

How to change your Facebook location

Facebook dating based on the current location is located on the device to introduce friends. So how do you change your dating position?

Facebook dating is based on location-based services to book your dating location and make suggestions about people around. The location in the Facebook Dating feature will not automatically change but will be updated by the user and changed on the device.

When a user changes a dating location, that location is also changed on your dating profile to show to others. Dating positions in Facebook profiles will somehow affect the people we are introduced to. So what if I want to change my dating location on Facebook Dating? The following article will guide you to update your dating location in Facebook Dating.

1. How to delete Facebook dating profiles, create new Facebook Dating
2. How to name Facebook
3. Guide to hide Facebook Fanpage like activity
4. How to hide your friends list from everyone on Facebook
