Step 2:

In this interface you will see the GameBoy Advance SP machine simulation wallpapers for you to choose from. We choose the color of the game console, the keyboard interface of the game console according to our preferences. You drag the horizontal bar to the right, to the left to see the full range of GameBoy Advance SP models. If you want to use any wallpaper pattern, click on that template to use.

Step 3:

Next we click on the Choose photo button to load your personal image as the image inside. Now we are transferred to the interface to resize and the image area we want to take, and then click the Crop image button .

After uploading the image, you adjust to the display pixel opacity of the image, at the Pixel Opacity bar . Finally click the Create image button to proceed to create a GameBoy Advance SP simulation wallpaper for iPhone.

Step 4:

As a result we get the GameBoy Advance SP simulation wallpaper on the iPhone as shown below. If you like, then we click Download photos to set the wallpaper for iPhone. If you don't like it, change the details you want and then click Create again to get a new photo.
