

How to create a clock waiting screen on Windows 10

To set the clock for the screen to wait for Windows 10, users can use Fliqlo Flip Clock screensaver.

Screen saver on Windows 10 is a protection program for computer screens, activated automatically when the computer stops using for a certain time. Screen saver is built into Windows operating system and users can choose to use different screensavers as they like.

And if you want to set the clock to the standby screen, you can use Screen saver Fliqlo. Fliqlo is no stranger to users and is familiar with its appearance since Windows 7. Currently, Fliqlo is still used and is one of the popular Screen saver. To install Screen saver Fliqlo, readers can refer to the article below.

How to set the clock for the screen to wait for Windows 10

Step 1:

First, download Fliqlo Flip Clock screensaver following the link below and click on the downloaded file to install. The Fliqlo Flip Clock installation is very simple and does not require too many steps. The main interface after installation will be as shown below.

1. <https://www.screensaversplanet.com/screensavers/fliqlo-flip-clock-314/download>

Step 2:

To customize the user can click **the Settings section** and configure for Fliqlo. Users can select **24H Format** to display 24 hours mode. At this time there will be no AM or PM symbols as before.

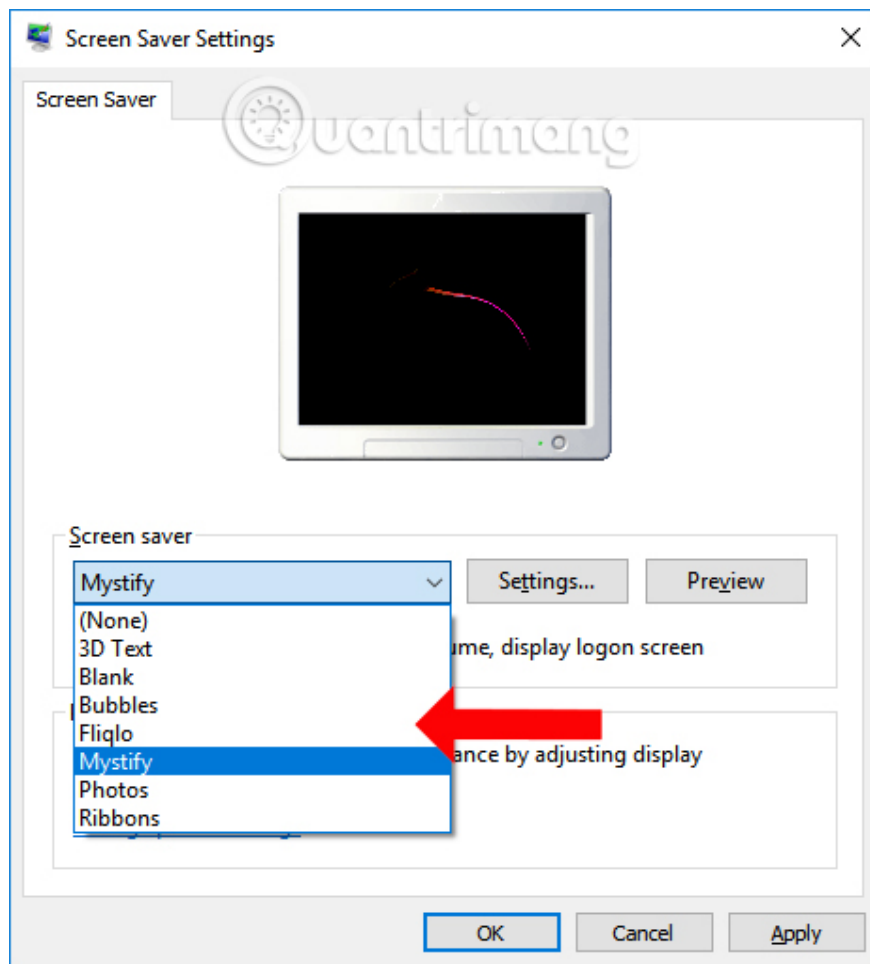

Or we can **adjust the Size bar** if you want to resize the clock on the computer standby screen. In case you want to return to the previous settings before, click Reset All.

Step 3:

If you want to change to another standby screen type, at the Screen Saver Settings interface we can select the type of screen in the list. If you want to preview how the standby screen appears, you can click the Preview button.

After setting to switch to another standby screen, click Apply and OK to save.

Although the design is simple and quite familiar, Fliqlo Flip Clock screensaver is still used by many people. Users can monitor the time right on the screen waiting for Windows 10.
