### *Tips for downloading Audio files after converting text to speech*

To download Audio files, you need to use Coc Coc web browser

Step 1: Access Zalo AI Text To Speech via Coc Coc web browser.

Step 2: Enter content, select features and perform the conversion process.

Step 3: Click on the Download Video/Audio arrow icon on the right side of the browser bar to download the file to your computer.

==> **Note: You need to reset the browser or switch to a new tab after each file download.**

### *Advantage*

- Completely free, no need to log in or create an account like other platforms.
- Convert text to high quality audio.

- Very fast conversion speed.
- Standard Vietnamese voice, including Male & Female, Northern & Southern.
- Freely adjust the reading speed of the audio file (both before and after conversion).

### *Disadvantages*

- Limit of 500 characters per conversion (if too long, you need to split the text).
- Voice reading is not as rich in fields (such as travel, journalism, storytelling.) as many other platforms.
- Does not support standard international language voices.
