

How to check the Adobe Flash Player version in the browser

As we all know, Adobe Flash Player (called Flash Player for short) is one of the most important and indispensable elements when users install browsers like Google Chrome or Mozilla Firefox. However, Flash Player is also a good target for hackers when constantly appearing vulnerabilities and patches released by Adobe.

As we all know, Adobe Flash Player (called Flash Player for short) is one of the most important and indispensable elements when users install browsers like Google Chrome or Mozilla Firefox. However, Flash Player is also a "good" target for hackers when constantly appearing vulnerabilities and patches released by Adobe. In the following article, we will show you how to check the version of Adobe Flash Player in the browser

1. See the article on how to fix Flash Player suddenly stopping on Google Chrome
2. How to install Flash Player on Android

To see which **Flash Player** version is being used on your computer, visit this address.

Adobe Flash Player is the standard for delivering high-impact, rich Web content. Designs, animation, and application user interfaces are deployed immediately across all browsers and platforms, attracting and engaging users with a rich Web experience.

The table below contains the latest Flash Player version information. Adobe recommends that all Flash Player users upgrade to the most recent version of the player through the [Player Download Center](#) to take advantage of security updates.

Platform	Browser	Player version
Windows	Internet Explorer - ActiveX	18.0.0.203
	Internet Explorer (Windows 8.x) - ActiveX	18.0.0.203
	Firefox, Mozilla - NPAPI	18.0.0.203
	Chrome (embedded), Opera, Chromium-based browsers - PPAPI	18.0.0.203
Macintosh OS X	Firefox, Safari - NPAPI	18.0.0.203
	Chrome (embedded) - PPAPI	18.0.0.203
	Opera, Chromium-based browsers - PPAPI	18.0.0.203
Linux	Mozilla, Firefox - NPAPI (Extended Support Release)	11.2.202.481
	Chrome (embedded), Chromium-based browsers - PPAPI	18.0.0.204
Solaris	Flash Player 11.2.202.223 is the last supported Flash Player version for Solaris.	11.2.202.223

Version Information
You have version 11.6.602.180 installed

Thông tin về phiên bản Adobe Flash Player

Information about Flash Player is displayed in the **Version Information** box as shown above

1. Download the latest Adobe Flash Player

Adobe will conduct information analysis and data processing, giving an accurate notice of the Flash Player version being installed on your computer. Compared to the information table below, you can easily recognize which version is the latest (in this example Flash Player is installed with version **11.6.602.180** , while the latest is **18.0.0.203**) and I need to update **Adobe Flash Player** immediately.

Good luck!
