

How to Convert Unprotected WMA Files Into MP3 Files

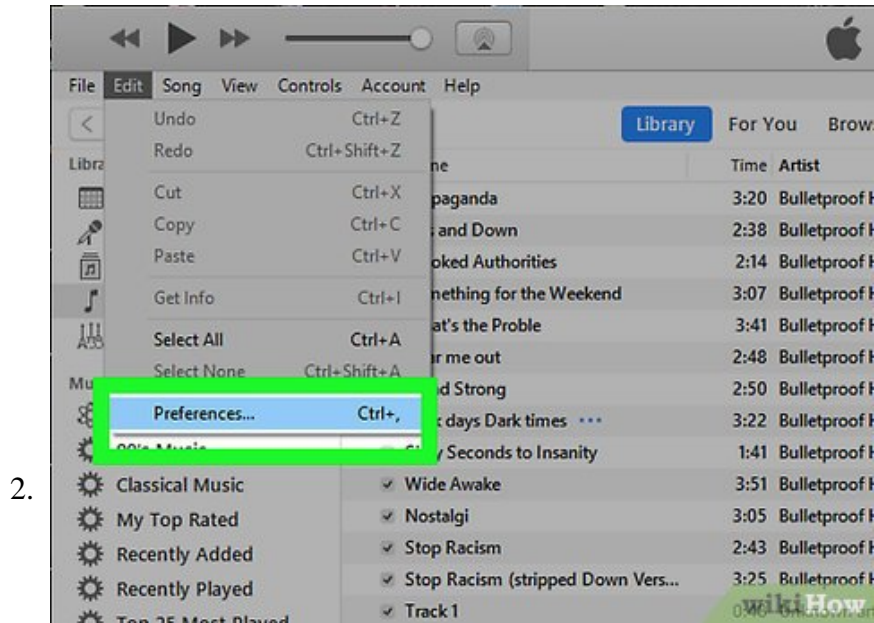

This wikiHow teaches you how to convert unprotected WMA files to the MP3 format using iTunes for Windows, or using an online conversion utility. WMA audio files are a proprietary audio file format for Windows Media Player and therefore...

Method 1 of 2:

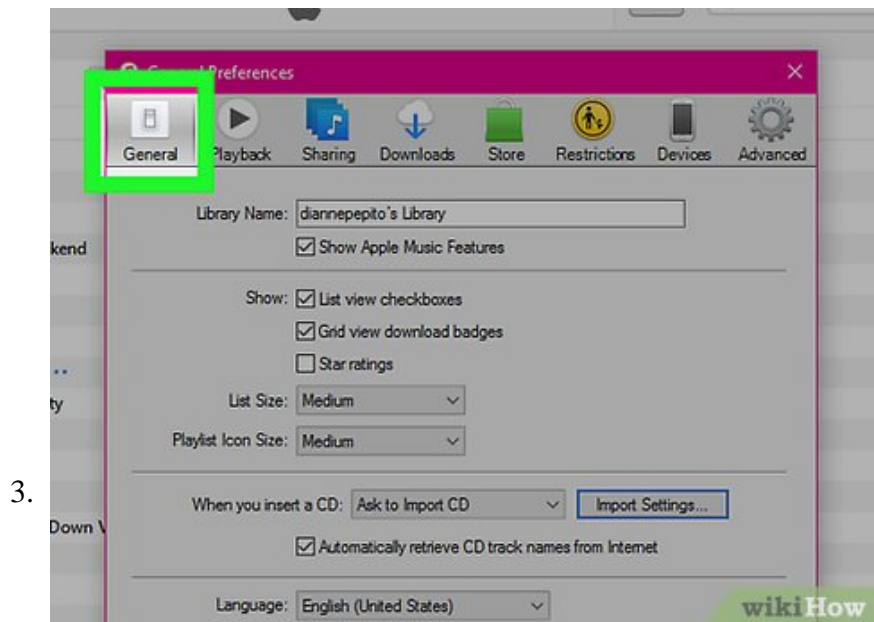

Converting With iTunes for Windows

Open iTunes in Windows. This method only works on the Windows versions of iTunes, because it requires Windows Media Player 9 or later to complete the conversion.

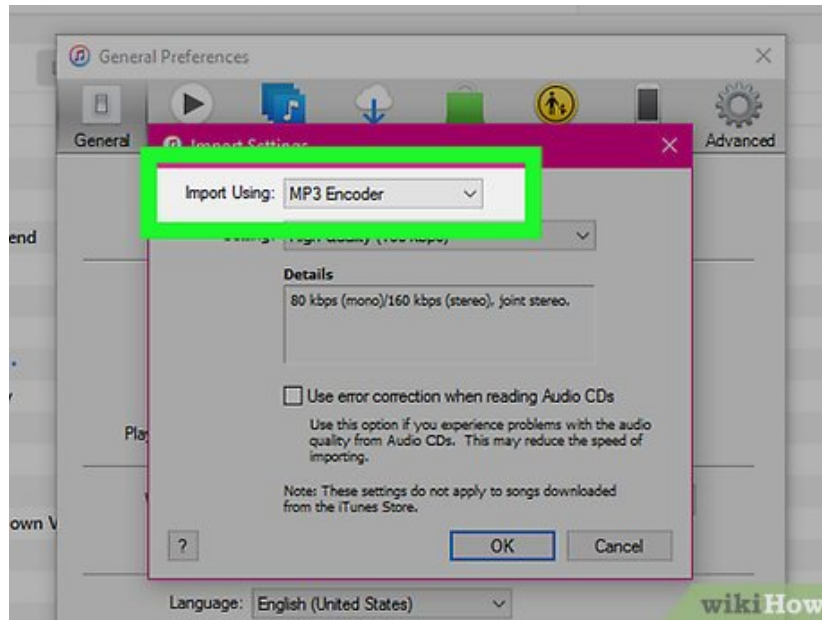

Click **Edit** in the menu bar, then **Preferences...**.

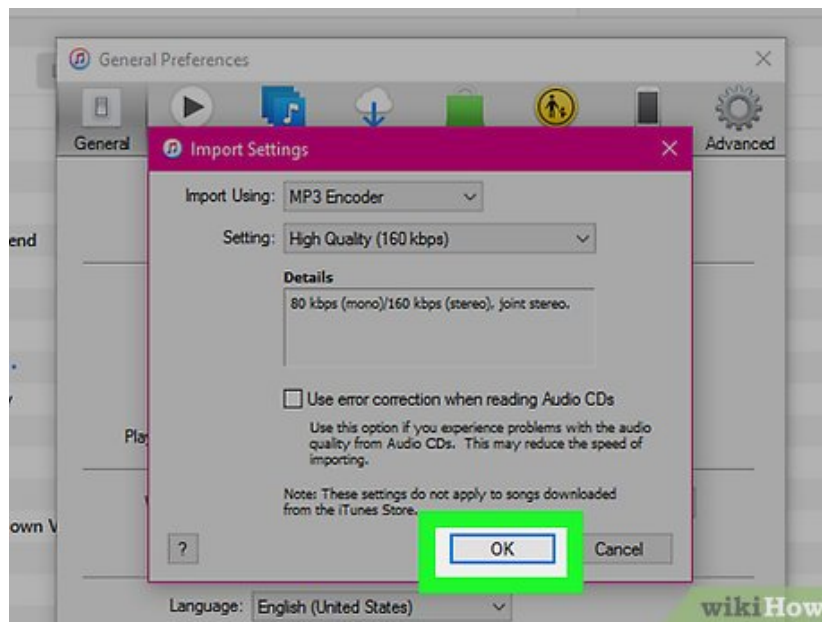

Click the **General** tab.

4.

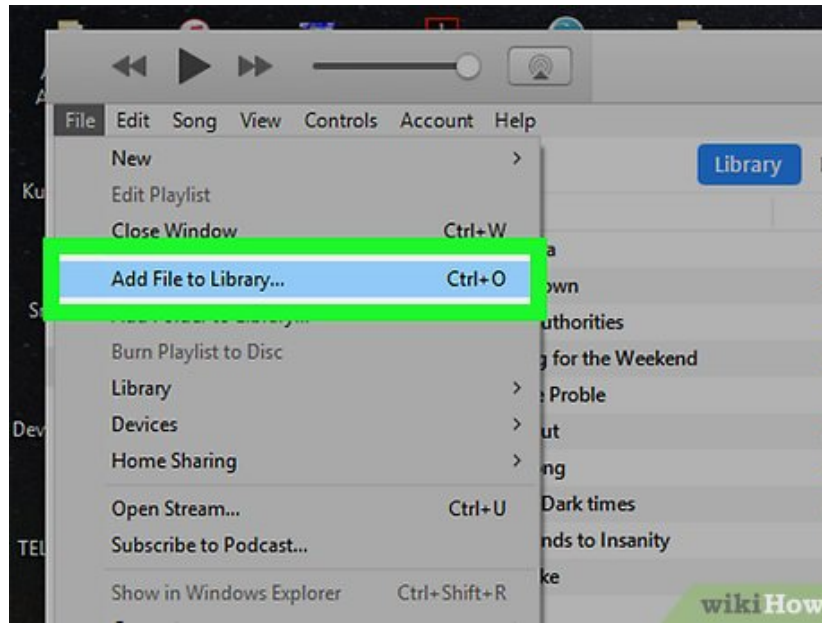

Click **Import Settings...**.

5.

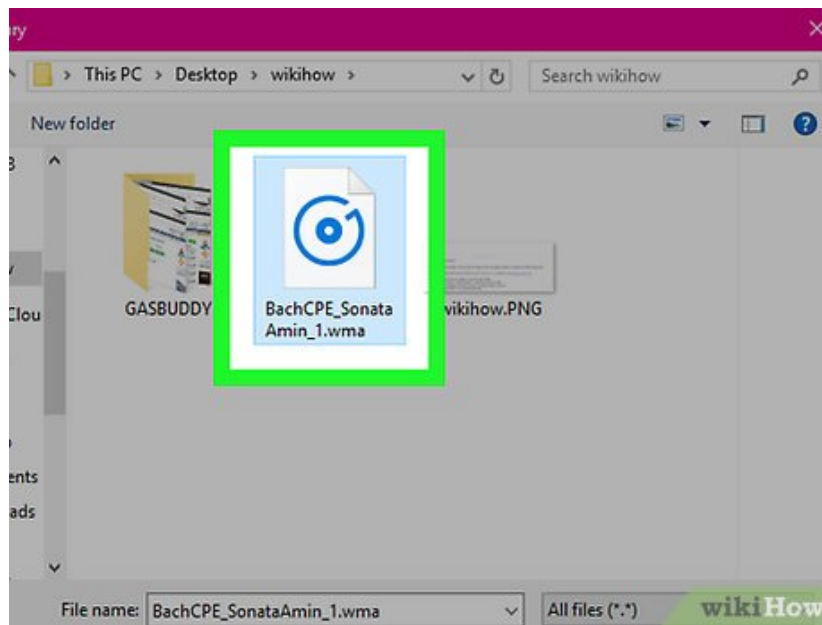

Click the **Import Using** drop-down and **MP3 Encoder**.

6.

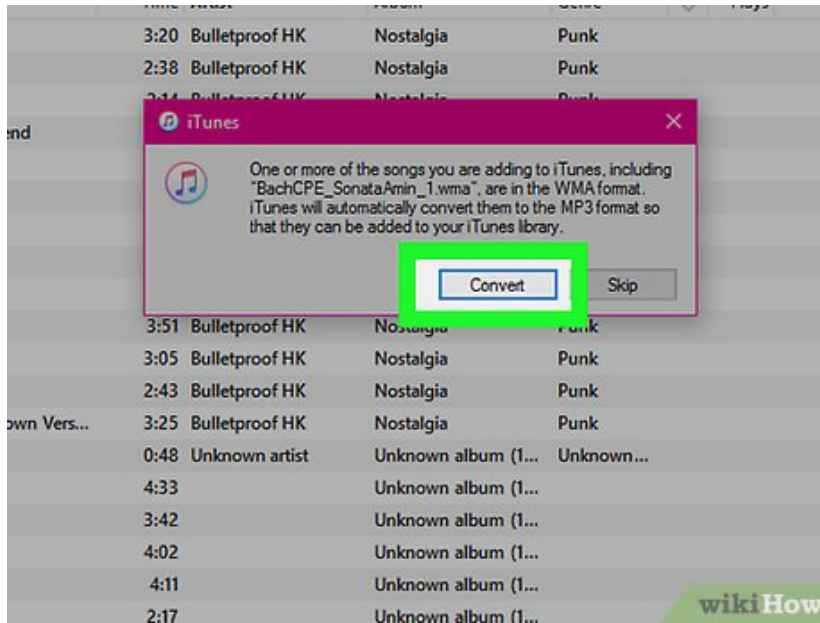

Click .

7.

Click , then .

8.

Select the WMA you want to convert.

9.

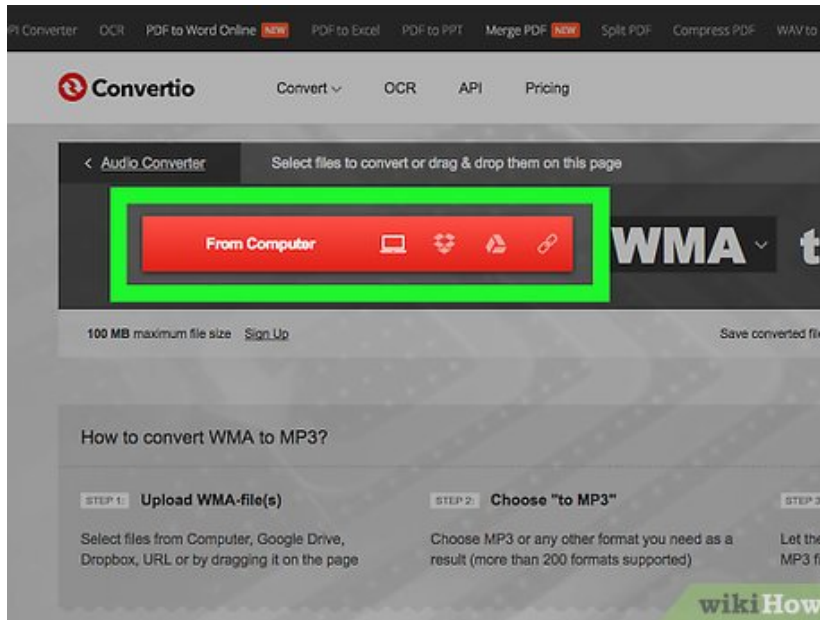

Click **Convert**. Both the original WMA and the converted MP3 will appear in your iTunes music library.

1. If you want to convert existing WMA files in your library, right-click on the file and click **Create MP3 version**.

Method 2 of 2:

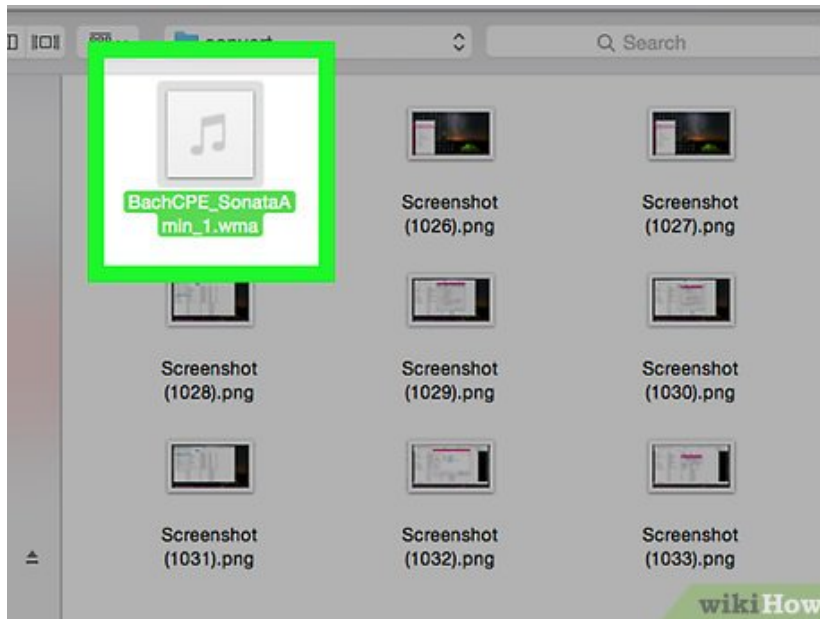

Using Convertio Online

1.

Go to <https://convertio.co/wma-mp3> in a Web browser.

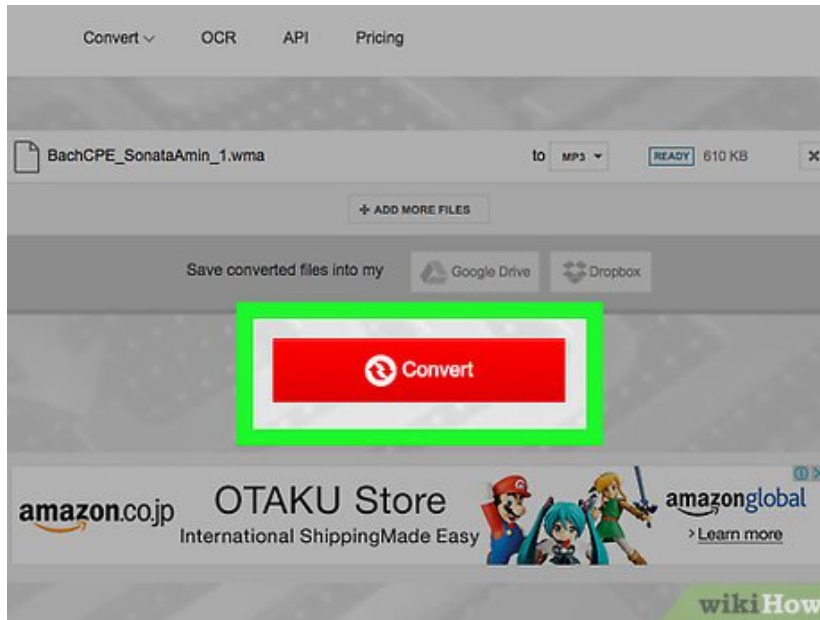

1. Convertio is a free online conversion utility that allows you to upload WMA file of up to 100 MB, convert it, and download an MP3 to your computer, Dropbox, or Google Drive account.

2.

Select the location from which to upload the WMA file. Do so in the red bar on the left side of the window.

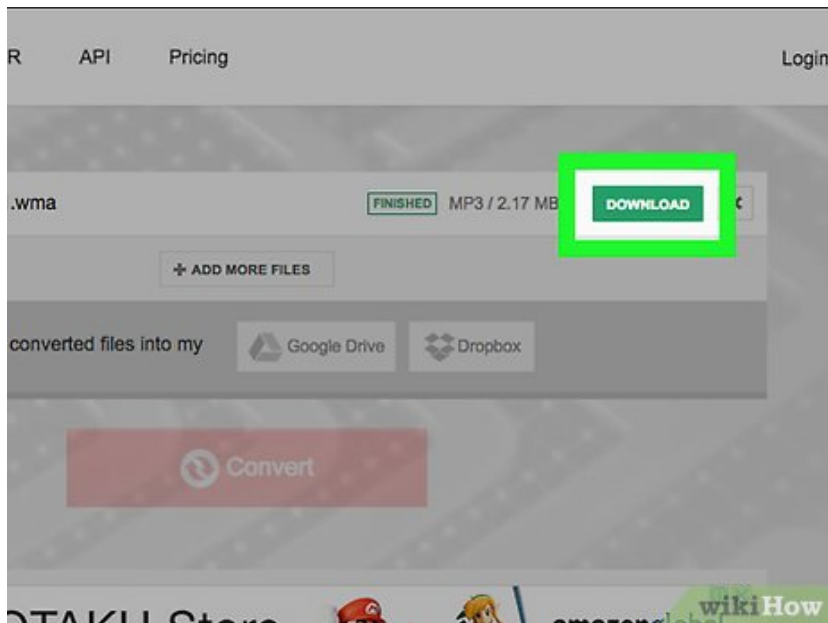

1. Click the computer icon to upload from your computer
2. Click the Dropbox logo to upload from your Dropbox account
 1. If prompted, sign in to your Dropbox account
3. Click the Google Drive logo to upload from your Google Drive
 1. If prompted, sign in to your Google account
4. Click the link icon to convert a WMA from a Web link

3.

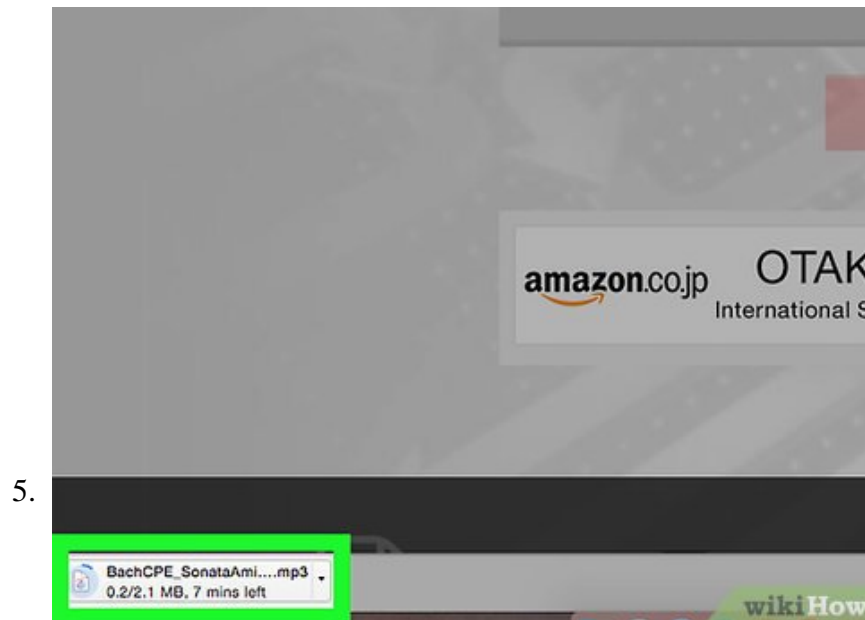

Select the WMA file you want to convert.

1. Make sure the fields in the gray bar on the right side of the window read "WMA to MP3." If not, use the drop-downs to change the fields.

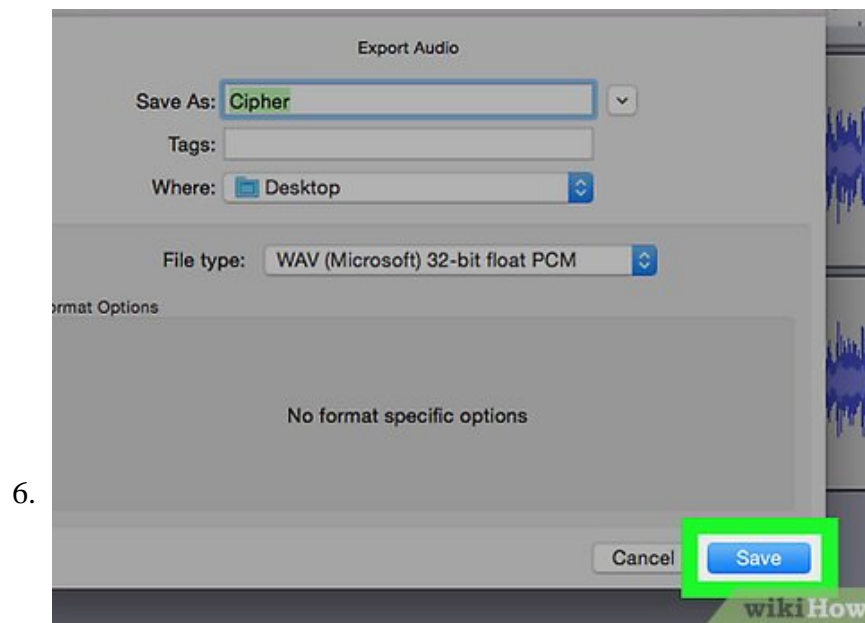

4.

Click **Convert**. The conversion process will start.

Click **Download**. It's on the right side of the gray bar.

1. Click the Dropbox logo to save to Dropbox or the Google Drive logo to save the MP3 file to your Google Drive.

Select a location and click **Save**. The MP3 file will be saved in the specified location.
