

# How to change Windows 11 desktop wallpaper quickly

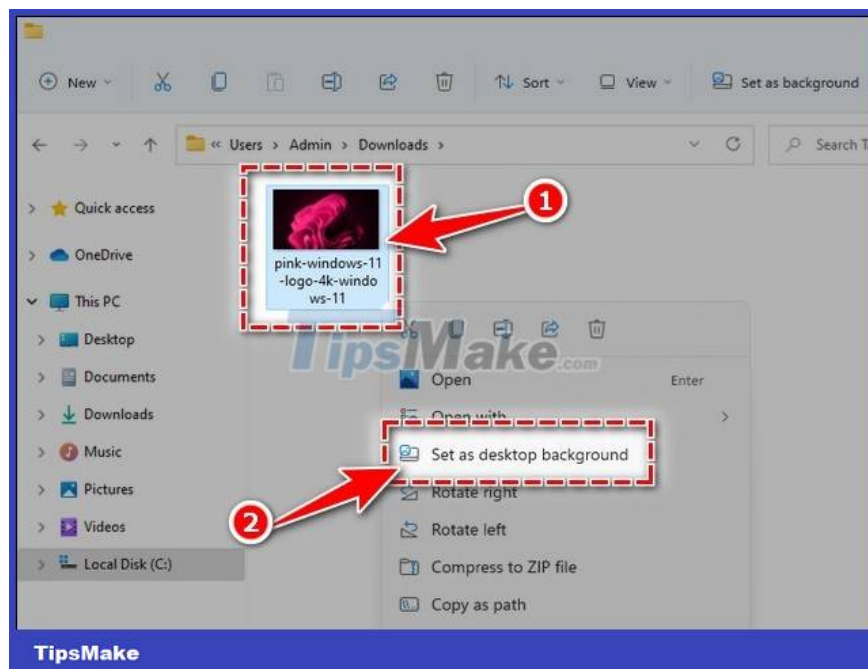

Is it easy to change the Windows 11 desktop wallpaper compared to previous operating systems? When you have a beautiful image downloaded on the internet and want to replace the old wallpaper on Windows 11, how to start?

In the following tutorial, TipsMake will share with readers how to change the desktop wallpaper on Windows 11, change the new Desktop interface to make the use more interesting and unique, if you do not have a wallpaper yet. High quality Windows 11, download them from the link below.

## How to change the Windows 11 desktop wallpaper

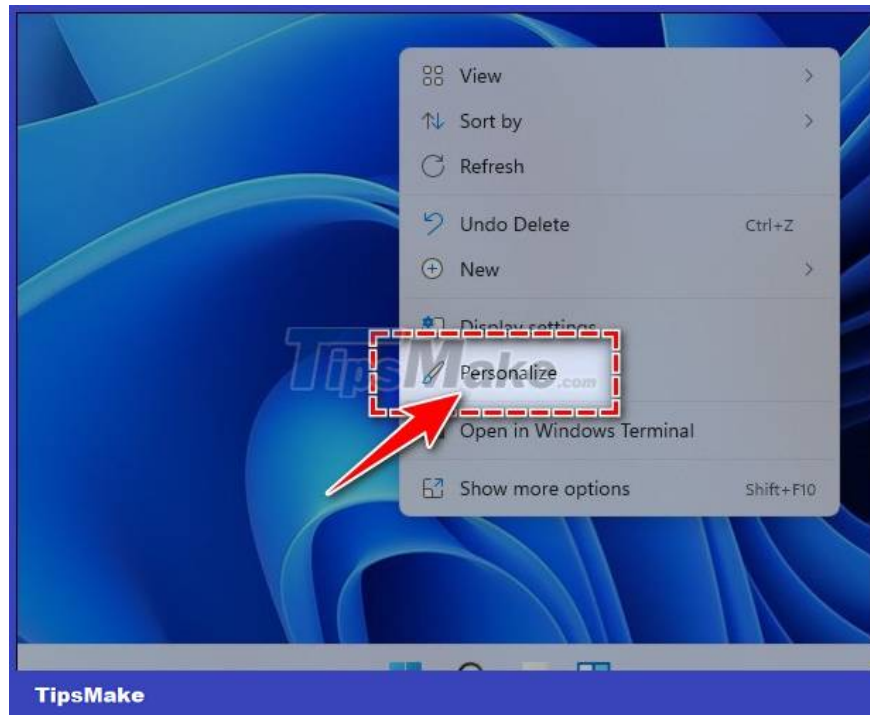

### 1. Change Windows 11 desktop wallpaper from photos

One of the simplest and fastest ways to change the Windows 11 wallpaper on your computer is to Right-click on the image you want to set as wallpaper, select Set as desktop background and you're done. Immediately your Windows 11 desktop wallpaper will be changed with a new one.

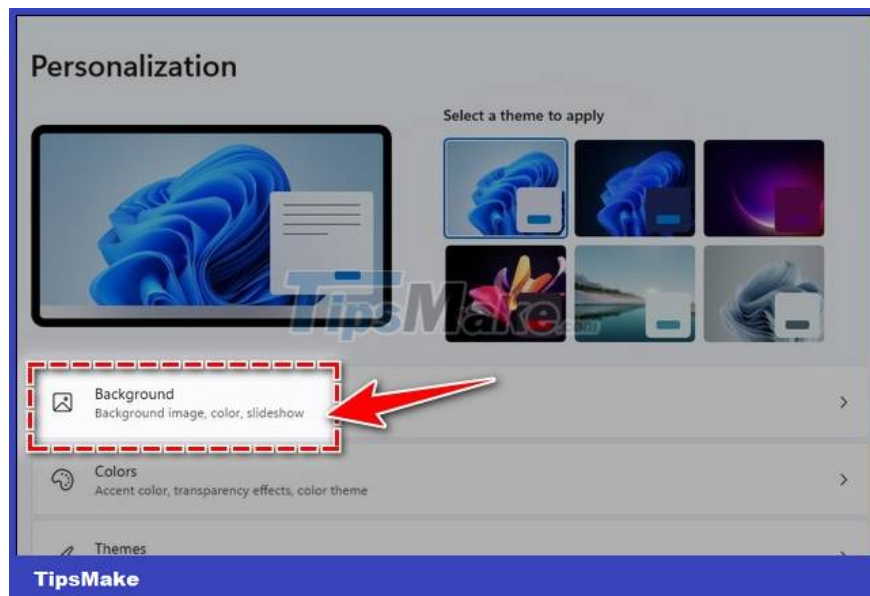

### 2. Change Windows 11 desktop wallpaper from Settings

To change the wallpaper on your Windows 11 computer, right-click on the Desktop and click Personalize to enter the wallpaper setting

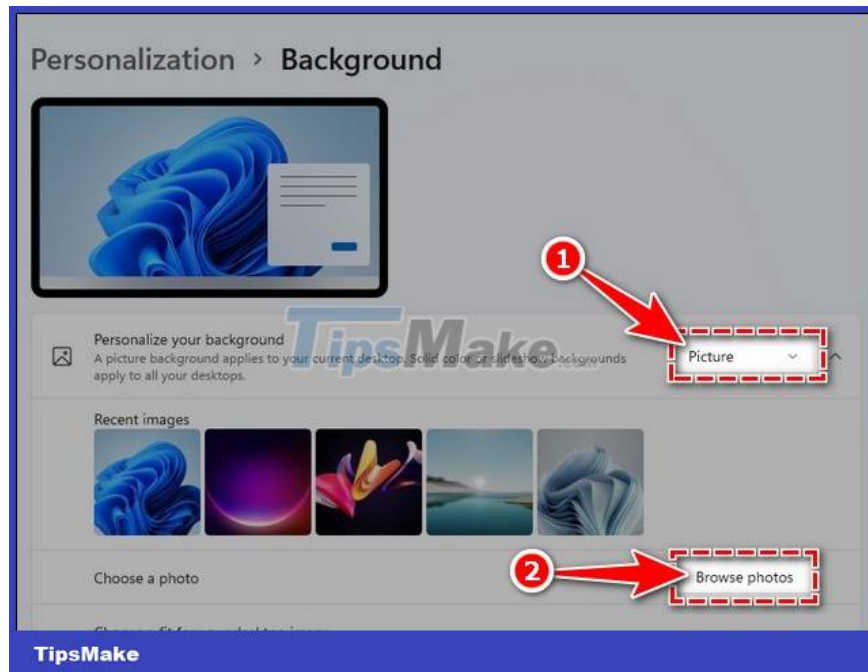

In the Personalize panel, select Background on the right to customize the Windows 11 desktop wallpaper more intensively.

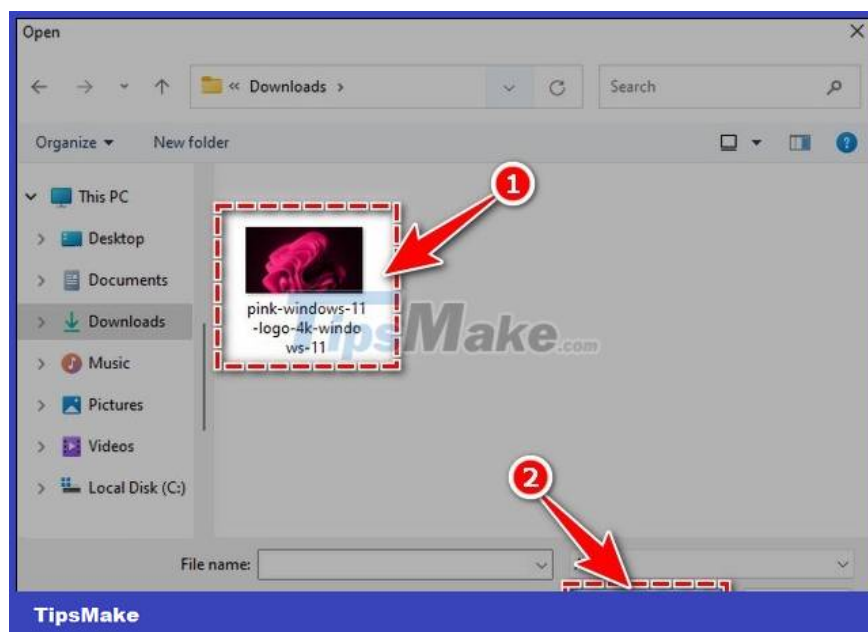

### 2.1. Change wallpaper with Picture mode

- Picture is the most basic Windows 11 desktop wallpaper changer mode, allowing you to change any image and use it as a wallpaper. Select Picture at Personalize your background.

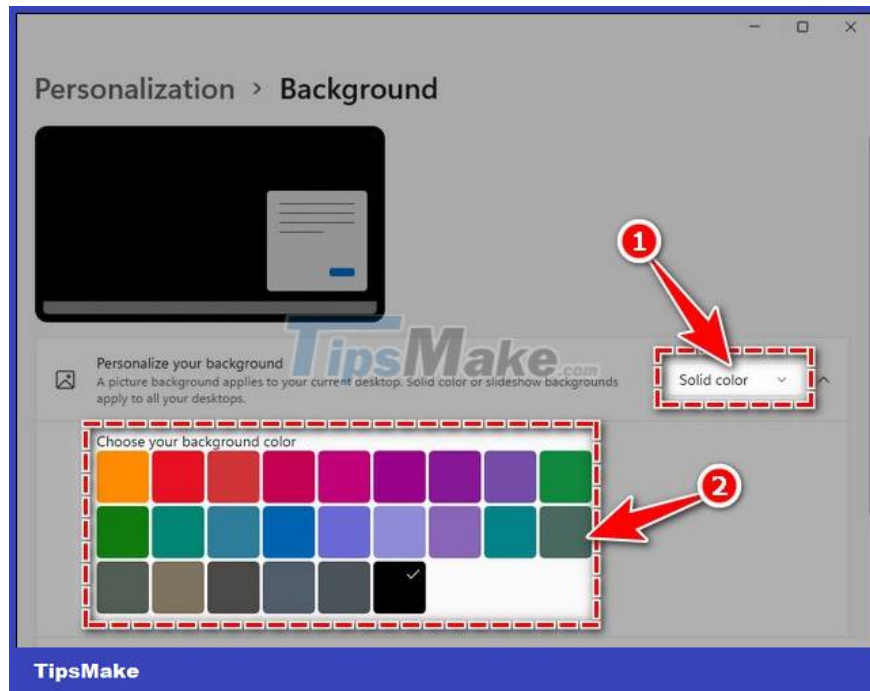

- Next, you select the image to change, click Choose Picture and the Windows 11 desktop wallpaper will be changed.

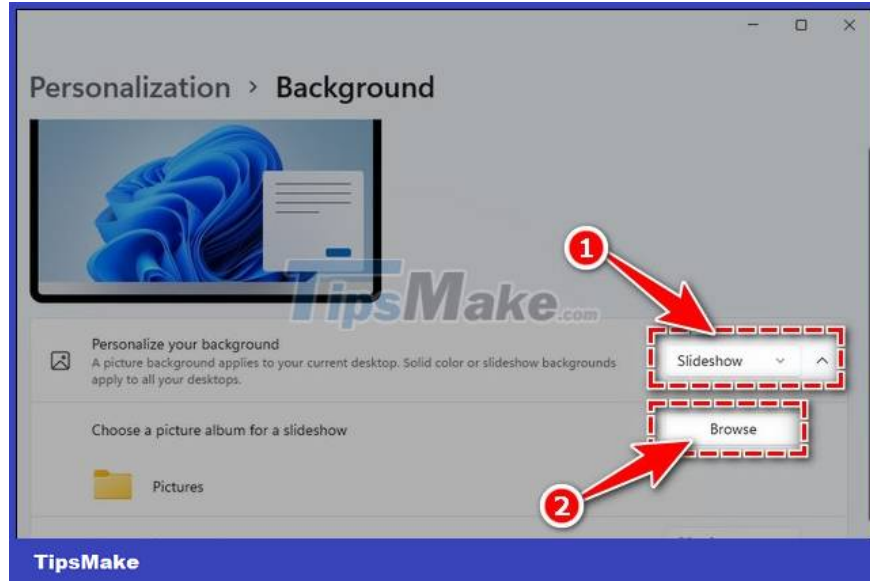

## 2.2. Change wallpaper with Solid Color mode

- In Solid color mode, you can only use color blocks as Windows 11 desktop wallpaper instead of selecting an image. Select Solid color at Personalize your background => select the corresponding color below to make the wallpaper.

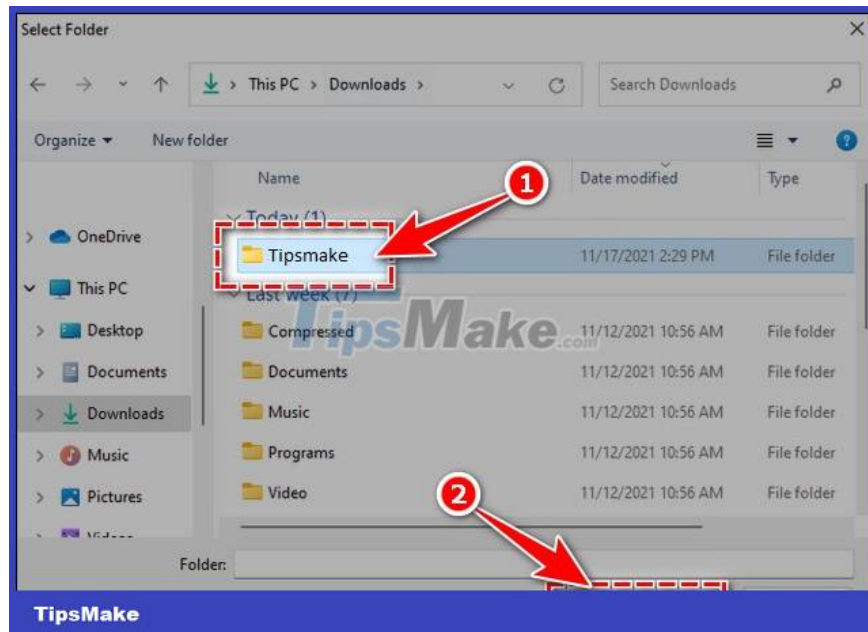

### 2.3. Change wallpaper with Slideshow mode

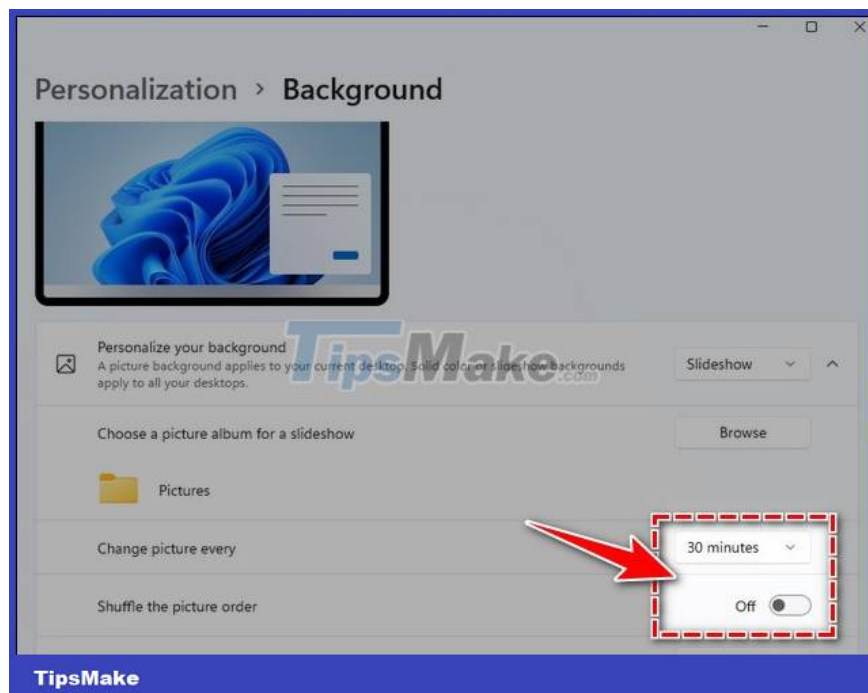

- Finally, the Slideshow mode, the Windows 11 desktop wallpaper automatically changes over time (you set the change time) at a designated folder. All photos in that folder will be displayed in the order you set. Select Slideshow at Personalize your background, click Browse below.

- Select the folder containing all the photos you want to change over time, click Choose this folder.

- Next you choose Change time between pictures at Change picture every.
- + Shuffle the picture order: Change the Windows 11 desktop wallpaper randomly, not in your sort order.

Hopefully the above sharing of TipsMake on how to change the Windows 11 desktop wallpaper will help you better understand all the functions. In addition, if you completely change the Windows 11 interface, try installing the Windows XP interface for Windows 11 here, completely renewing the style.
