2. How to reduce PDF file size online
3. Instructions to reduce the volume of photos in Photoshop

## Instructions for compressing files on YouCompress online

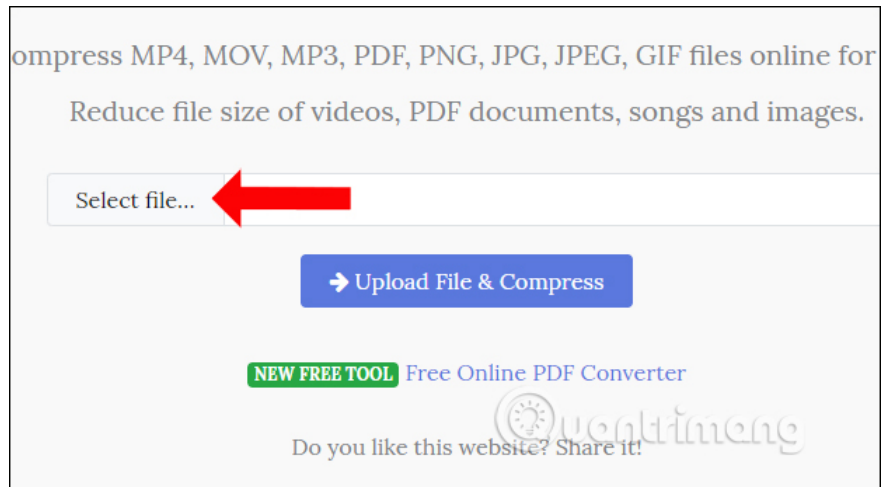

### Step 1:

Users access the link below to visit the homepage of YouCompress.

1. <https://www.youcompress.com/>

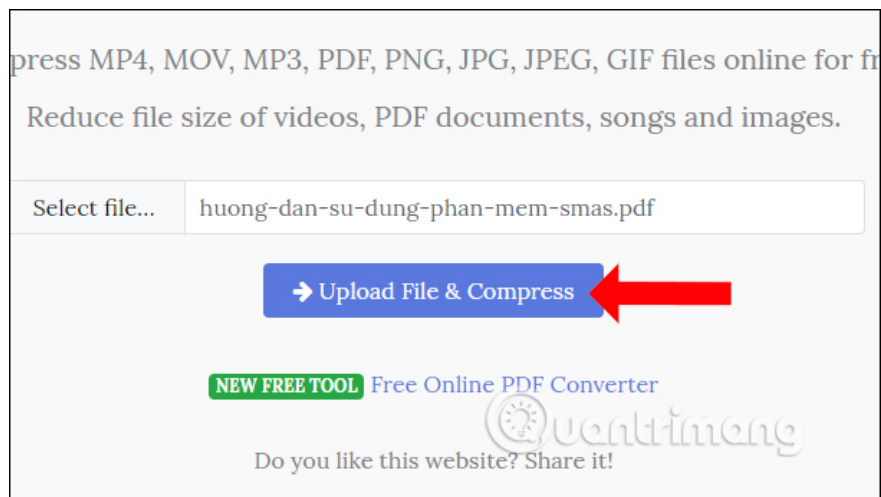

### Step 2:

Click on **Select file button** to download the file you want to compress. Users will only be able to compress 1 file at a time, the file size can be compressed up to 100 MB.

### Step 2:

Click the **Upload file & compress** button to upload the file to YouCompress's server and compress the file size.

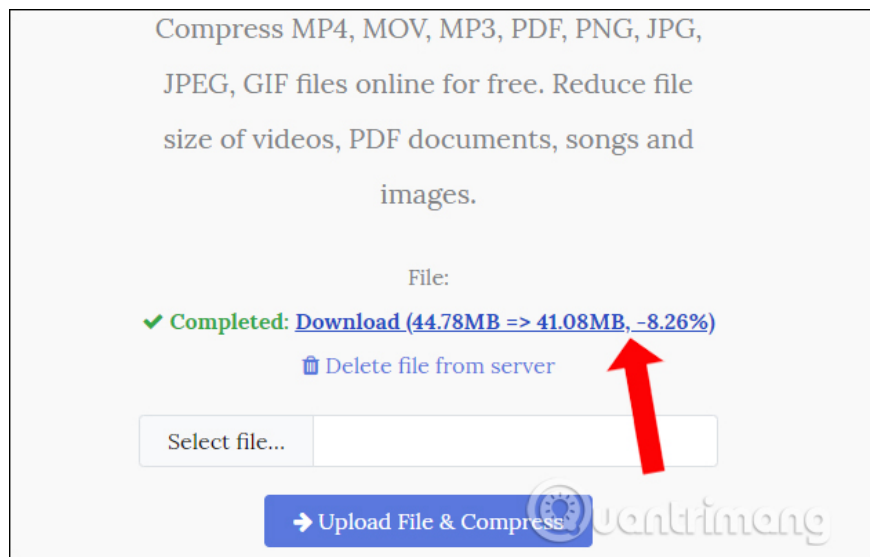

### Step 3:

Depending on the file size, this process is fast or slow. As a result, you will get a complete file of reduced size, with **Complete notification** .

Large files when uploading to YouCompress to compress will contain the original and capacity capacity after compression, the amount of capacity decreases. Click **the Download button** to download the new file.

If the user wants to delete the original file, you can press Delete file from server to delete the file right from the YouCompress server.

So we have finished compressing the file, reducing the file size to facilitate data sharing. The process of compressing files on YouCompress is very simple and fast.
