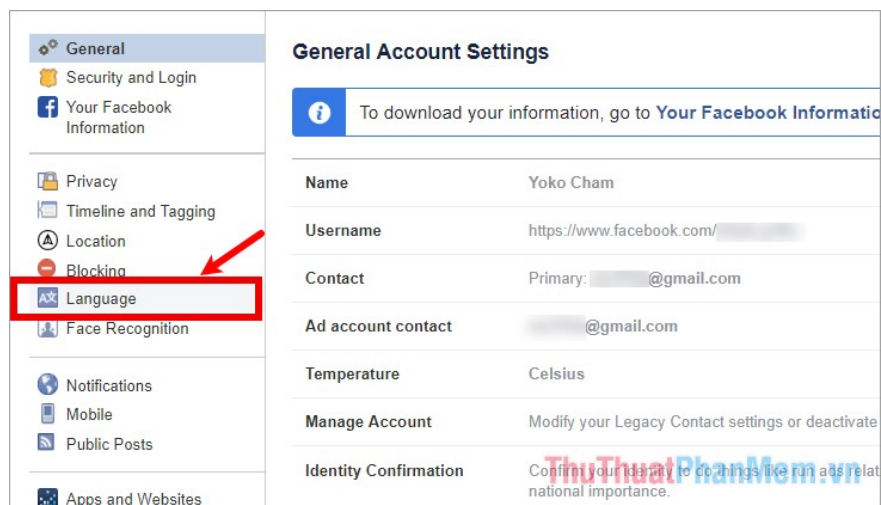

How to change the language on Facebook using the web on your computer

Step 1: You access the web <https://www.facebook.com/> and log in to the facebook account you want to change the language.

Step 2 : On the facebook interface, select the black arrow icon in the upper right and select **Settings** .

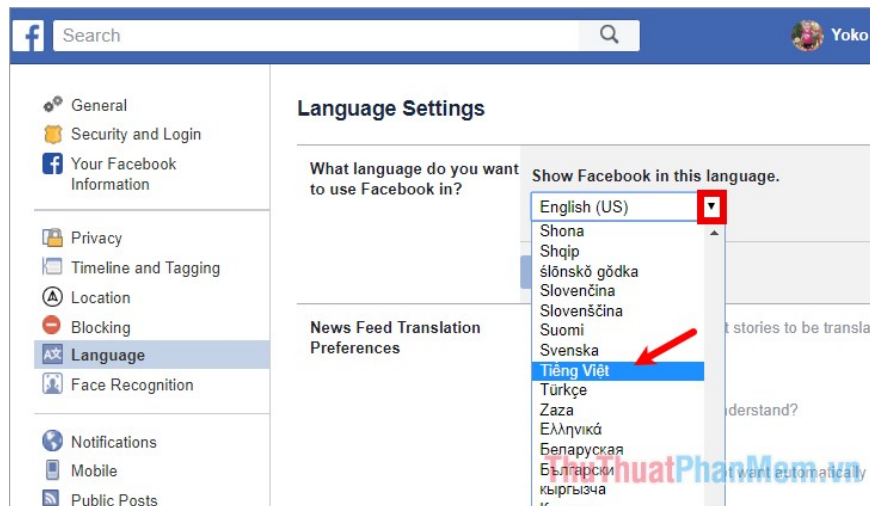

Step 3: Next on the facebook settings page, select **Language** (Language) on the left menu.

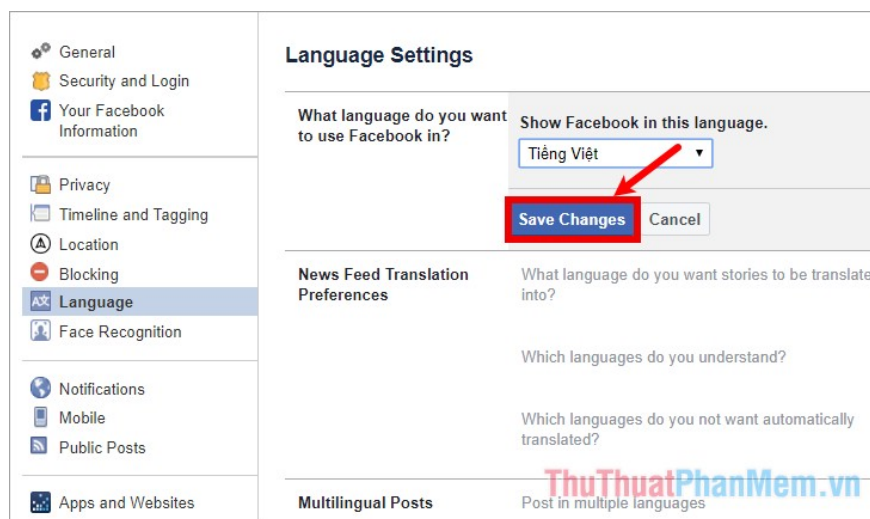

In the **Language Settings** section on the right side, select **Edit** on the **What language do you want to use Facebook in line?** (What language do you want to use in Facebook?)

Step 4 : In the **Show Facebook in this language** section, click the black triangle icon in the language selection box below and select the language you want to use on Facebook.

Then you click **Save Changes** to save changes.

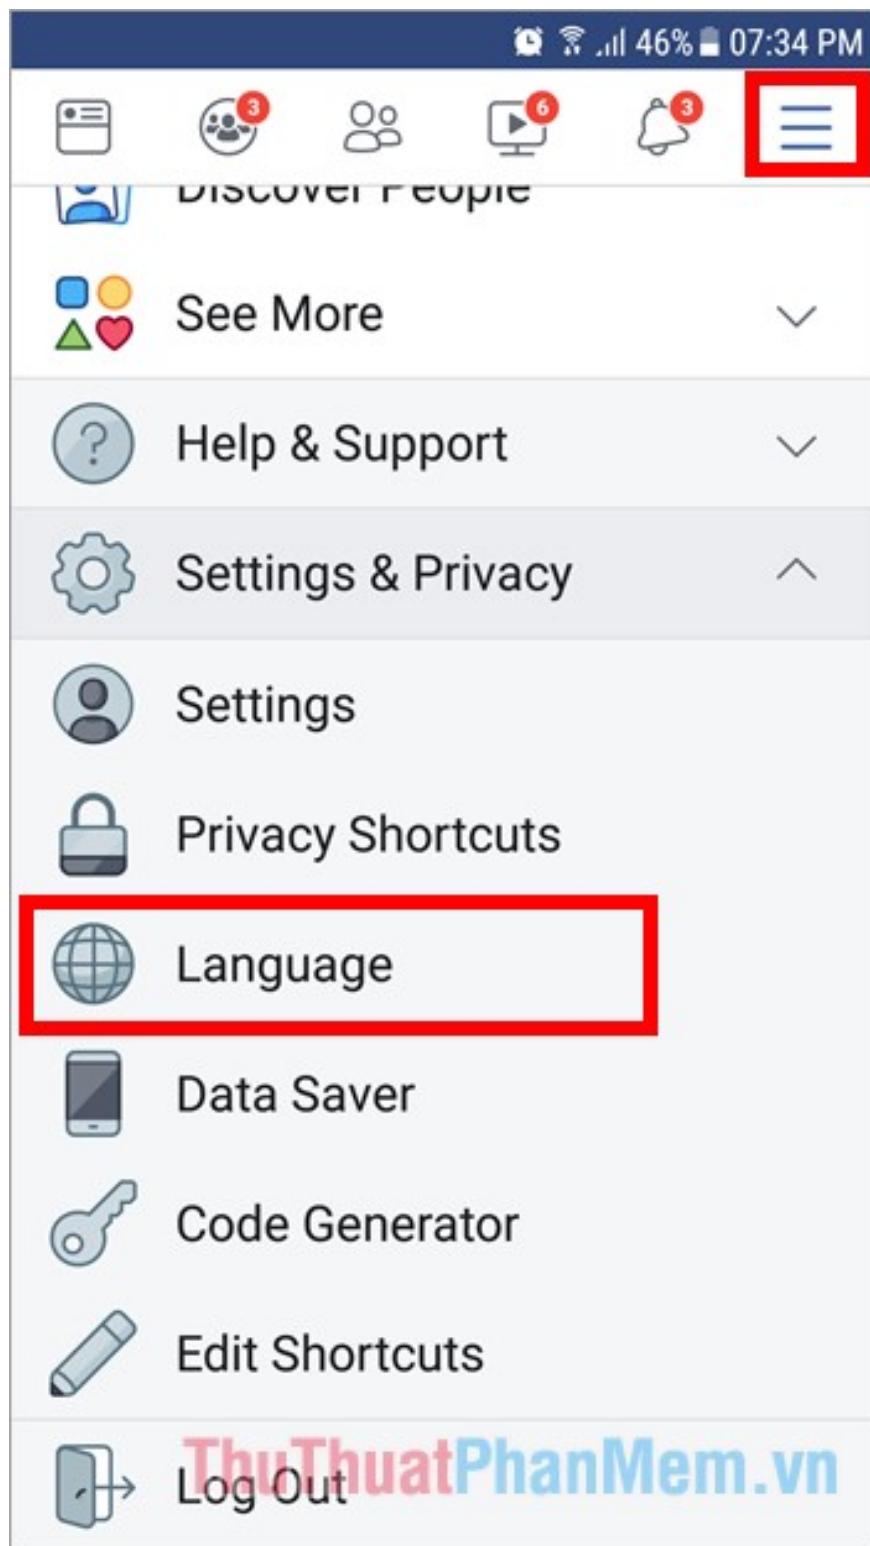

How to change the language on Facebook using the app on your phone.

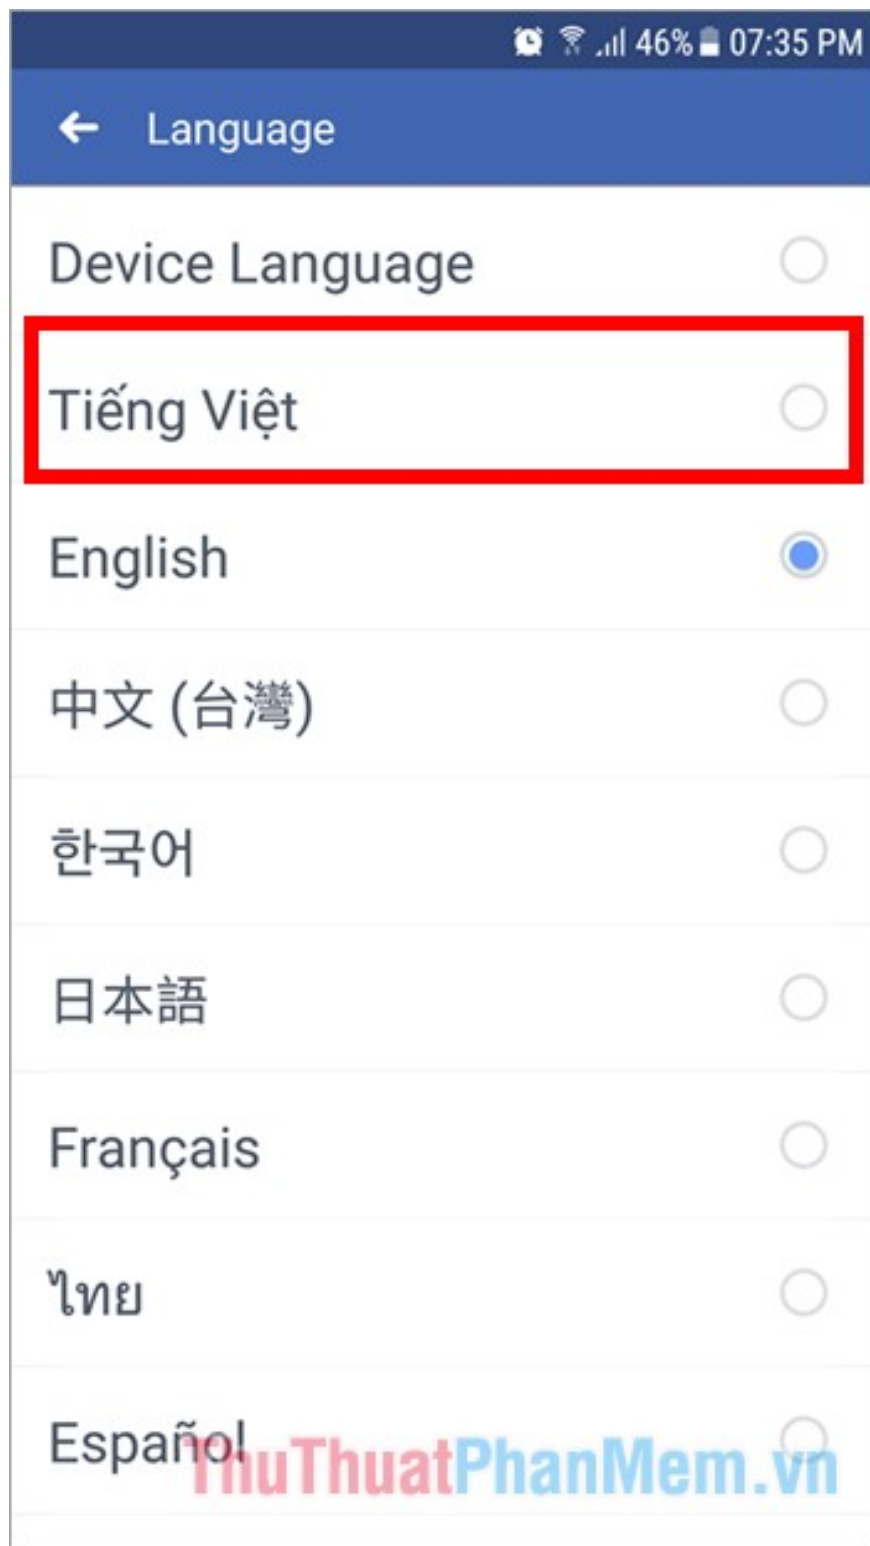

This way TipsMake.vn applies on Android operating system on Sam Sung, you perform the following steps:

Step 1: First, on the phone screen, select the Facebook application to open the application. Then log into the facebook account that you want to change the language.

Step 2 : On the facebook interface you select the icon 3 dashes, then select **Settings & Privacy -> Language**.

Step 3: Next in the **Language** section, select the language you want to change, for example, if you want to change to Vietnamese, select Vietnamese.

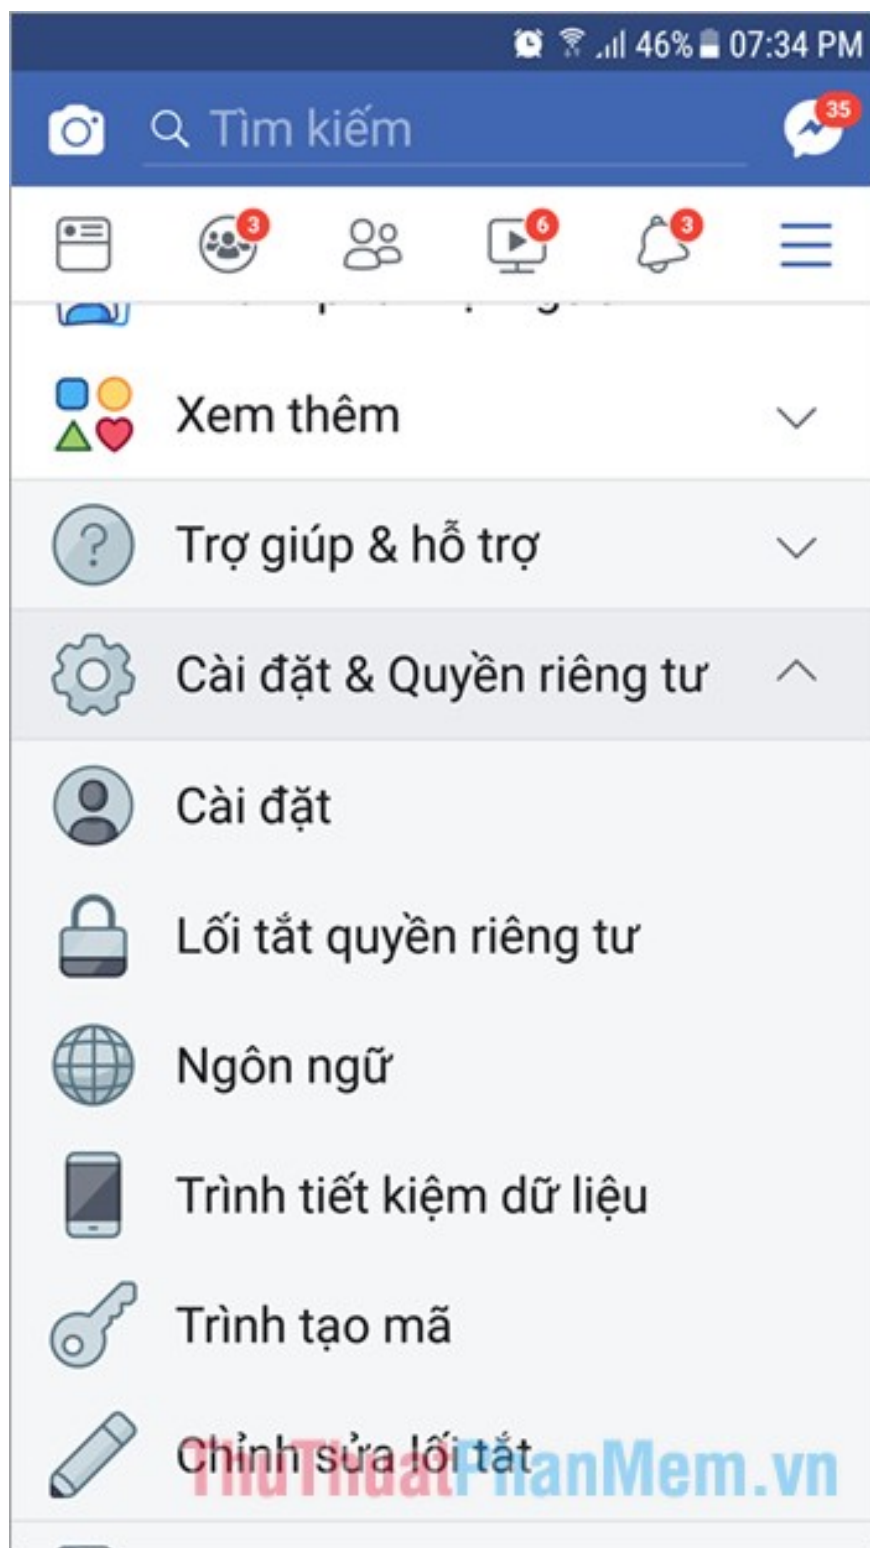

Automatically Facebook will set the Vietnamese language for your facebook.

Hãy chờ giây lát trong khi chúng tôi
thiết lập Tiếng Việt...

Thus your Facebook language will be changed.

For iPhone, iPad and iPod phones, because of the characteristics of iOS, you will not be able to change the language on the Facebook application because the language on Facebook depends on the system language. So if you want to change the language on Facebook then you need to change the system language of the device. You do the following:

1. First on the iPhone interface, select the **Settings** icon to open the settings.

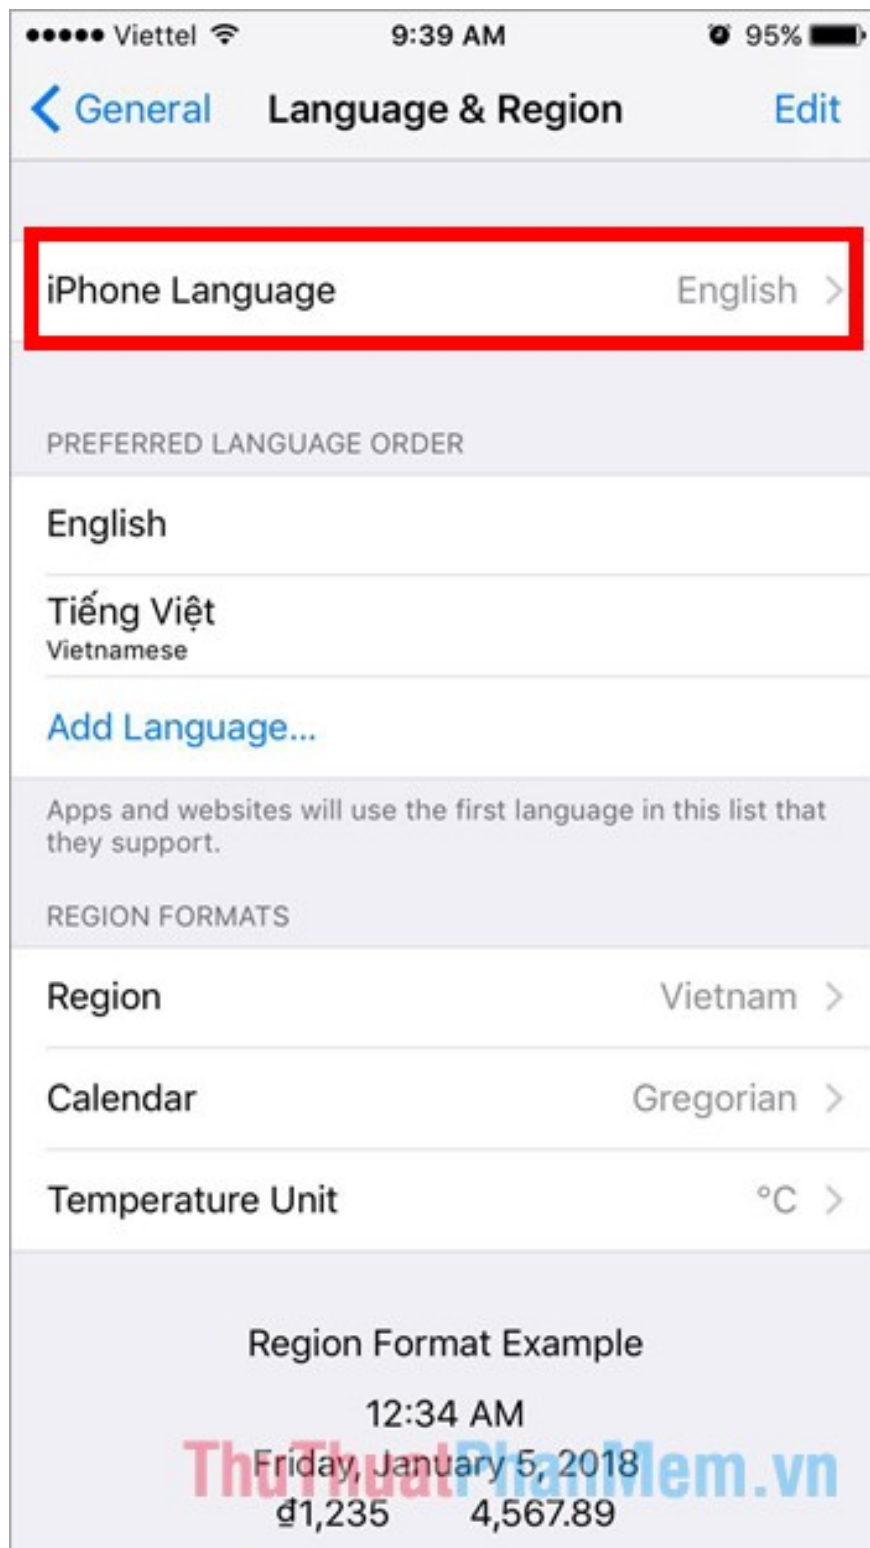

2. In the settings you pull down and select **General** (**General Settings**).

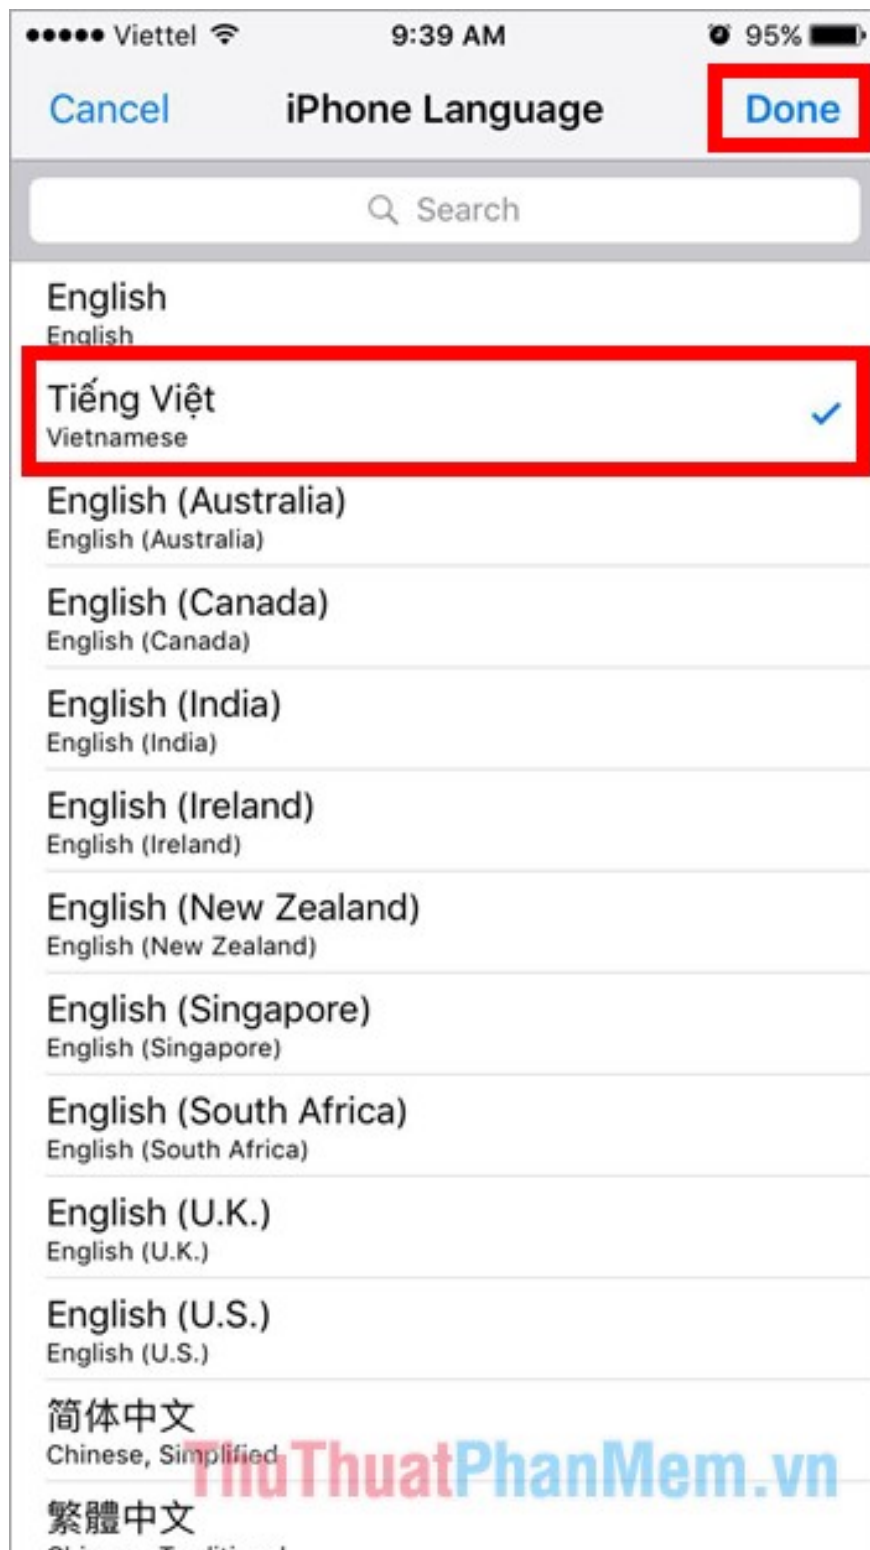

3. Next, select **Language & Region** .

4. In the **Language & Region** section, click **iPhone Language** (**iPhone Language**).

5. Then select the language you want to change on Facebook and select **Done** to complete.

A confirmation of the language change appears, select **Change to Vietnamese** (or the language you choose).

You just need to wait a moment for the computer to set the language for the system, so your facebook can also change the language.

Above the article has shown you how to change the Facebook language on your computer and on the Facebook application. You can use facebook with any device you can rely on to customize the Facebook language. Good luck!
