

How to check the purchase history in the app on iPhone, iPad

Checking the purchase transaction history in the iPhone app will help you know how much it has spent on the application, what problems arise during the payment process. And this is you checking those deals.

Checking the purchase transaction history in the iPhone app will help you know how much it has spent on the application, what problems arise during the payment process. And this is you checking those deals.

Typically, popular games like Fortnite are usually free to download, but they come with in-app purchases (in-app purchases) that allow you to buy items and ranks in the game. Do you think you've spent too much money on these games? If you want to compare invoices, or check the exact amount spent on your favorite games, you can check the Apple ID purchase history on the App Store.

How to check purchase history on iPhone and iPad

1. Open **Settings** / **Settings** from the main screen.
2. Touch your **name** at the top of the settings menu.
3. Select **iTunes & App Store** .

4. Select **Apple ID** at the top of the page.

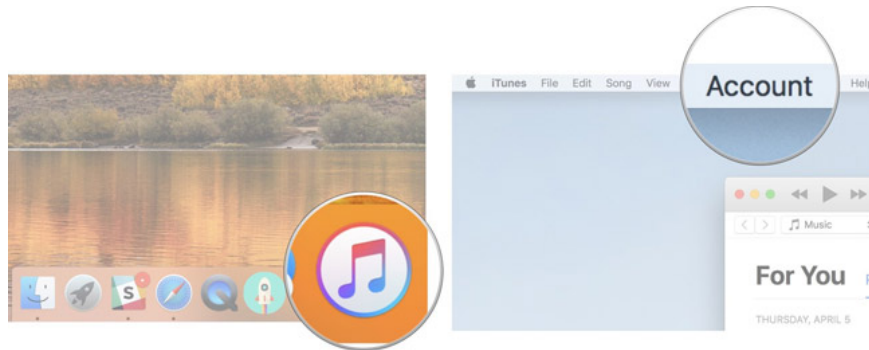

5. Select Next **View Apple ID** .
6. Finally select **Purchase History** . You will have to drag the page down a bit.

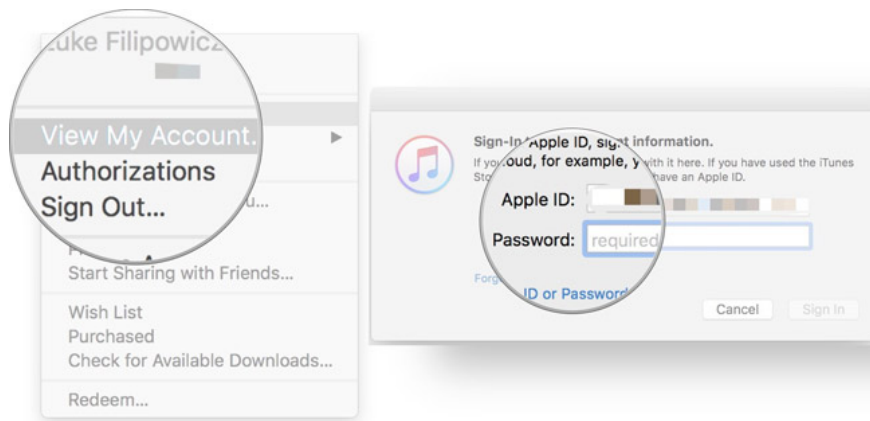

Here, you will find a complete list of all purchases (including in-app purchases, subscriptions, movie rentals, etc.) that you have made with Apple ID in the past 90 days. If you want to see an older transaction, you can choose **Last 90 Days** at the top of the screen and arrange orders by year and month. You can find deals from two years ago.

How to check purchase history on Mac

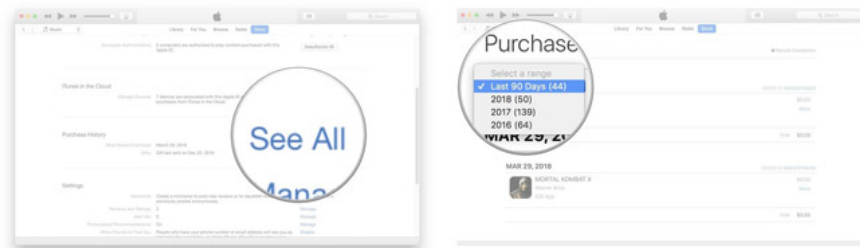

1. Launch iTunes on Mac.
2. Select Account from the menu bar.

3. Click **View My Account** .
4. Enter your **Apple ID** account information.

5. Click **See All** next to Purchase History.
6. Click **Last 90 Days** to change the arrangement as you like.

Now that the entire purchase history has appeared before your eyes, you can see the amount spent in each application.
