

How to complete new achievements in Minecraft 1.19 The Wild Update

Minecraft 1.19 is finally out and with it 7 brand new achievements for players to challenge themselves with.

In this article, let's explore the new achievements in Minecraft 1.19 The Wild Update and how to complete them as quickly as possible.

How to complete new achievements in Minecraft 1.19

Bukkit Bukkit

1. Requirements: Catch a tadpole with a bucket

The tadpole is a passive baby version of the frog. As they mature, they become one of three variants of frogs, depending on the biome they develop.

Tadpoles do not spawn naturally, they hatch from frogs, which are created by frog breeds. Just feed two frogs slimeball and one of them will get pregnant and lay eggs, similar to turtles. After the tadpoles hatch, simply use a bucket to collect them and unlock this achievement.

It Spreads

1. Requirement: Kill a mob near Sculk Catalyst

The Sculk Catalyst block can only be found in the new Deep Dark biomes. The player needs to bring a mob down to the Deep Dark or use the Silk Touch tool to harvest the block and bring it to the surface. Only mobs that drop XP are effective in unlocking this achievement.

This block is quite sinister and if activated after a mob dies, it will spawn and spread to that specific area. The player can also obtain it by defeating the Warden.

With Our Powers Combined!

1. Requirement: Have all Froglights in my inventory

Frogs attack by using their tongues to pull certain mobs into their mouths, after which the mobs will die instantly. Froglight is a rare block of light created when a frog eats a small block of magma.

The type of Froglight that spawns depends on which frog attacked the magma block, temperate frogs leave yellow Froglights, temperate frogs leave green Froglights, and tropical frogs leave pearly Froglights.

To complete this achievement, the player needs to get 3 buckets of tadpoles and use them to create frogs in temperate (plains, rivers, beaches), arctic (ice) and tropical biomes. (jungle, badland, desert). After getting all 3 frog colors, feed them magma blocks to create different Froglight blocks.

When the Squad Hops into Town

1. Requirements: Tie each frog variant to a string

After breeding 3 types of frogs to make Froglight, the player needs to tie them to a rope. This is actually pretty easy, as the achievement will trigger after putting each frog on the line, not all at once. Just strap on 3 different colored frogs after finding them to unlock this achievement.
