**Step 2:** Switch to the **Security** tab , click **Change Password** in the left menu, or the **Change** button in the **Password** line .

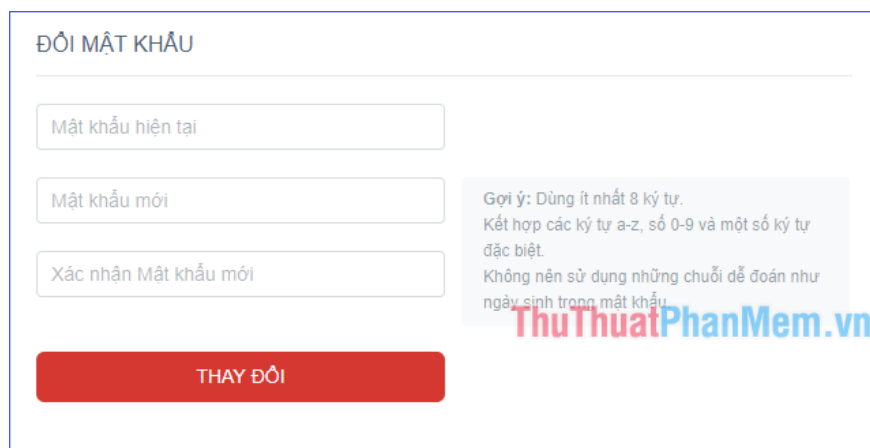

**Step 3:** If your account has a phone number set up, in this step you click on **Get code** , see the verification code sent to your phone number, then enter that code in the box and click **Confirm** .

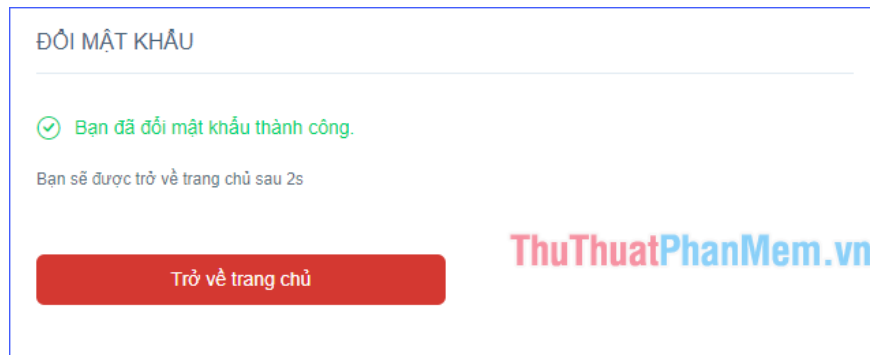

In addition, if the account has **Garena Authenticator** installed , you need to enter the authentication code sent to this application from the system.

**Step 4: Re-** enter the current password in the top box, then enter a new password in the bottom two boxes and then press **Change** (the new password needs to meet the conditions shown on the right).

The message appears, you have successfully changed your password is OK!

\* **Note:** If you can't log in to your account after changing your password, check the **Capslock** key , clear your browsing history, and set the time on your computer to match the current time, then log in again.

So after just a few simple and quick steps, you have completed changing the password for your Garena account. Good luck!
