

How to choose other players to attack in Coin Master

If you have to spin a lightning hammer in Coin Master and you do not want to attack that player, follow the instructions in this article to choose another player to attack.

When you receive a spin in Coin Master and spin a lot of lightning, there will certainly be a phenomenon of blocking friends in Coin Master.

If you have a lot of shields and regularly check your house to protect the house in Coin Master or get food for Rhino, then surely your house will be stable before every attack of your friends.

Another way, if you do not want to attack each other's house, you can choose others to attack in your friends list. Typically, the lightning hammer will randomly select any friend on your friends list, but you can choose other people in your friends list to attack. See how to choose other players to attack in Coin Master below.

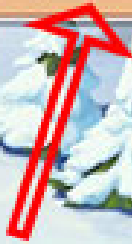

How to attack other friends in Coin Master

To choose other players to hit the clay hammer in Coin Master, when you spin the clay hammer, select **Friends** . Then choose another player in your friends list.

With this, you will avoid having to attack those who you do not want to give a hammer. Because Coin Master's attack selection system will randomly select, not allow the player to choose who to attack.

If you're new to Coin Master and don't have a lot of friends, the ones you attack can be the AI ??(bot) in the game and you don't need to be anxious about that. And if your friends have a lot, follow the instructions in here to avoid hitting your friends.
