

How to collage photos into Valentine frames

Piecing photos into a Valentine frame is also a way to save the other half for Valentine's Day.

Valentine is an opportunity for the couple to show their affection to the other person, express their feelings through sincere words or meaningful gifts. There are many ways for you to send a message to your other half such as making a Valentine card, or sending a gift with a love and romantic image of two people for Valentine's Day. We can blend our image into Valentine frame with the romantic and typical textures of this holiday. The following article will introduce you to yoke and make collages into Valentine frames.

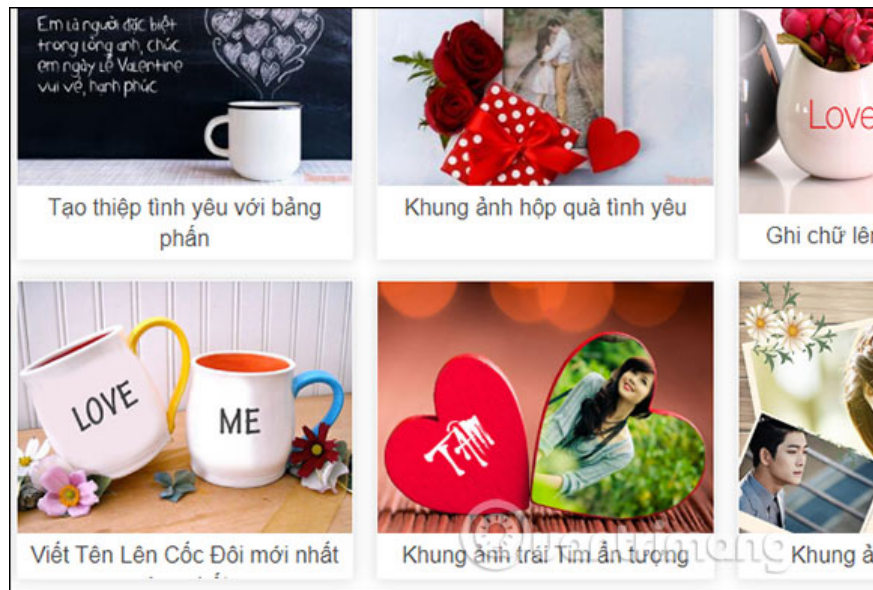

Instructions for collage photos into Valentine frames

Step 1:

We will visit the Create love cards group on thiepmung website by following the link below.

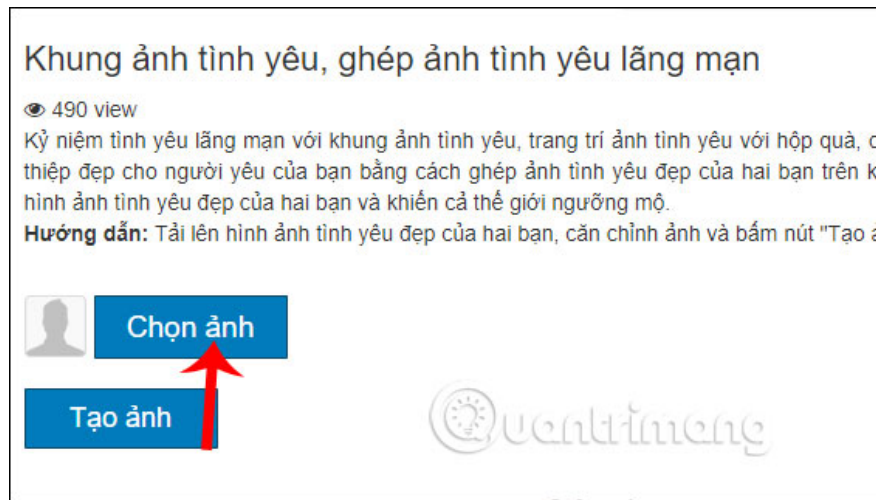

<https://thiepmung.com/tao-thiep-tinh-yeu-48.html>

At this interface there are many topics creating cards or jigsaw. We will find the **content Create a love photo frame**.

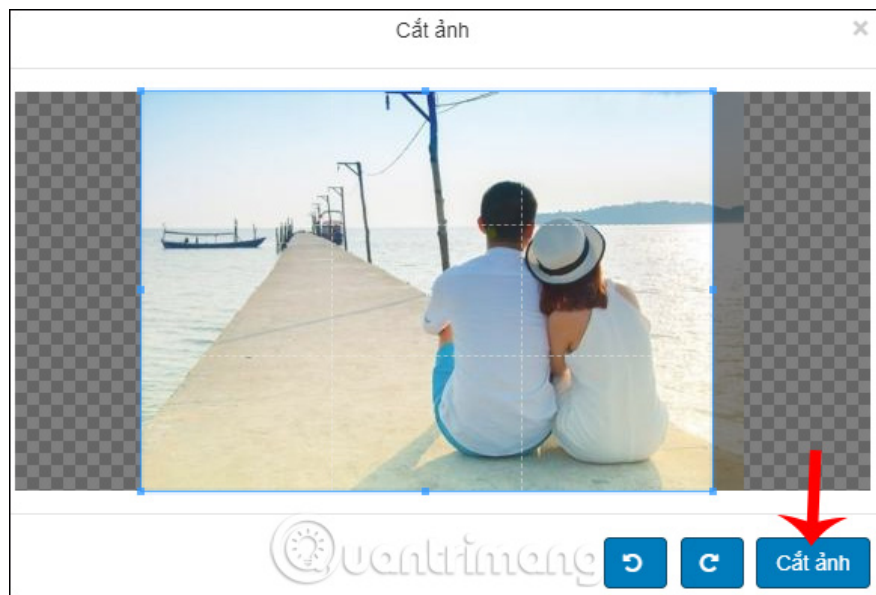

Step 2:

We choose a Valentine collage theme to use. In the interface, click **Select photos** to upload your personal photos.

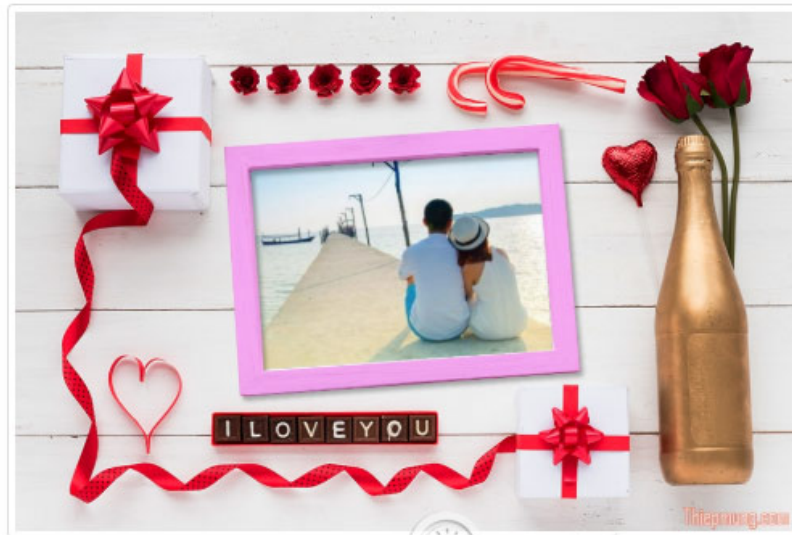

Uploaded photos will have more cropping frames to choose the right part of the image you want to use.

Step 3:

Finally, click Create image to process the image stitching process. The result is a collage image like the one below. **Click Save** to download the photo or share via the link to send to others.
