

How to check activity on Facebook

On Facebook will save all activities that users perform, including comments, likes, ...

Facebook is currently the most used social network, and the time you use Facebook is almost all day. So have you ever checked the activities performed on Facebook? Facebook will record the activities that users use Facebook, including photos, comments, photos on Facebook, etc.

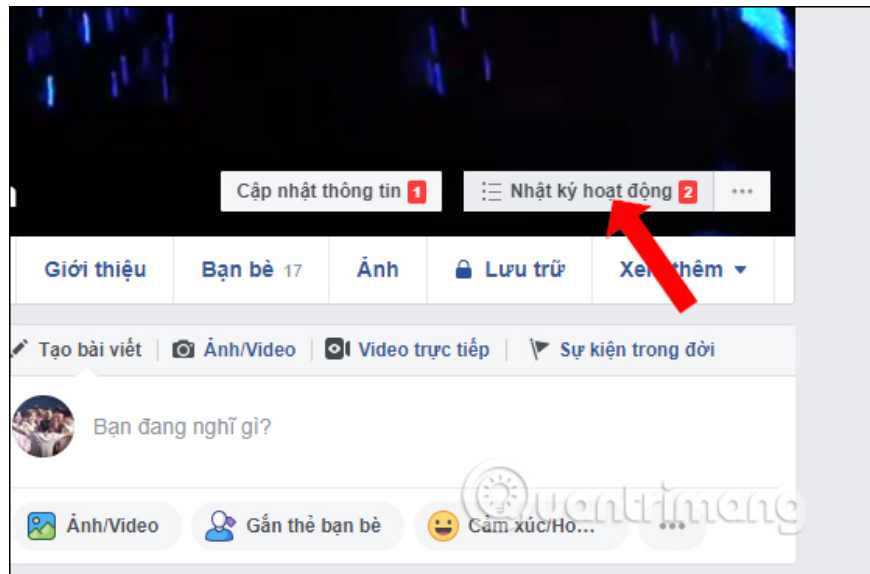

Viewing activity on Facebook or activity log is similar to watching Facebook timeline. Users will be able to control their activities on Facebook, as well as find what you have done. The following article will guide you how to view activity logs on Facebook.

1. How to backup Facebook data to your computer
2. How to filter friends, change posts privacy, protect avatar Facebook
3. 5 Facebook privacy settings you should know

1. Instructions for viewing Facebook PC logs

Step 1:

At the personal Facebook interface, click on **the Logging button** at the top of the interface.

Step 2:

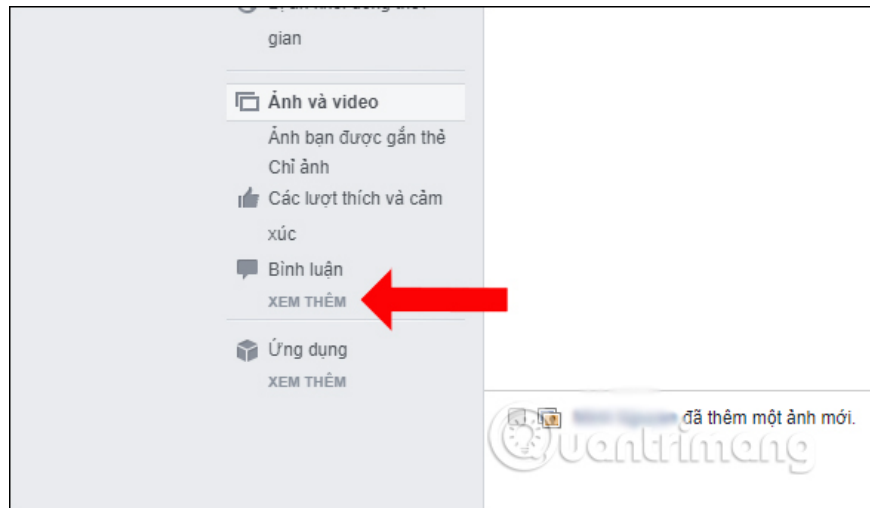

Switch to the new interface with all user activity. We see a lot of sections like Activity Logs with summarizing the content, Reviewing the timeline with those who have tagged you, Reviewing your face photo, Reviewing the card to control the tag You are required.

Below there will be different specific sections with categorizing article sections such as tagged posts, your timeline posts, posts hidden from the timeline, .

Continued below will be photos and videos that you upload to Facebook, or tagged images, etc. Comments or dropping emotions for other Facebook posts will also be listed. Click the See more button to expand more content.

The interface of the posts will display as below.

2. How to view Facebook and iOS Facebook activities

Step 1:

With the Facebook account on Android, iOS we also access the personal account interface, then click on **the Activity log entry** . Soon all of your activities are displayed.
