How should we choose branches / peaches to display on Tet holiday?

How to choose beautiful branched peach twigs

Depending on the space, the area of ??the house and the location of the plug on the altar or the living room, we choose different small peach branches but it is important that the peach branch must be beautiful. But what is a beautiful branch is not everyone knows.

When selecting branches, the first thing you should be concerned about is that the canopy must be round, the branches are evenly distributed, avoiding the purchase of branches that have a deviation, the branches that are pricked up do not start at the same point on the original stem.

Besides, you should choose peaches with many shavings (which are the smallest peach branches), have many flowers, fat buds and evenly distributed. Peach blossoms have double wings, thick, fresh. Peach body may be rough but strong.

The time to choose to buy the best cherry blossom is 3-5 days before Tet for blooming flowers right on Tet holiday, avoid buying too early or too late because when buying can be beautiful but by Tet cherry blossom may not bloom or die.

How to choose beautiful peach trees

With tree digging, in addition to the criteria of flowers, buds, shavings, like peach branches, it is necessary to add a few other criteria such as small chips, short, main branches of the tree to create a tree shape derived from a point and be bent beautiful, balanced.

Peach trees often bloom slower than peach branches, so you have to choose trees with big buds, flowers bloom much at the time of Tet. If you buy trees with few flowers when a few days away from Tet holiday, the peach blossom will not be blooming and inferior on Tet.

Note : Even if you choose to buy a tree or a peach branch, you need to have all four quarters: flowers, buds, buds and fruits, which are symbols of the family's happiness and happiness.

How to keep fresh peaches for a long time on Tet

For peach branches

You need to clean the bottle and use clean water to flower. 2-3 days, you should replace the water in the plug once and clean the branches that are located under the water. You can also drop into a bottle of vitamin B1 pills to get nutrition to help the peach blossom fresh longer.

1. Should you burn the peach root before plugging it to the flower for long?

For peach trees

Digging is a tree that doesn't like moisture so you need to water clean water regularly but absolutely don't water it too much or peach trees will rot. At the same time, you need to keep the plants clean and cool so that the flowers are fresh.

How to make peach blossom bloom right on Tet holiday

We have chosen a branch, a beautiful peach tree, and then we have to know how to care for cherry blossoms to bloom properly on 3 days of Tet. So, how to control the speed of blooming flowers whether the weather is hot or cold?

If peach blossoms bloom early and too fast, we can **use a knife to cut a circle around the body** 1 inch from the root. This way of limiting digging branches from the root to grow flowers slows the flowering process. You can also combine it with putting gravel in a jar and using cold water to plug or irrigate to get better results.

If the peach blossom is late, **cover the root with a handful of lime** . For peach branches, it is possible to **plug in warm hot water** , constantly changing water when cooled. After only one night, cherry blossoms will bloom and welcome Tet with your family.
