

# How to change WiFi Archer C9 password, replace pass WiFi TP Link Archer C9 simple

You are using the Archer C9 WiFi transmitter but do not know how to change the wifi password, so follow these four simple steps to quickly change the WiFi pass without resorting to the technical experts.

You are using the Archer C9 WiFi transmitter - one of TP Link's high-end wifi transmitters, but don't know how to change the wifi password. This is understandable because the Archer C9 uses the new interface of TP Link, so the password change operations are not the same as the popular TP Link modem lines.

A technician is needed now, but instead of relying on them, you can solve the problem yourself simply. Moreover, this also saves time because the technical call is not sure they have appeared immediately, sometimes you have to wait a few hours or even the whole day. The best option in this situation is to become a temporary technical expert and TipsMake.com will guide you how to change the simple Archer C9 wifi password at home. Let's take a look and start working.
