

# How to Check Google History

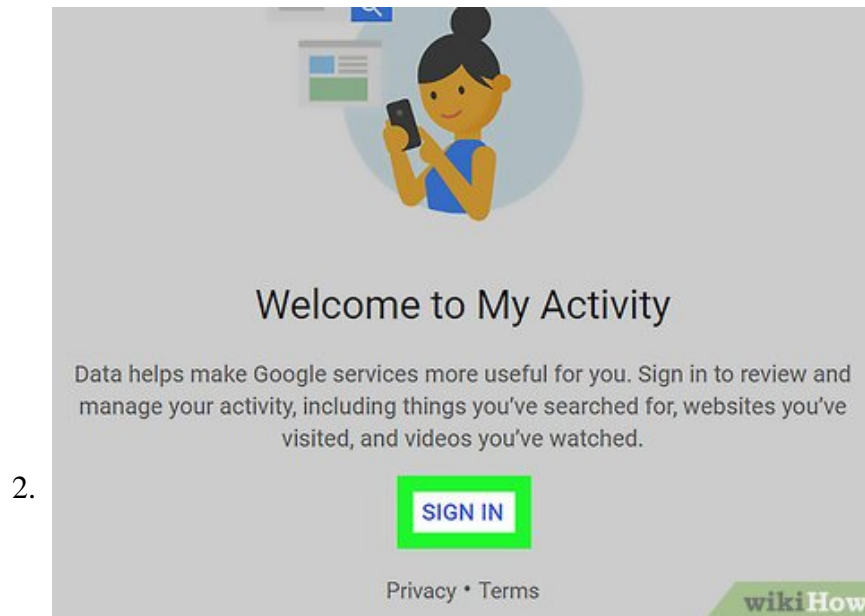

This wikiHow teaches you how to see your Google activity on both a computer and a smartphone (or tablet), as well as how to view your Google Chrome history on desktop and mobile. Open the Google Activity page. Go to <https://myactivity.google.com/>

Method 1 of 5:

## Checking Google Account History on Desktop

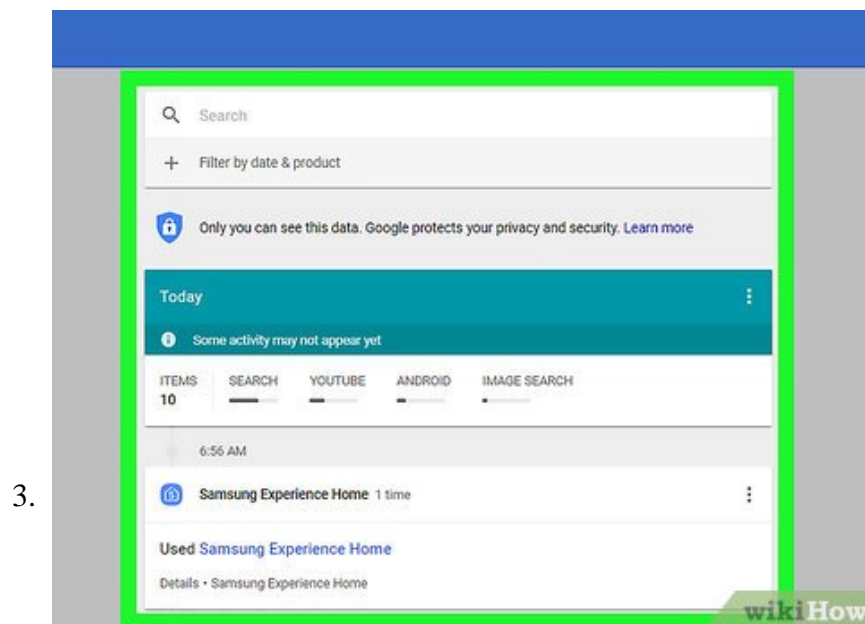

**Open the Google Activity page.** Go to <https://myactivity.google.com/> in your computer's web browser.

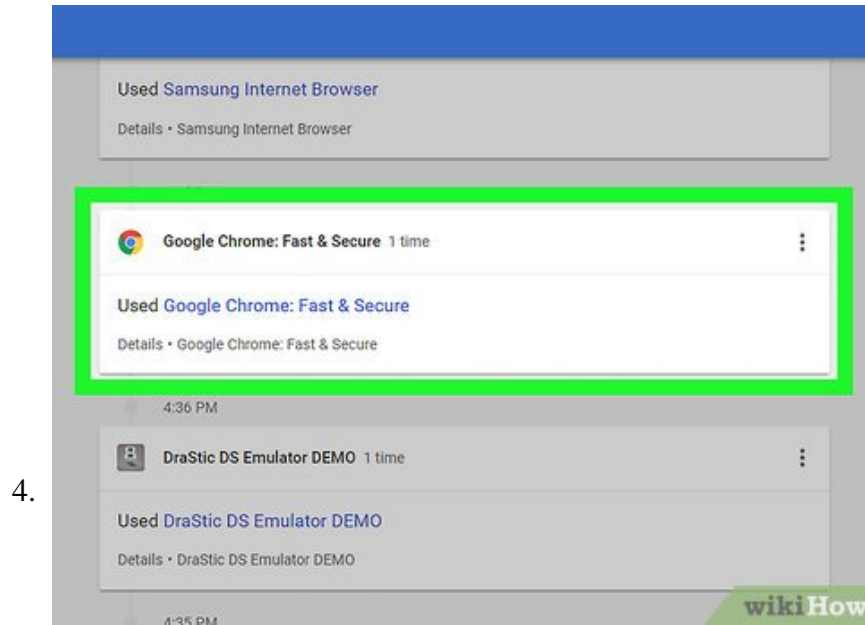

**Sign in.** Click **SIGN IN** in the middle of the page, then enter your Google Account's email address, click **NEXT**, type in your Google Account password, and click **NEXT**.

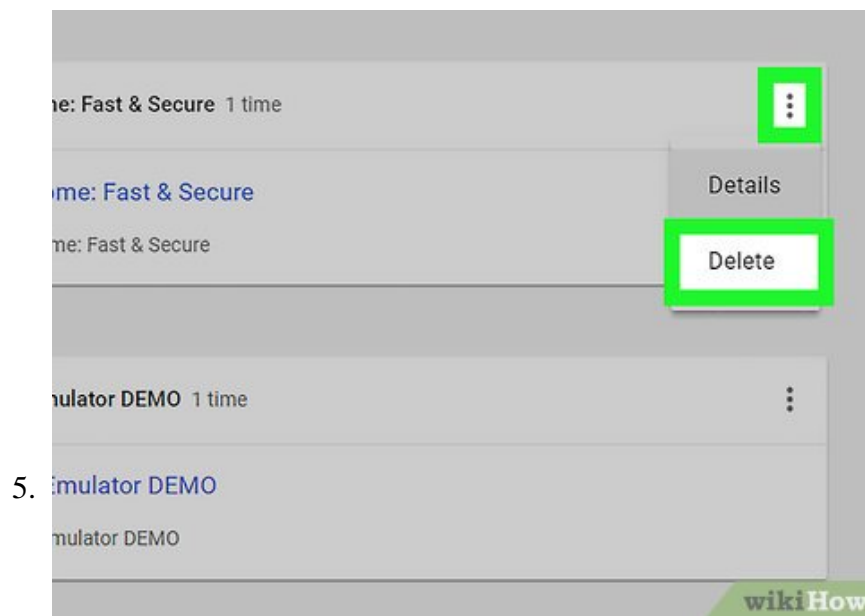

1. Skip this step if the Google Activity page opens.

**Review your Google Account's activity.** Scroll through the list of activity to load older entries.

**Select a specific category.** If you want to see activity from a specific section (e.g., Chrome), click the section's heading at the top of the page.

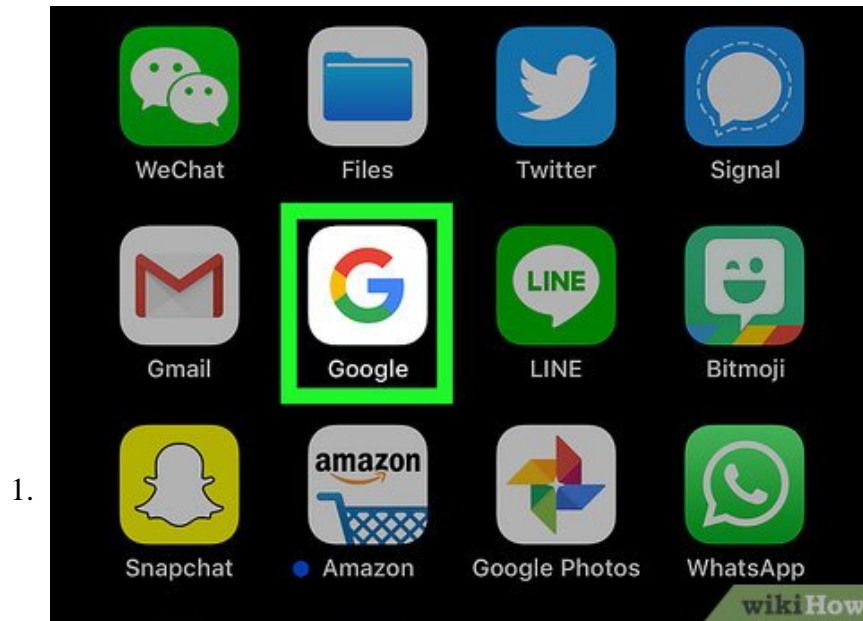

**Remove items if necessary.** To remove a specific item from your Google History, click ? to the right of the item, click **Delete** in the drop-down menu, and click **DELETE** when prompted. To delete your entire Google history:

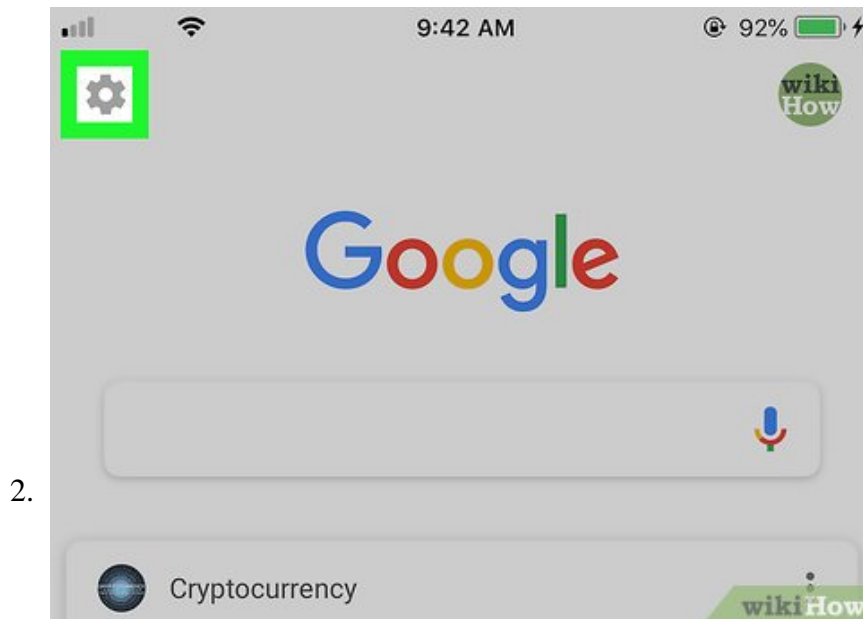

1. Click **Delete activity by** on the left.
2. Select **All time** from the "Delete by date" heading.
3. Click **DELETE**.
4. Click **DELETE** when prompted.

Method 2 of 5:

## Checking Google Account History on iPhone

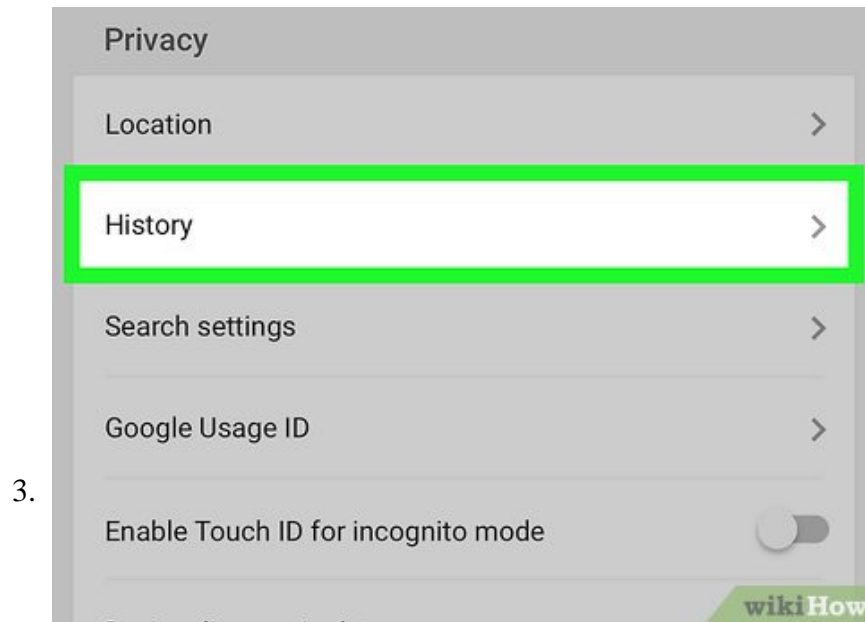

**Open Google.** Tap the Google app icon, which resembles a red, yellow, green, and blue "G" on a white background.

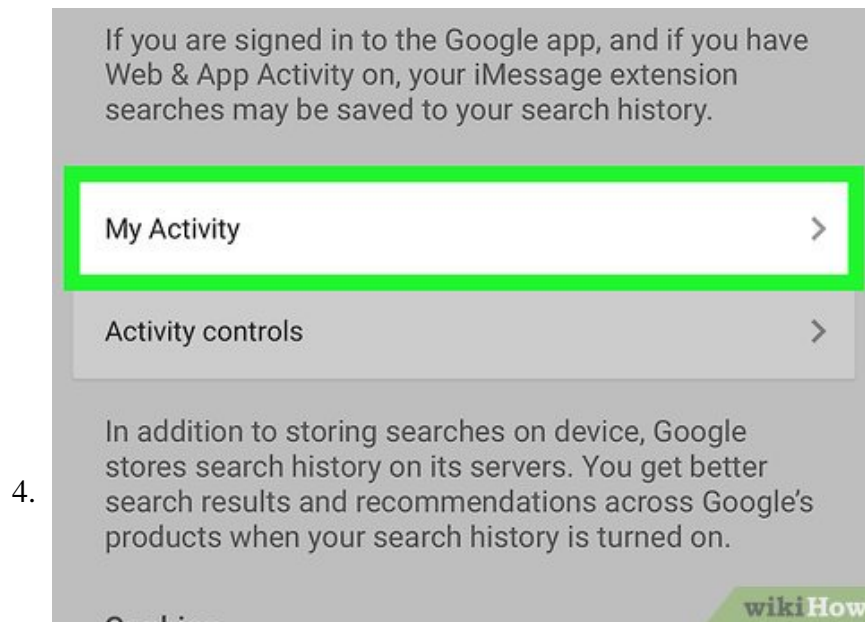

**Tap the "Settings"**

### Picture 8 of How to Check Google History

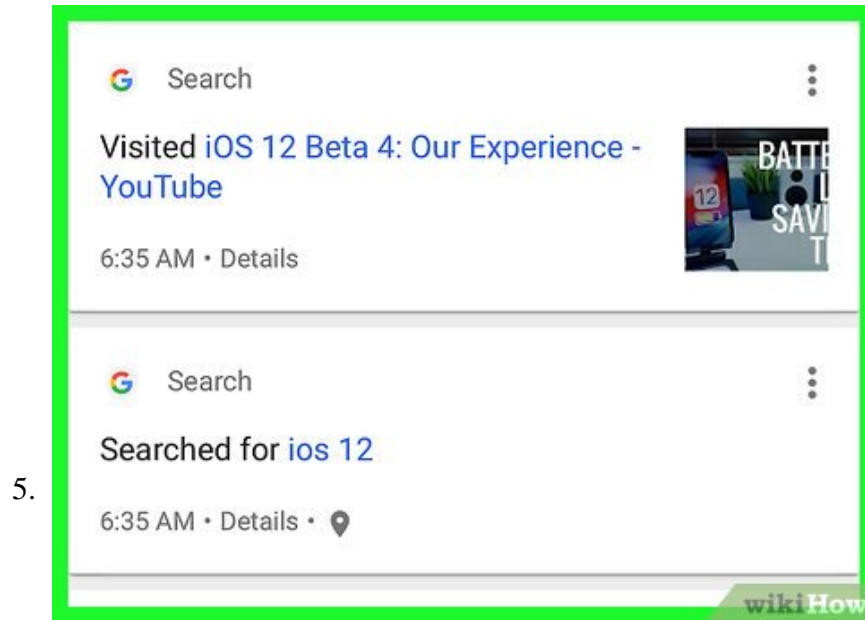

**gear.** It's in the top-left corner of the screen. Doing so prompts a new page to open.

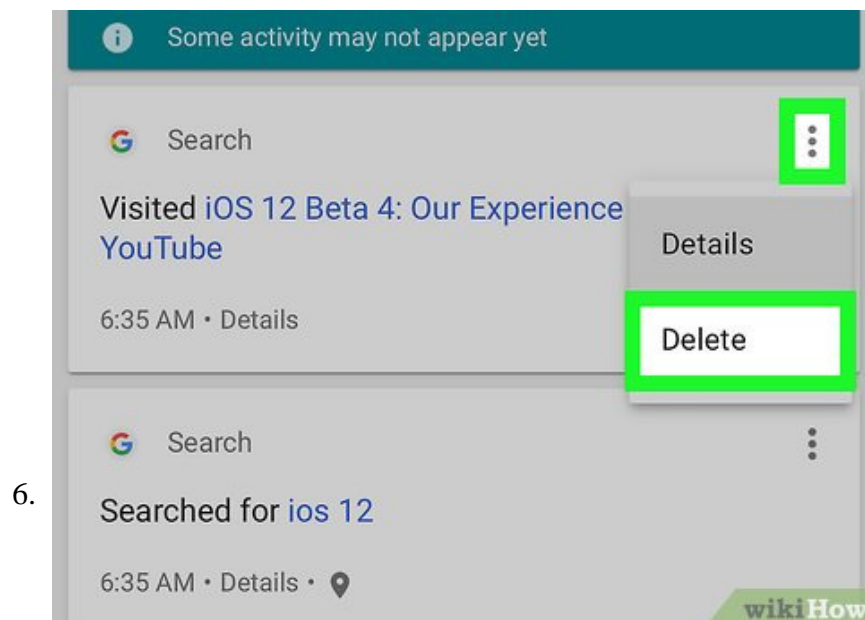

Scroll down and tap **History**. This is in the middle of the page.

Scroll down and tap **My Activity**. You'll find it about halfway down the History page.

**Review your Google Account's activity.** Scroll through the list of activity to load older entries.

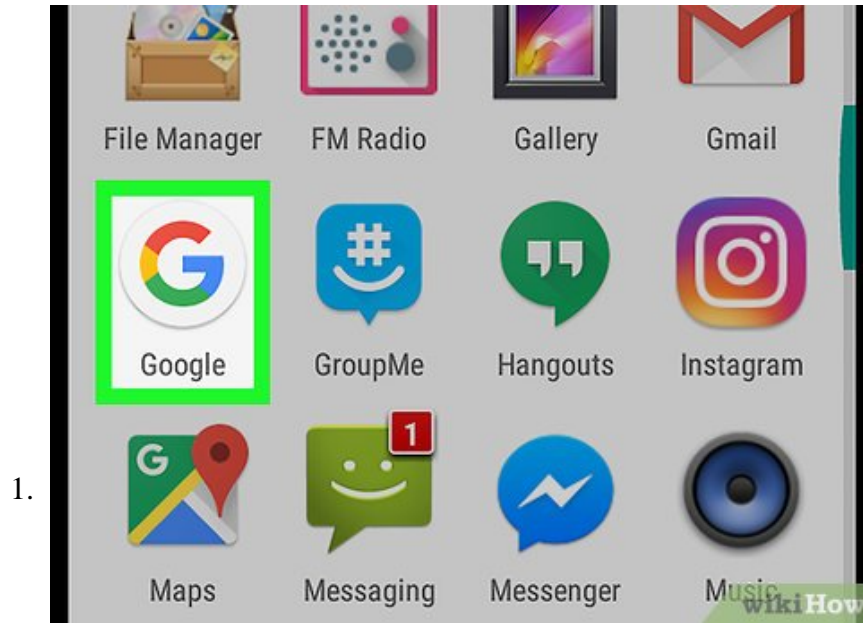

**Remove items if necessary.** If you want to delete an item from your Google Account's history, tap ? to the right of the item, tap **Delete** in the drop-down menu, and tap **DELETE** when prompted.

1. You can also clear your Google Account's activity history by tapping ? in the top-right corner of the screen, tapping **Delete activity by**, selecting **All time** from the "Delete by date" heading, tapping **DELETE**, and tapping **DELETE** when prompted.

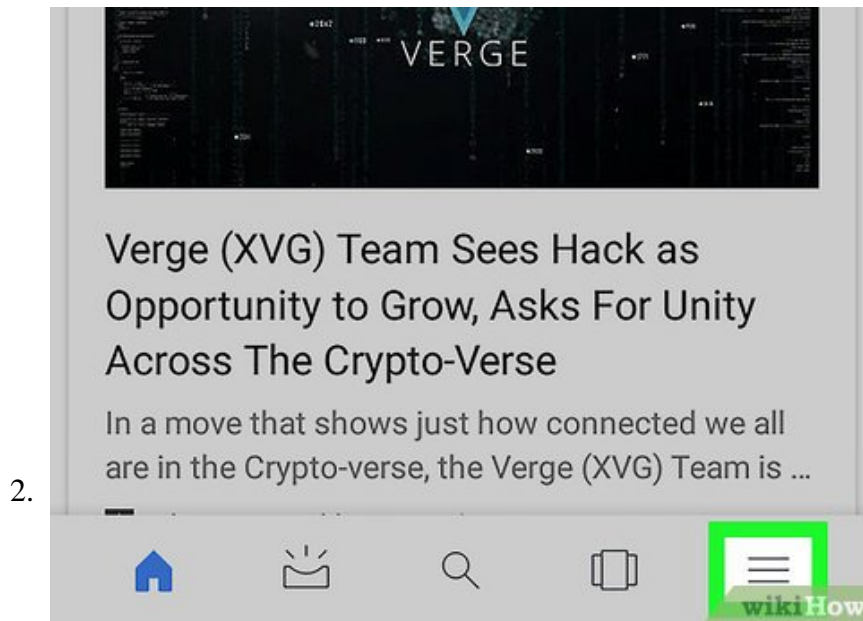

Method 3 of 5:

## Checking Google Account History on Android

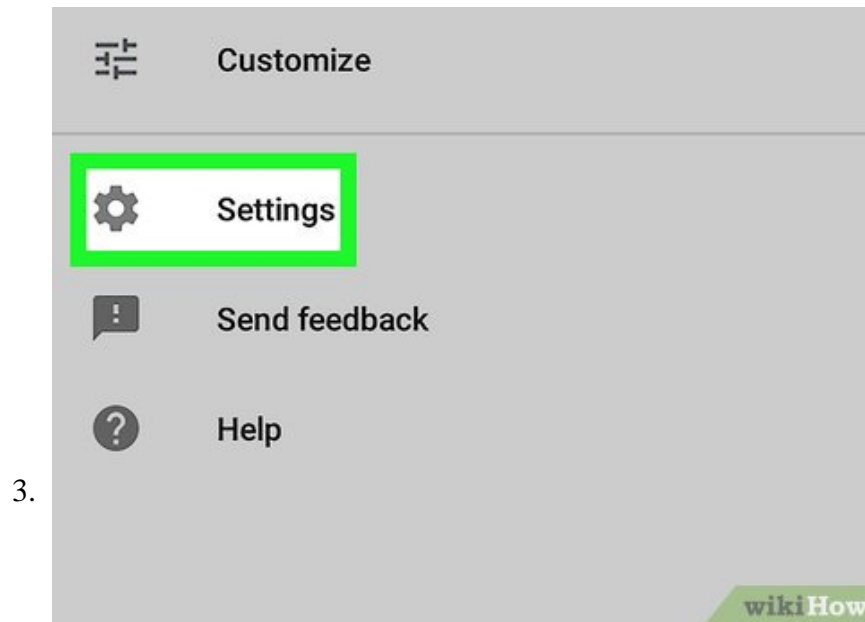

**Open Google.** Tap the Google app icon, which resembles a red, yellow, green, and blue "G" on a white background.

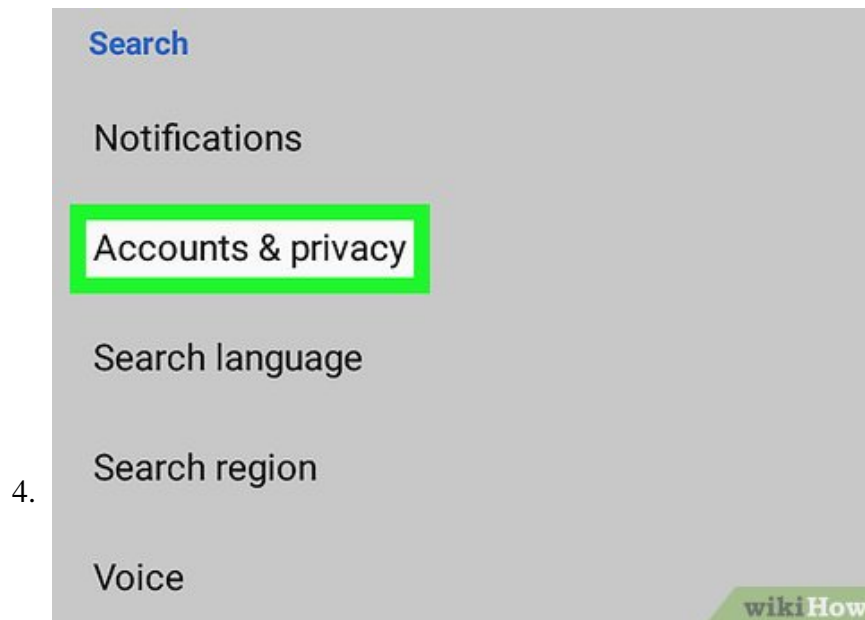

1. Google comes pre-installed on virtually all modern Androids.

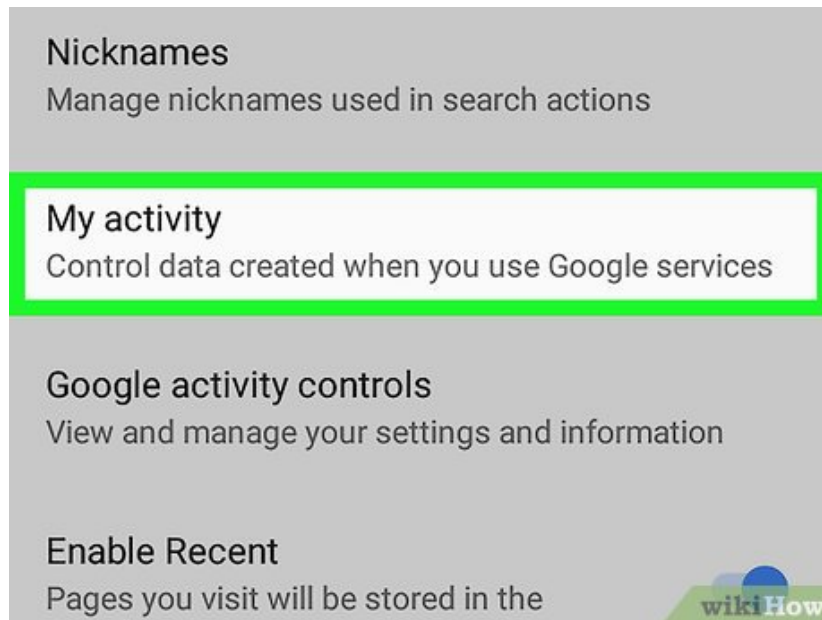

**Tap** . You'll find this icon in the bottom-right corner of the screen.

Tap **Settings**. It's on the far-left side of the screen.

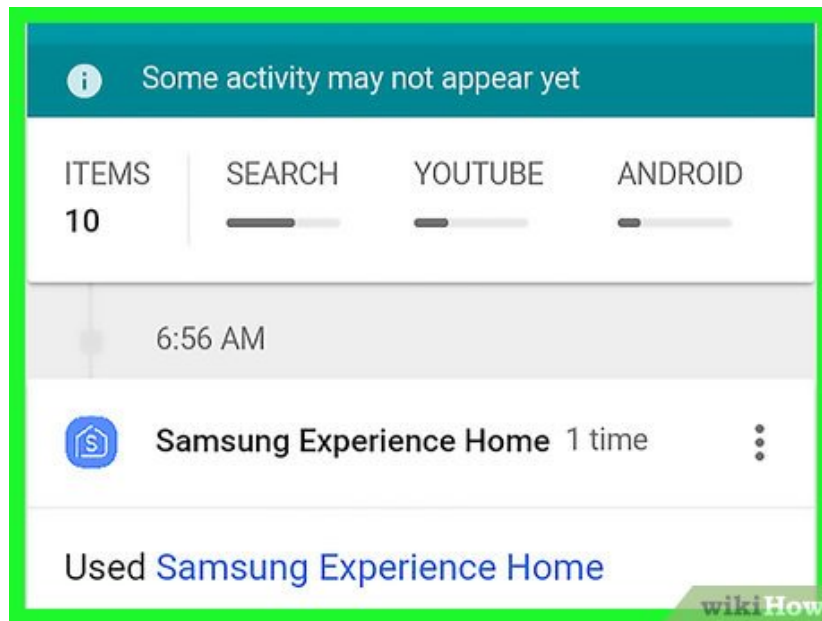

Tap **Accounts & privacy**. This tab is near the top of the screen.

5.

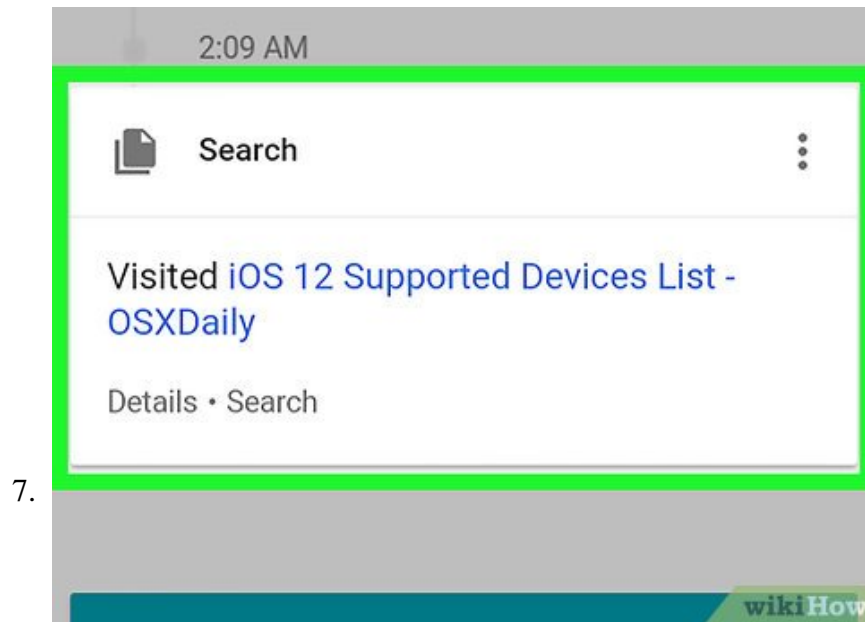

**Tap** **My activity**. It's near the bottom of the screen. Doing so will open your Google Account's activity page in Chrome.

1. If prompted to sign in, enter your Google Account's email address and password before proceeding.

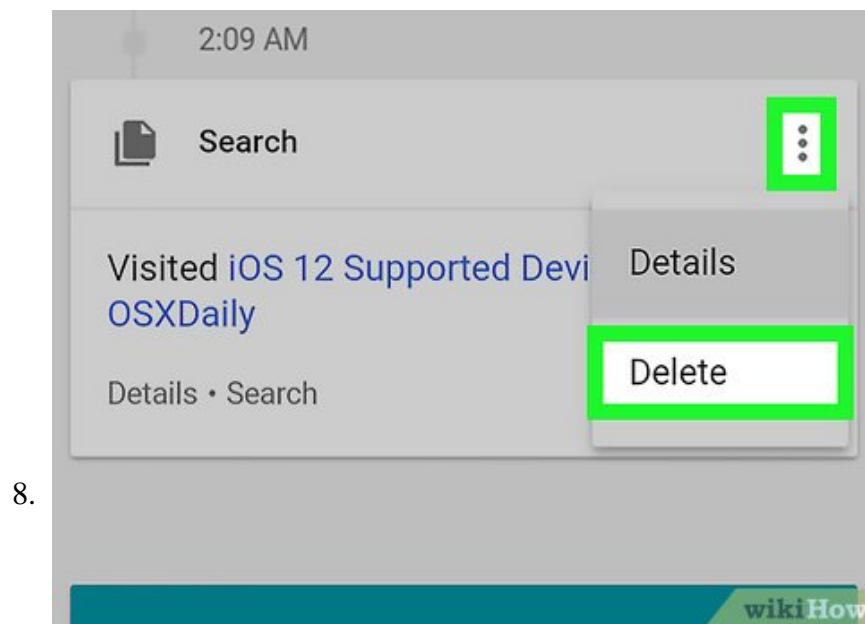

6.

**Review your Google Account's activity.** Scroll through the list of activity to load older entries.

**Select a specific category.** If you want to see activity from a specific section (e.g., Chrome), tap the section's heading at the top of the page.

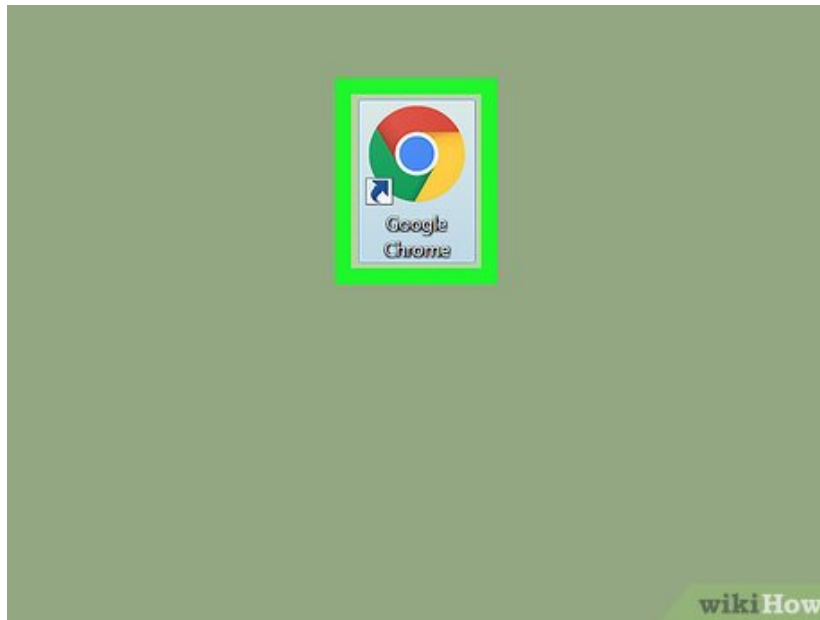

**Remove items if necessary.** If you want to delete an item from your Google Account's history, tap ? to the right of the item, tap **Delete** in the drop-down menu, and tap **DELETE** when prompted.

1. You can also clear your Google Account's activity history by tapping ?, tapping **Delete activity by**, selecting **All time** from the "Delete by date" heading, tapping **DELETE**, and tapping **DELETE** when prompted.

Method 4 of 5:

## Checking Chrome History on Desktop

1.

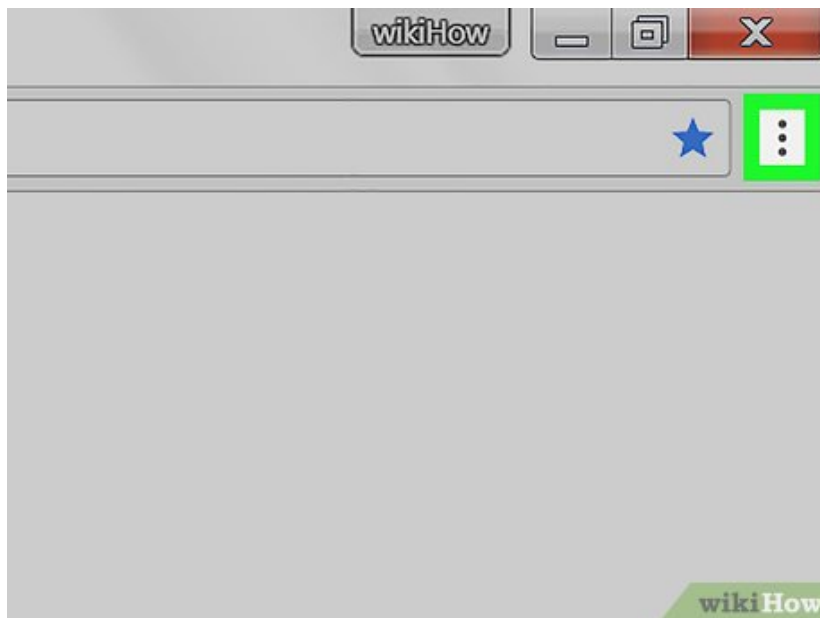

**Open**

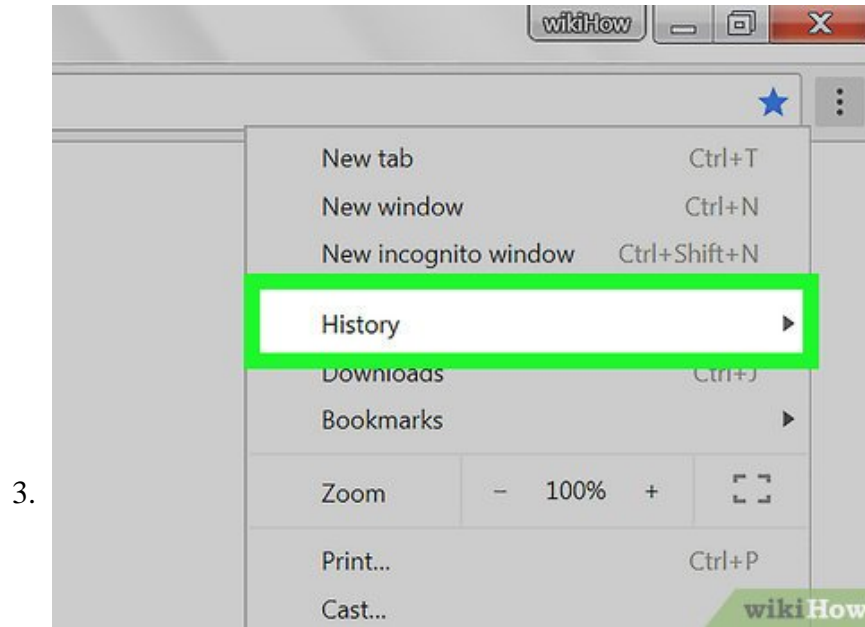

### Picture 22 of How to Check Google History

**Google Chrome.** Its app icon resembles a red, yellow, green, and blue sphere.

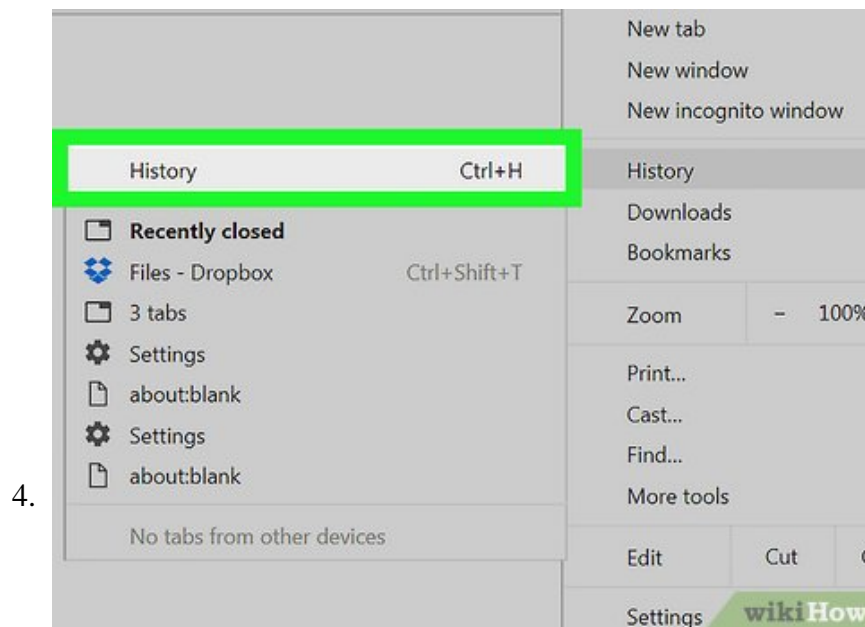

2.

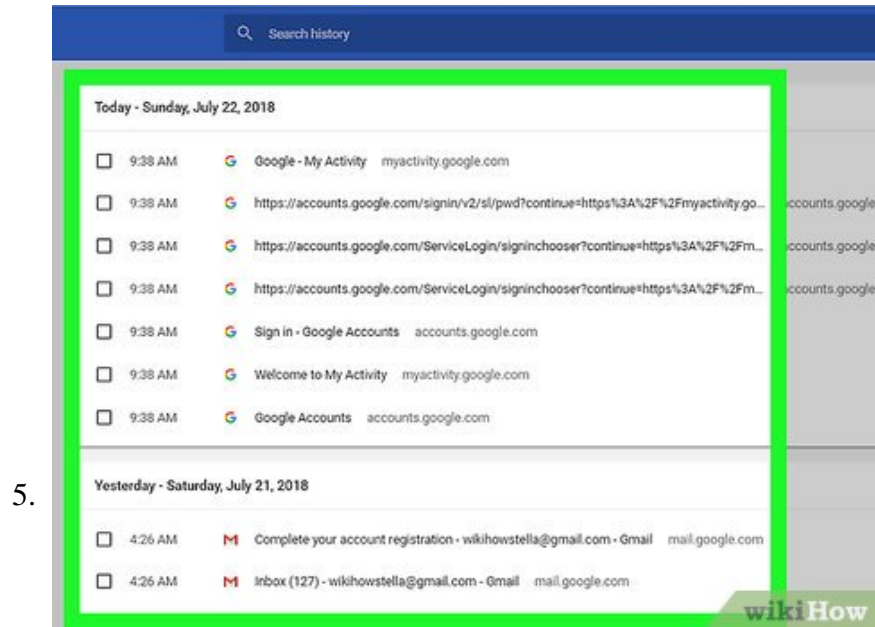

**Click** . It's in the top-right corner of the window. Clicking this icon prompts a drop-down menu.

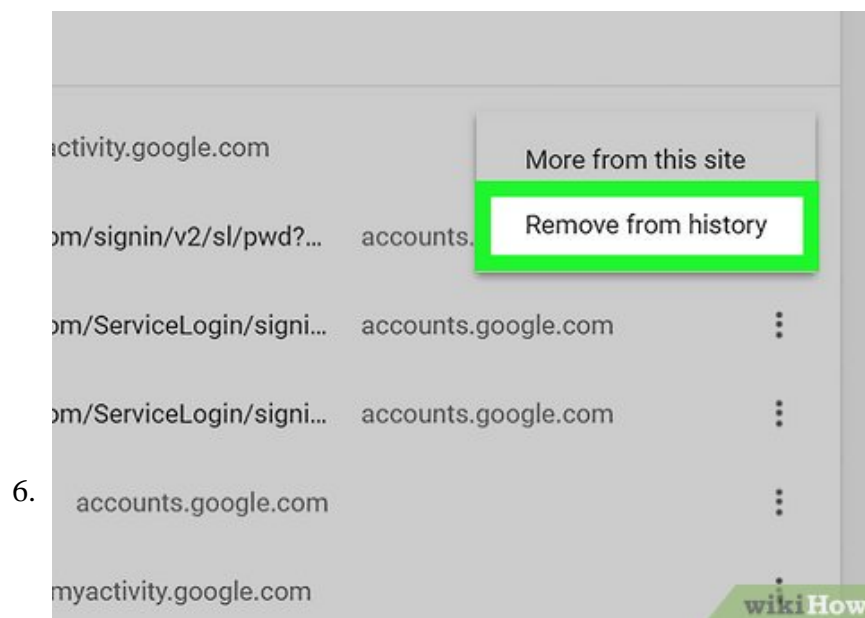

Select **History**. You'll find this in the middle of the drop-down menu. A pop-out menu will appear.

Click **History**. It's at the top of the pop-out menu. Doing so opens the History page.

**Review your Chrome history.** Scroll through your history entries to check them as needed.

**Clear your history if need be.** While you can clear an individual item from your Chrome history by clicking ? and then clicking **Remove from history**, you can clear all of your Chrome history at once by doing the following:

1. Click **Clear browsing data** on the left side of the page.
2. Make sure "Browsing history" is checked.
3. Select a time frame to clear from the "Time range" drop-down box.
4. Click **CLEAR DATA** at the bottom of the window.

Method 5 of 5:

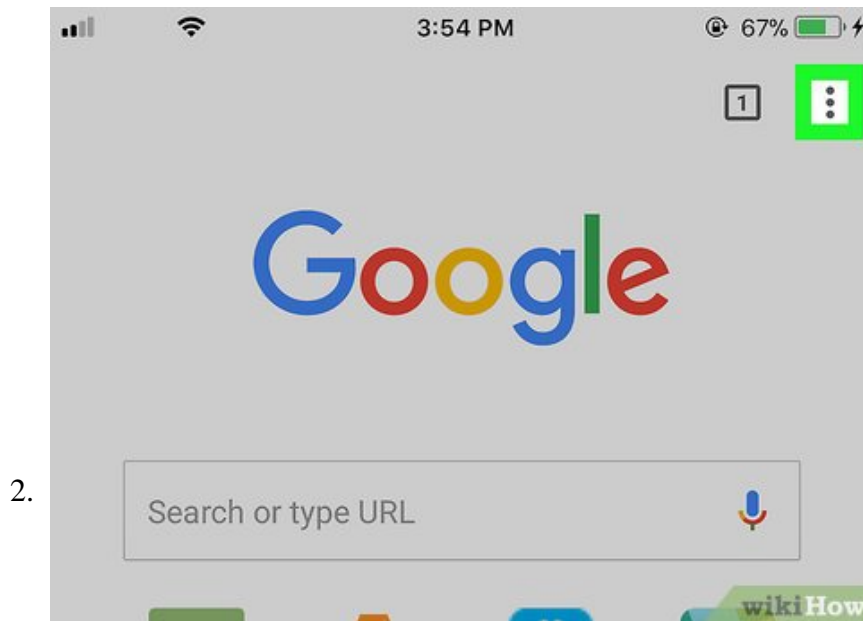

## Checking Chrome History on Mobile

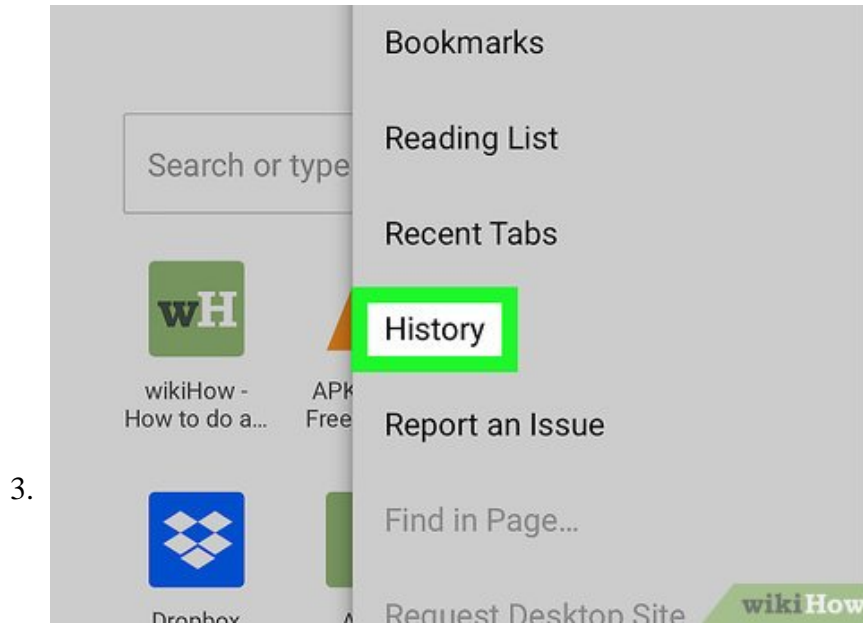

Open

### Picture 29 of How to Check Google History

**Google Chrome.** Tap the Chrome app icon, which resembles a red, yellow, green, and blue sphere.

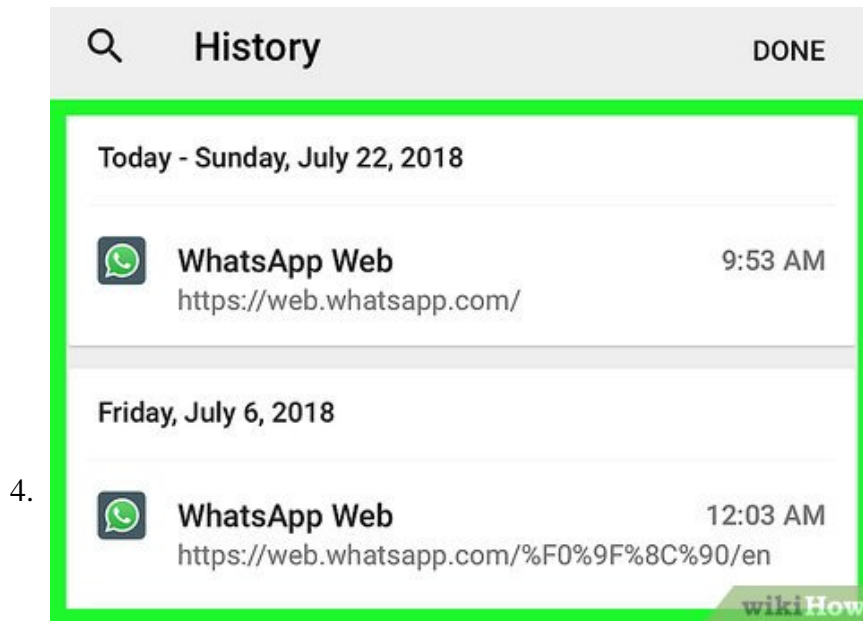

Tap . It's in the top-right corner of the screen. A drop-down menu will appear.

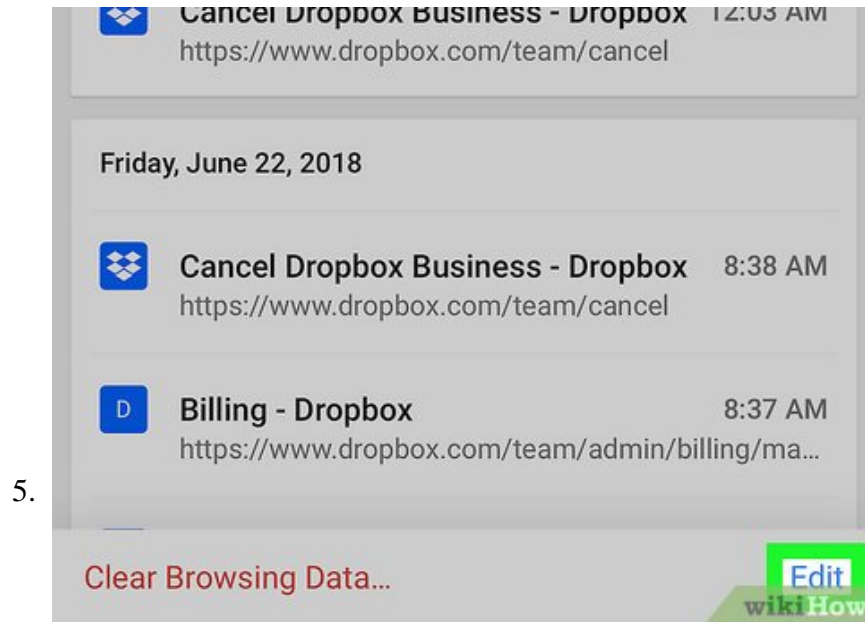

**Tap History**. You'll find this near the middle of the drop-down menu.

1. If you don't see **History** here, tap **New tab** in the drop-down menu, then tap **?** again and tap **History** there.

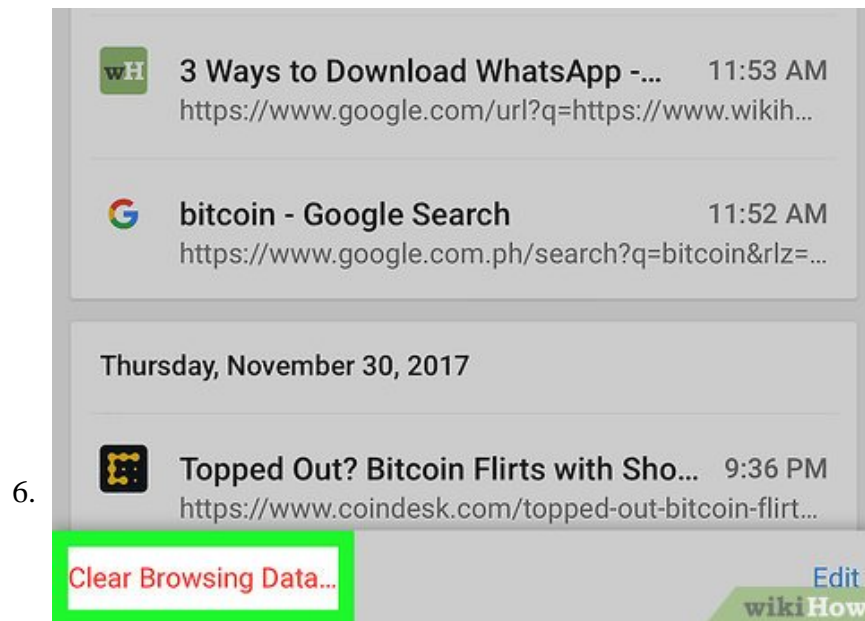

**Review your Chrome history.** Once your Chrome history page loads, scroll through it to check it as needed.

**Remove individual items from your history if you like.** If you want to get rid of specific pieces of information, do the following:

1. *iPhone* — Tap **Edit** in the bottom-right corner of the screen, tap items to delete, and tap **Delete** in the bottom-left corner of the screen.
2. *Android* — Tap **X** to the right of each item you want to remove from the History page.

**Clear your whole history if needed.** If you want to clear your entire Chrome history for your smartphone or tablet, tap **Clear Browsing Data**, make sure that "Browsing History" has a checkmark next to it, tap **Clear Browsing Data**, and tap **Clear Browsing Data** when prompted.
