

# How to change your Zalo avatar on your computer

The feature to change the Zalo profile image is now available for the computer version, so you can get the image from the computer to refresh the profile picture of personal Zalo account.

Zalo version on the computer possesses quite limited features, not yet as rich as when we use the Zalo application on smartphones. With the previous version of Zalo computer, users cannot change the avatar image but must change avatar Zalo on mobile.

However, when you upgrade the latest version of Zalo, you can change the image of your Zalo account. How to change the avatar image Zalo is very simple, you just need to select the image on the computer to finish.

1. How to know if your Zalo account has been hacked?
2. How to use Zalo Web without installing software
3. Instructions to retrieve the Zalo password on the phone

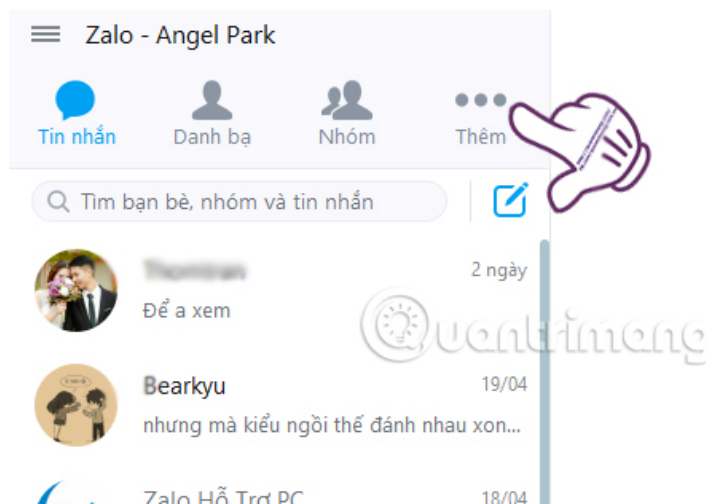

## Step 1:

First of all, you need to upgrade your computer Zalo to the latest version according to the link below.

1. Download the computer Zalo software

## Step 2:

Then at the personal Zalo account interface, we click on **the three dots icon icon** Add.

Chào

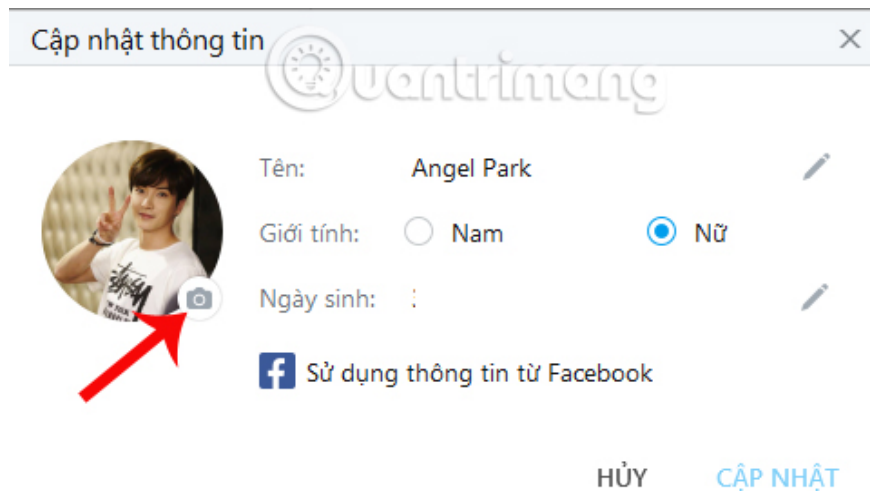

### Step 3:

A list of options for editing accounts appears, click **Update information** .

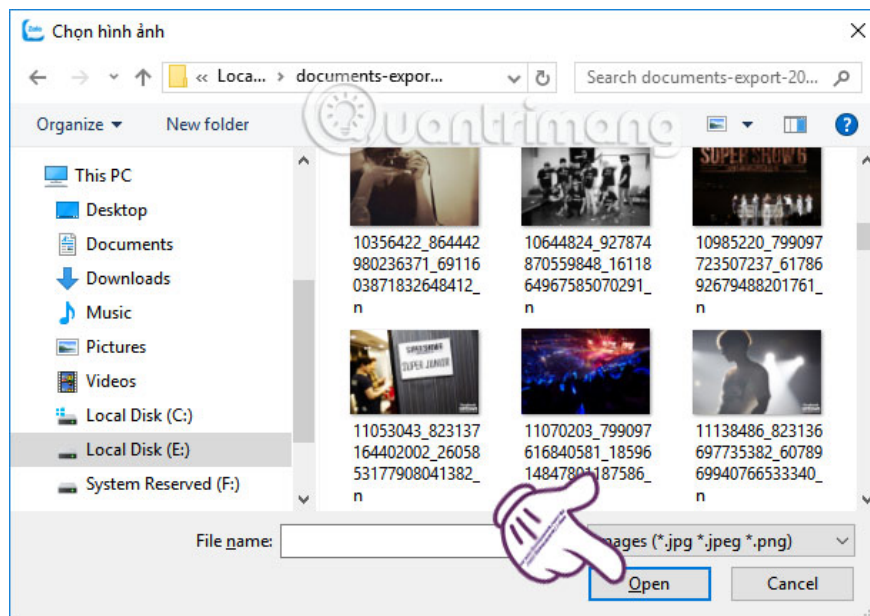

### Step 4:

The Update information interface appears with the personal information we entered earlier. At the avatar frame, you click on **the camera icon** .

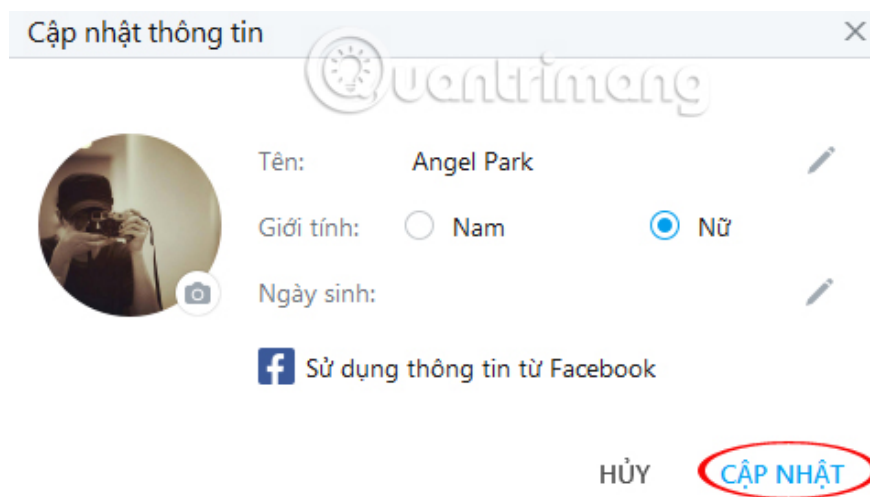

Appear on the computer interface. We find the folder containing the image we want to change the personal image of Zalo account, click on the image and click **Open** .

## Step 5:

After selecting the image to change the avatar on Zalo, click **Update** below to save the change.

So we can change the image of Zalo right on the computer, without having to change the Zalo application for the phone as before. Always update Zalo to the latest version to experience new features.

I wish you all success!
