

# How to change your account picture, avatar, avatar on Windows 10

As you know in windows we can freely set the avatar for the account in the computer. From Windows 7 and earlier we can set an avatar for the account and on Windows 10 is no exception. Setting an avatar for an account in windows helps us personalize our computer and also makes it easy to distinguish between accounts

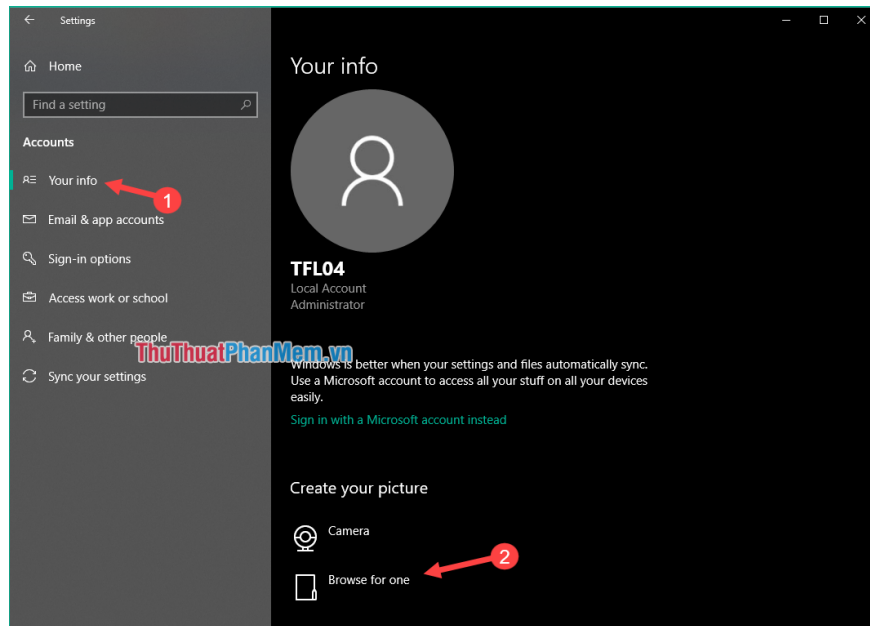

As you know in windows we can freely set the avatar for the account in the computer. From Windows 7 and earlier we can set an avatar for the account and on Windows 10 is no exception. Setting an avatar for an account in windows helps us personalize our computer and also makes it easy to distinguish between different accounts if your computer has multiple accounts. The following article of TipsMake.com will guide you to change your avatar for your account on windows 10, please follow along!

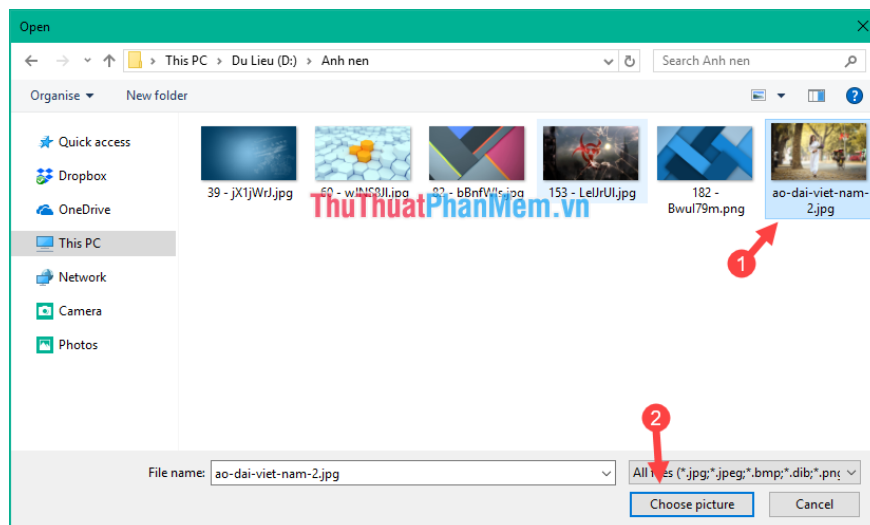

**Step 1:** Open the **Start menu**, then click on the account icon and select **Change account settings** .

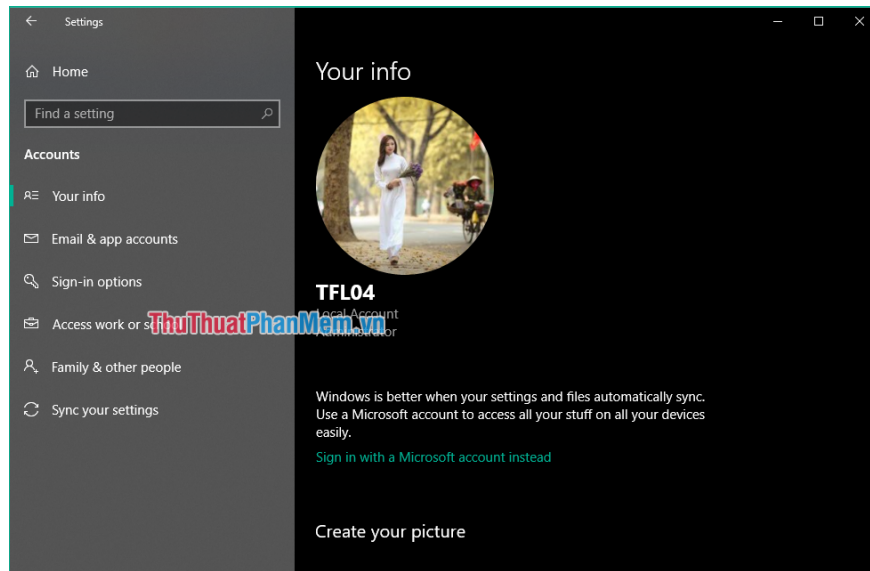

**Step 2:** The **Settings** window appears in the **Your info** section, scroll down to the **Create your picture** section , here we have 2 options. If your computer has a camera, you can choose **Camera** to take a avatar, otherwise choose **Browse for one** to select the image on your computer.

**Step 3:** Choose photos in your computer and click **Choose picture** to select photos.

Thus the avatar of the account has been successfully changed!
