

# How to Connect a PS5 Controller to an iPhone or iPad

You may not know it, but the Sony PlayStation 5 DualSense controller also supports easy pairing with iPhone or iPad, fully compatible with many popular games, helping to bring you an enjoyable and complete gaming experience. more fully on mobile devices.

However, it should be noted that to be able to support the PS5 DualSense controller, your iPhone or iPad must be running iOS 14.5, iPadOS 14.5 or later versions. Therefore, proceed to check and update your device to the latest operating system versions before you begin.

So how to connect PS5 Dualsense controller to iPhone, iPad? Let's find out right here.

## Connect PS5 controller to iPhone or iPad

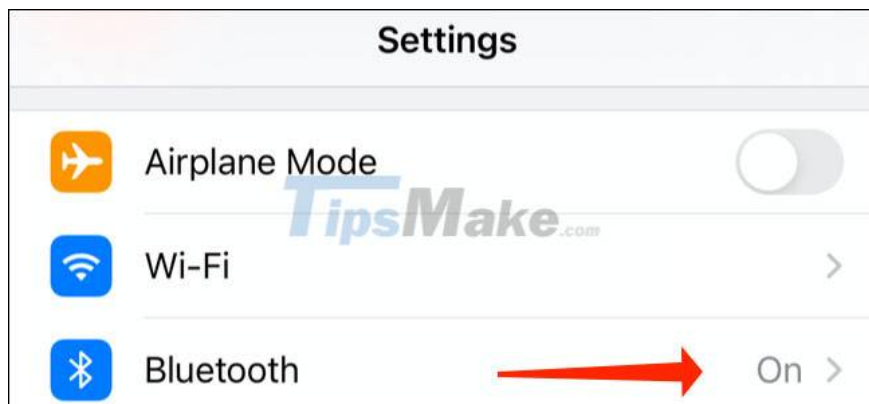

First, put your DualSense controller into pairing mode by holding down the PlayStation icon button and the Create button simultaneously.

(The Create button is located directly above the D-Pad on the left, while the PlayStation logo key is located between the two analog sticks.)

Once the controller is in pairing mode, you'll see the light around the DualSense controller's touchpad turn blue and flash twice quickly before going dark.

Now, open your iPhone or iPad, tap the gear icon on the screen to access the Settings app, and select 'Bluetooth'.

In the 'Other Devices' section you will see a new device called 'DualSense Wireless Controller'. Click that.

The DualSense controller should now be connected to your iPhone or iPad. Once the connection is established successfully, you will see the controller LEDs change to orange on either side of the touchpad, while the lights on the PlayStation button will show a single white color.

## Find iPhone and iPad games compatible with PS5 controllers

As mentioned, not every game on your iPhone or iPad also supports team mode with a dedicated controller. Fortunately, there are many great games on iOS or iPadOS that support this feature. You can visit <https://controller.wtf/mfi-games> for a full list of such games.

If you're signed up for an Apple Arcade subscription, you'll find many games on the service that work with the DualSense controller. To check if any Apple Arcade game has controller support, simply visit the game's App Store page and scroll to the bottom.

Look at the 'Supports' section just below the link to the developer site and privacy policy. If the game comes with controller support, you'll see 'Game Controllers' listed here.

## Supports

### Game Center

Play with friends, track and compare scores and achievements, challenge other players and compete in multiplayer games.

### Game Controllers

Play with your favourite PlayStation DualShock 4, Xbox Wireless or MFi controller.

Wish you have moments of complete entertainment on your device.
