

# How to Convert XML to Excel

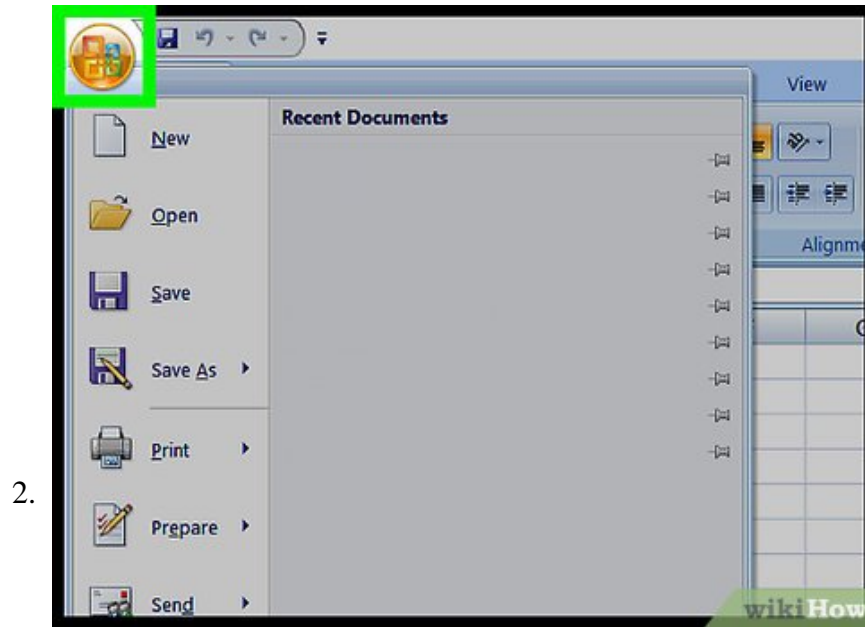

This wikiHow teaches you how to import an XML file into a Microsoft Excel workbook using Windows or macOS. Open Microsoft Excel. You'll find Excel in the 'Microsoft Office' group in the All Apps area of the Windows menu.

Method 1 of 2:

## Windows

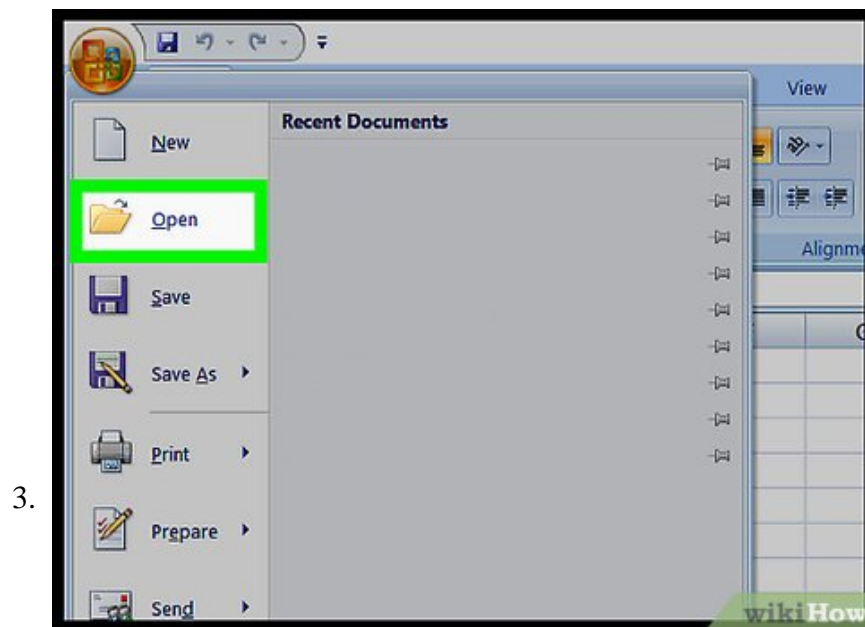

**Open Microsoft Excel.** You'll find Excel in the 'Microsoft Office' group in the **All Apps** area of the Windows menu.

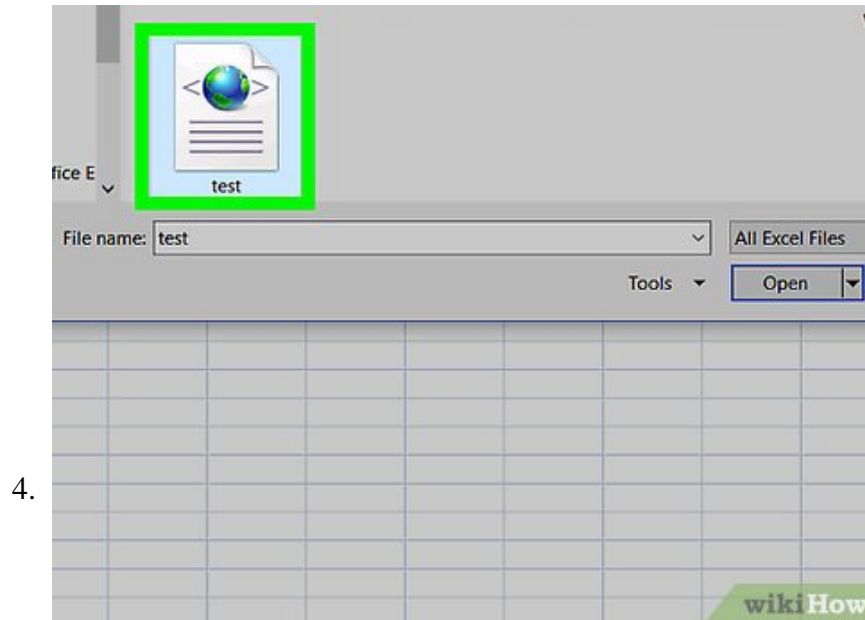

Click **File**. It's at the top-left corner of Excel.

1. If you're using Excel 2007, click the round button with the Microsoft Office logo inside instead.<sup>[1]</sup>

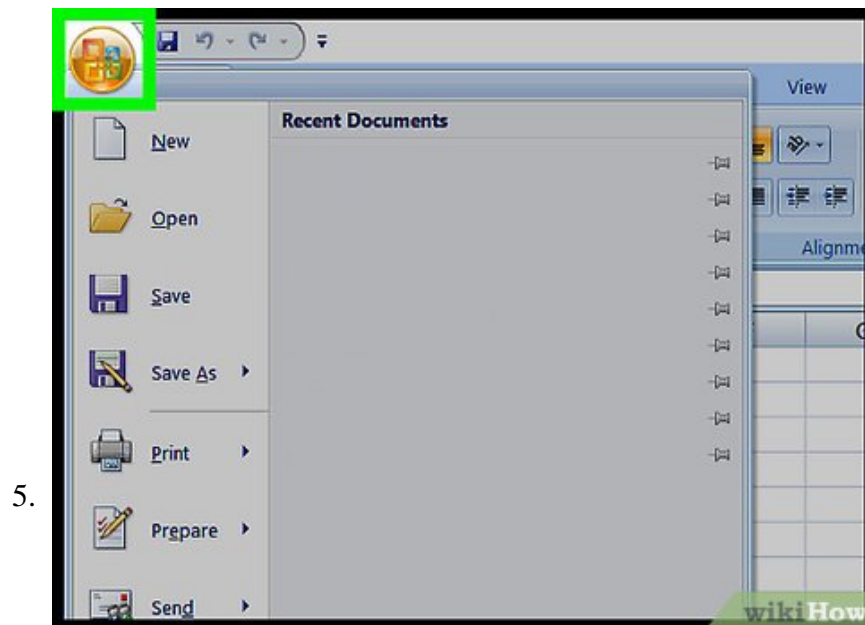

Click **Open**. This opens the file browser.

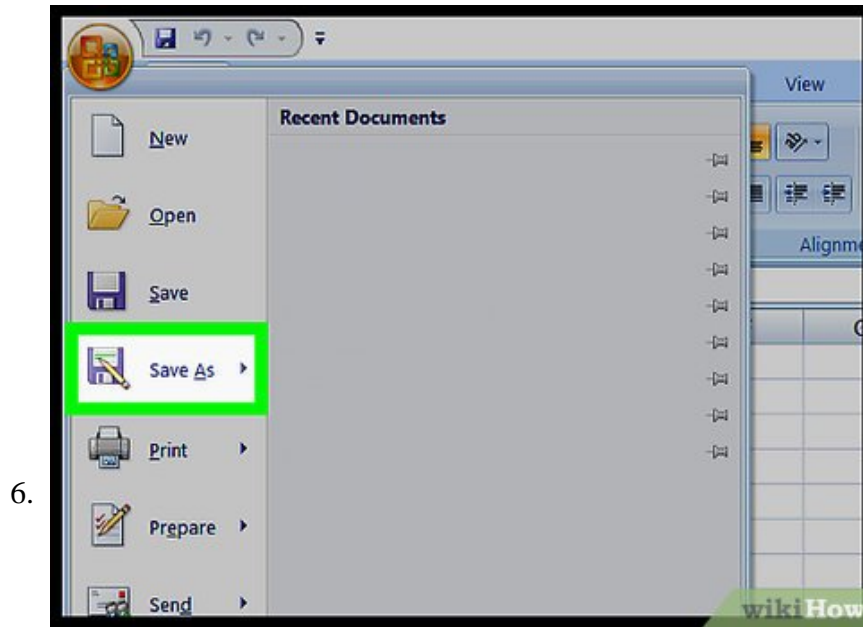

**Double-click the XML file.** Depending on the format of the file, you may have to take additional steps to open this file:

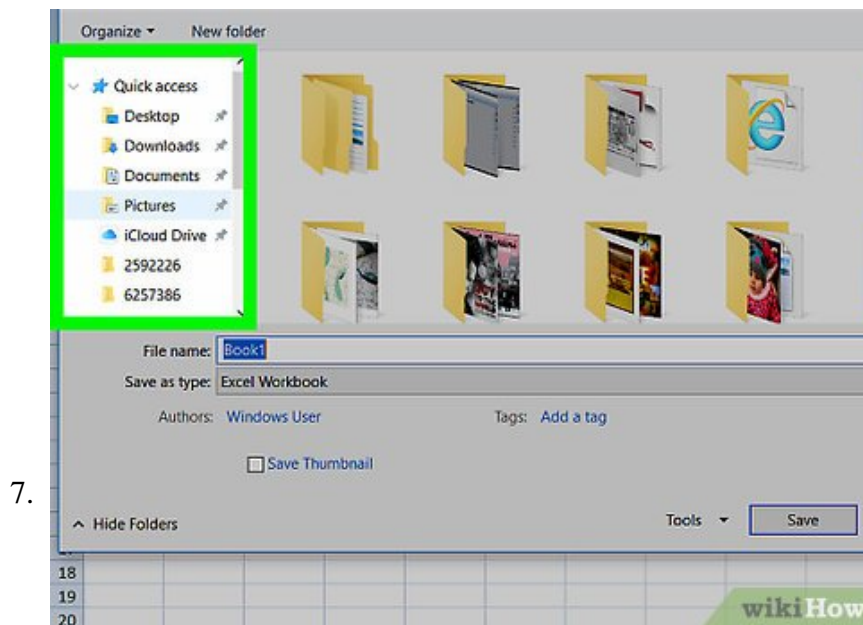

1. If you see a dialog box called Import XML, the file references at least one XSLT style sheet. Select **Open the file without applying a style sheet** to select the standard format, or **Open the file with the style sheet applied** to format the data in accordance with the style sheet.
2. If you see the Open XML dialog, select **As a read-only workbook**.

Click the **File** menu.

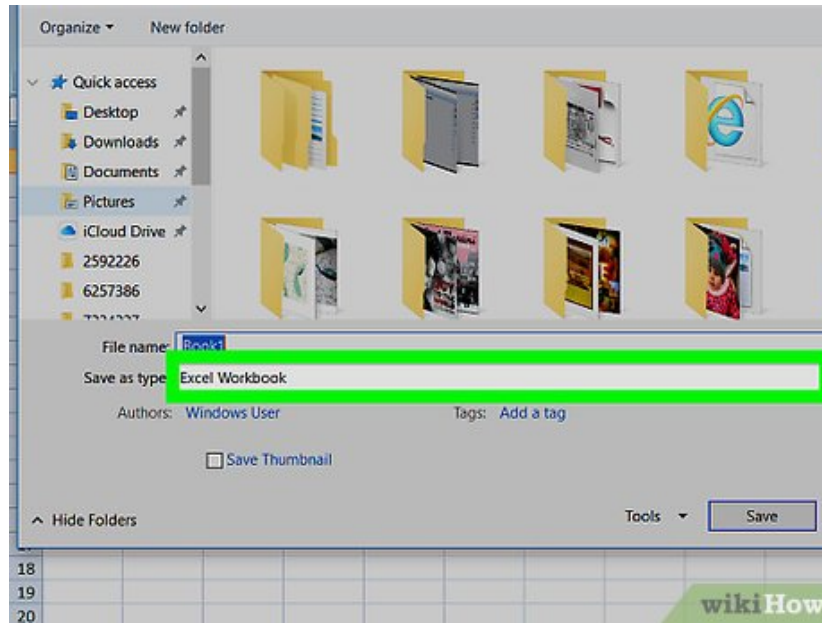

Click **Save As...**.

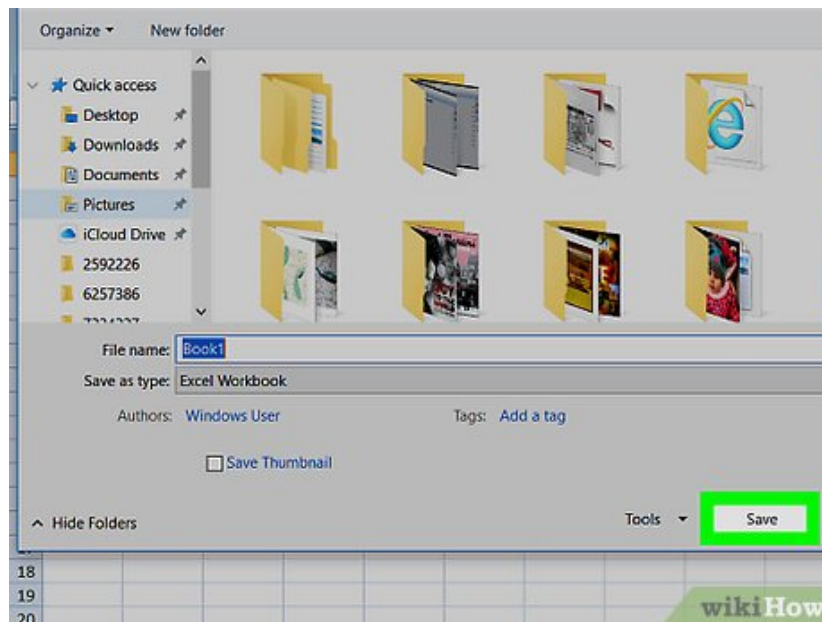

Navigate to the folder where you'd like to save the file.

8.

Select **Excel Workbook** from the 'Save as type' drop-down.

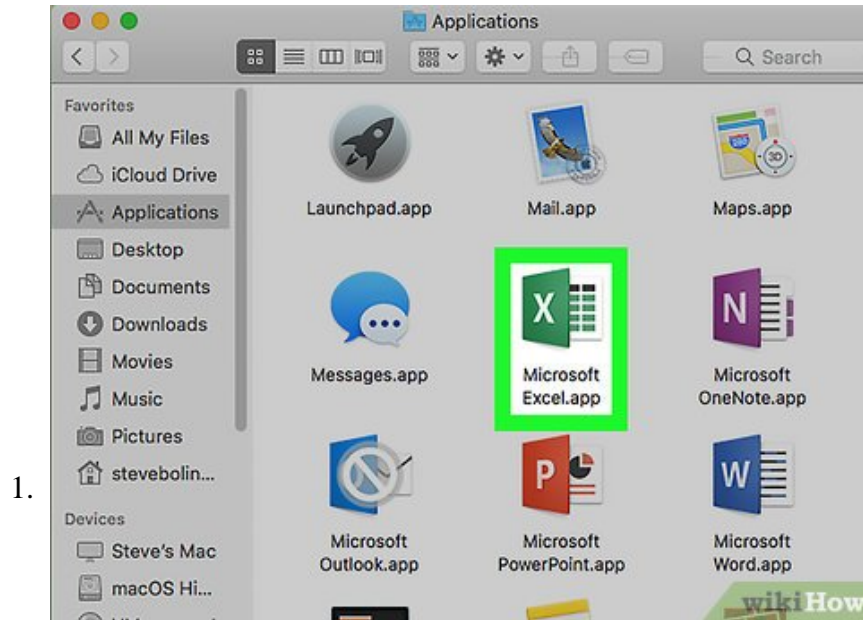

9.

Click **Save**. The XML data is now saved as an Excel file.

Method 2 of 2:

**macOS**

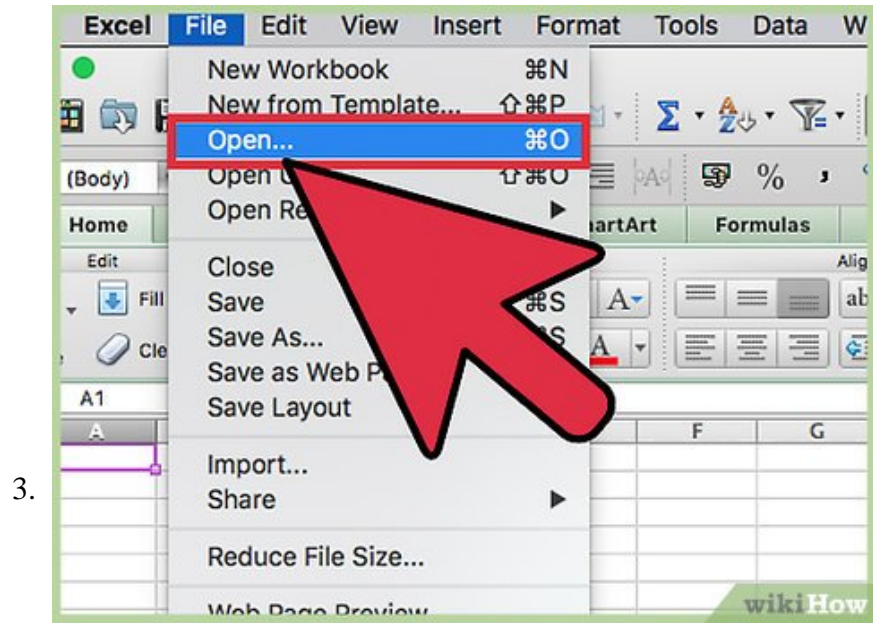

**Open Microsoft Excel.** You'll find it in the Applications folder.

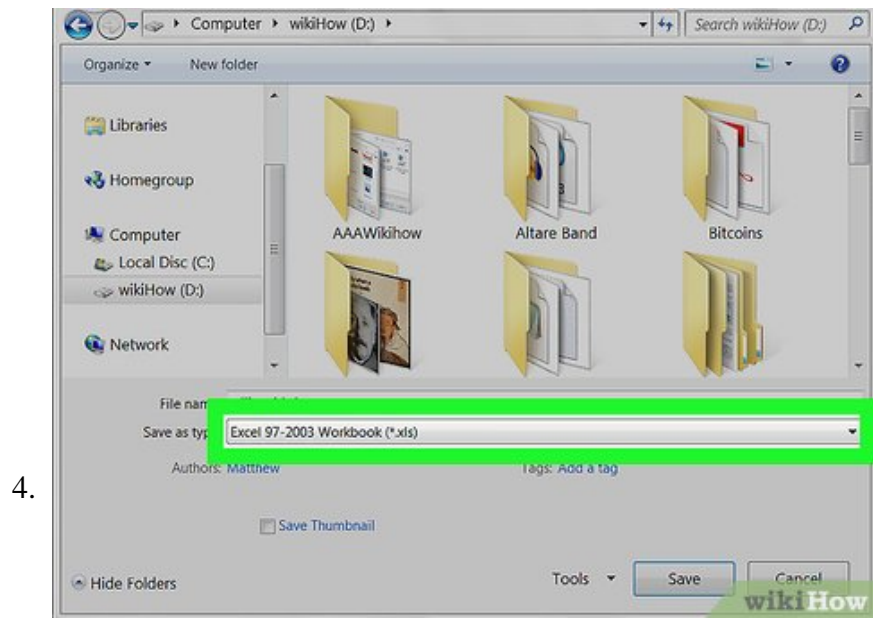

1. Excel for macOS cannot import XML data from another source, but it will allow you to open XML spreadsheet files.<sup>[2]</sup>

**Click the  menu.** It's at the top of the screen.<sup>[3]</sup>

Click **Open**. This opens a Finder window.

**Select the XML file.** To do this, browse to the folder where it's contained, then click the file name once.

5.

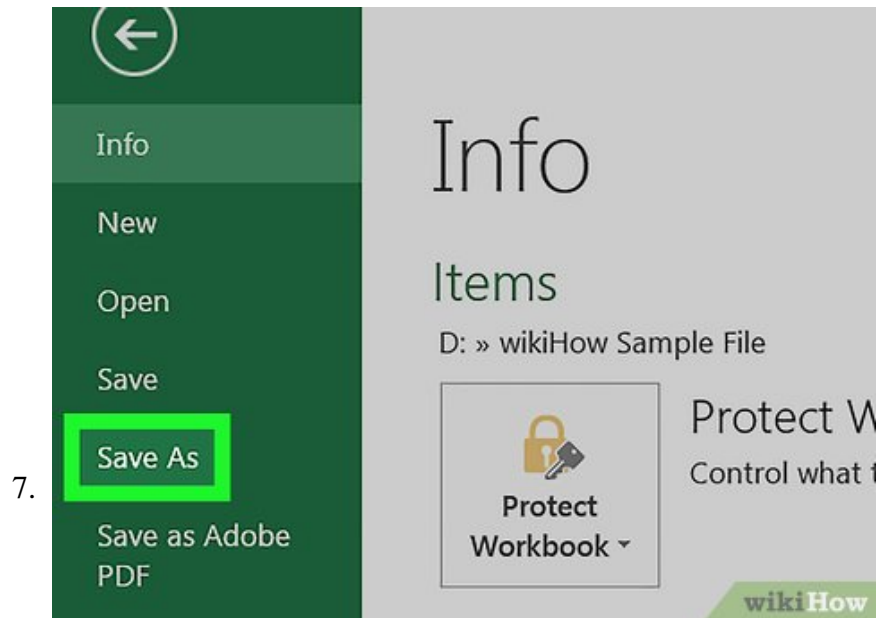

Click . The contents of the XML file will appear.

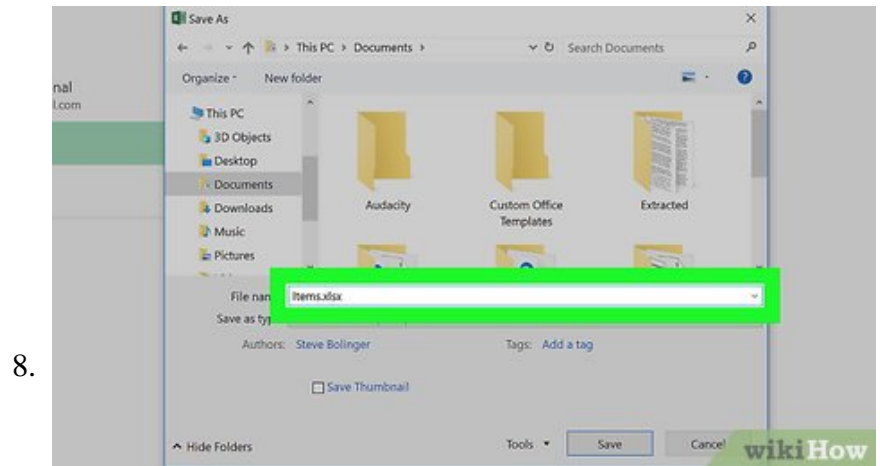

6.

Click the  menu.

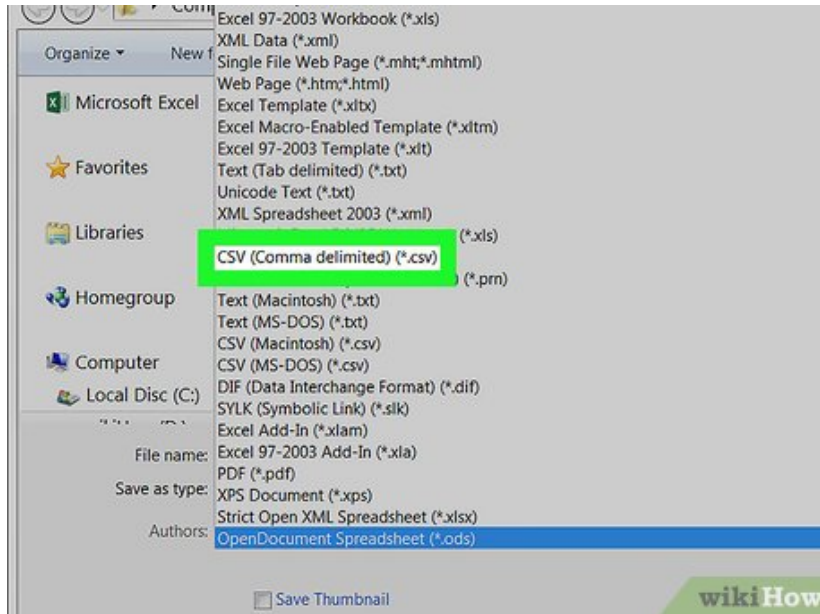

Click **Save As**.

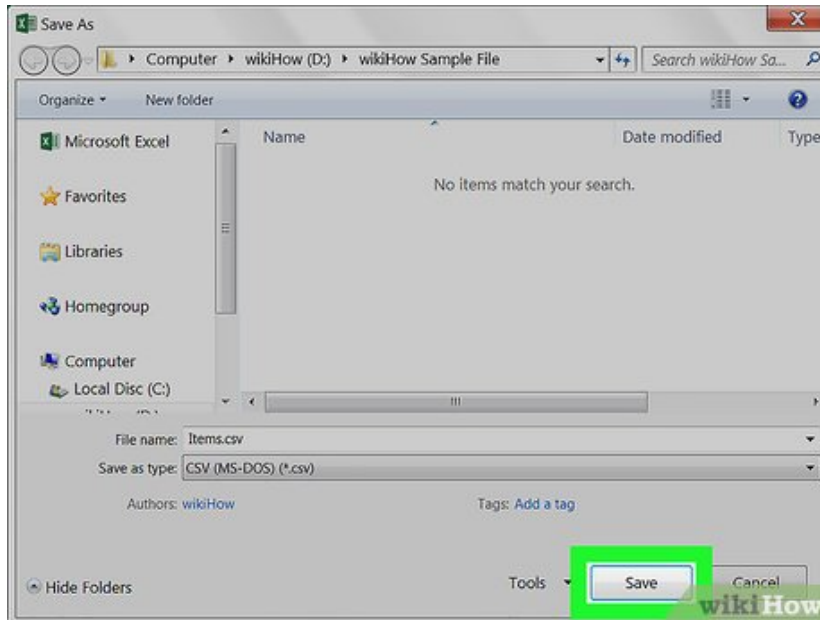

Type a name for the file.

9.

Select **.CSV** from the 'file type' drop-down menu.

10.

Click **Save**. The XML file is now saved as a .CSV on your Mac.
