3. How to use Evernote widget on Google Chrome

Instructions for creating notes on Chrome

Step 1:

Users click on the link below to install Notepad By ClickUp utility on the browser.

1. Download Notepad By ClickUp Chrome

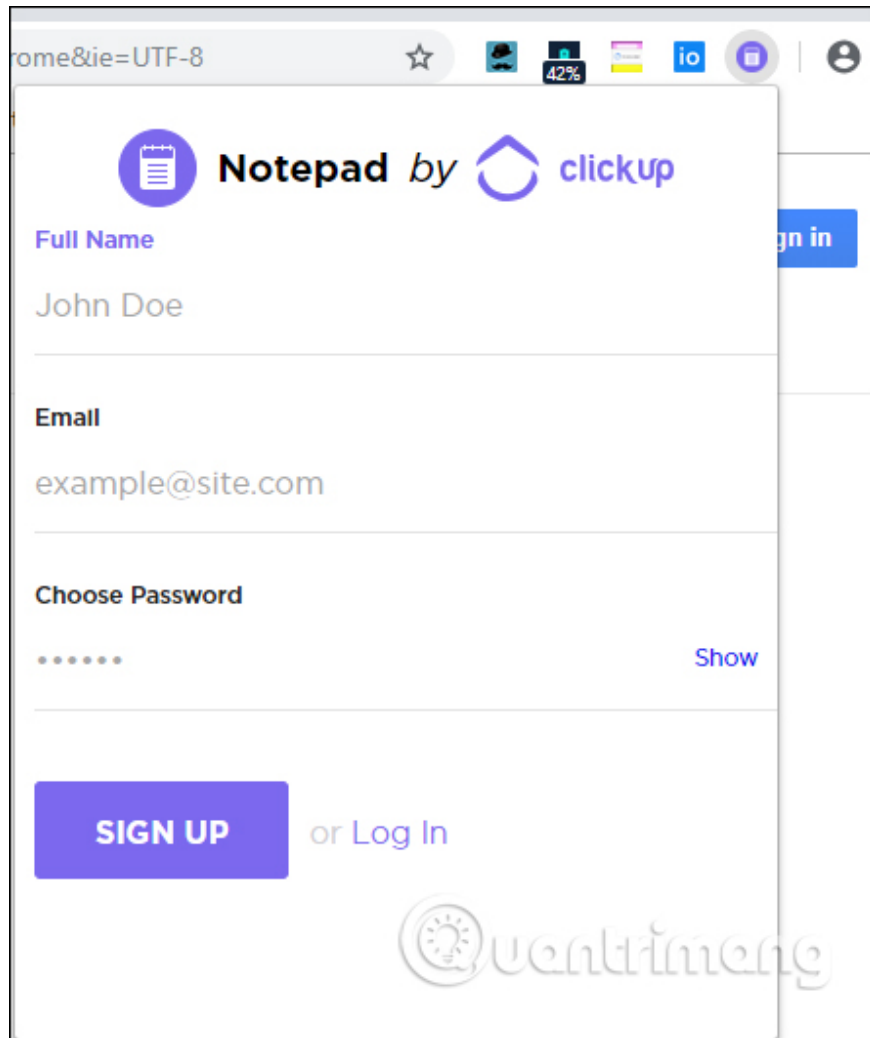

Step 2:

After installing the utility, click on **the utility icon** in the address bar on the browser. Click **Sign Up** to register your account.

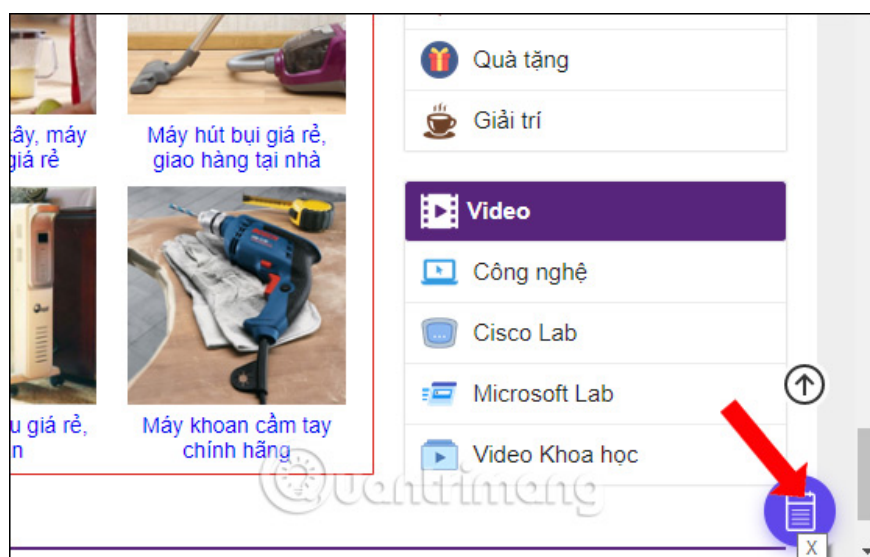

The image shows a browser window with a login/sign-up form. The form is titled "Notepad by clickup" and "Quantrimang". It has two input fields: "Email" and "Enter Password". Below the password field is a link "Forgot Password?". At the bottom, there is a blue button labeled "LOG IN" and a link "or Sign Up" with a red arrow pointing to it.

You enter all the **required information** in the interface and then click Sign up to create an account.

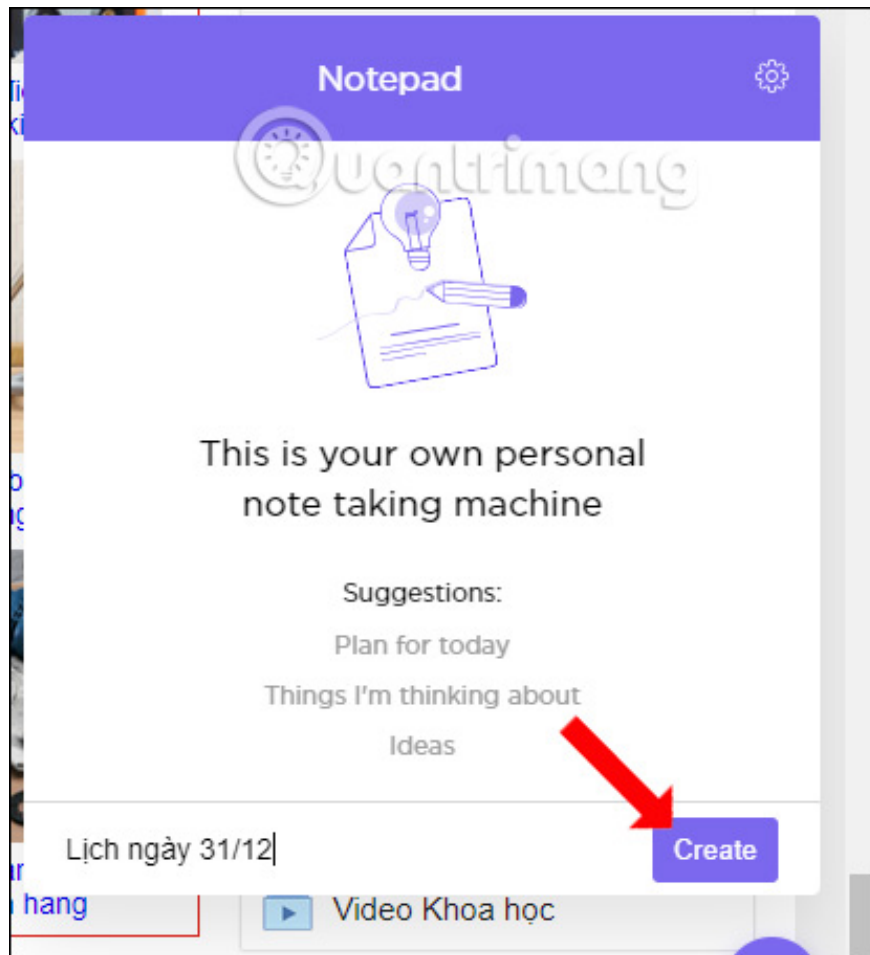

If the account is successfully created, the user will see a **note icon** at the bottom of the browser interface as shown below. This icon will appear on any web page on Chrome.

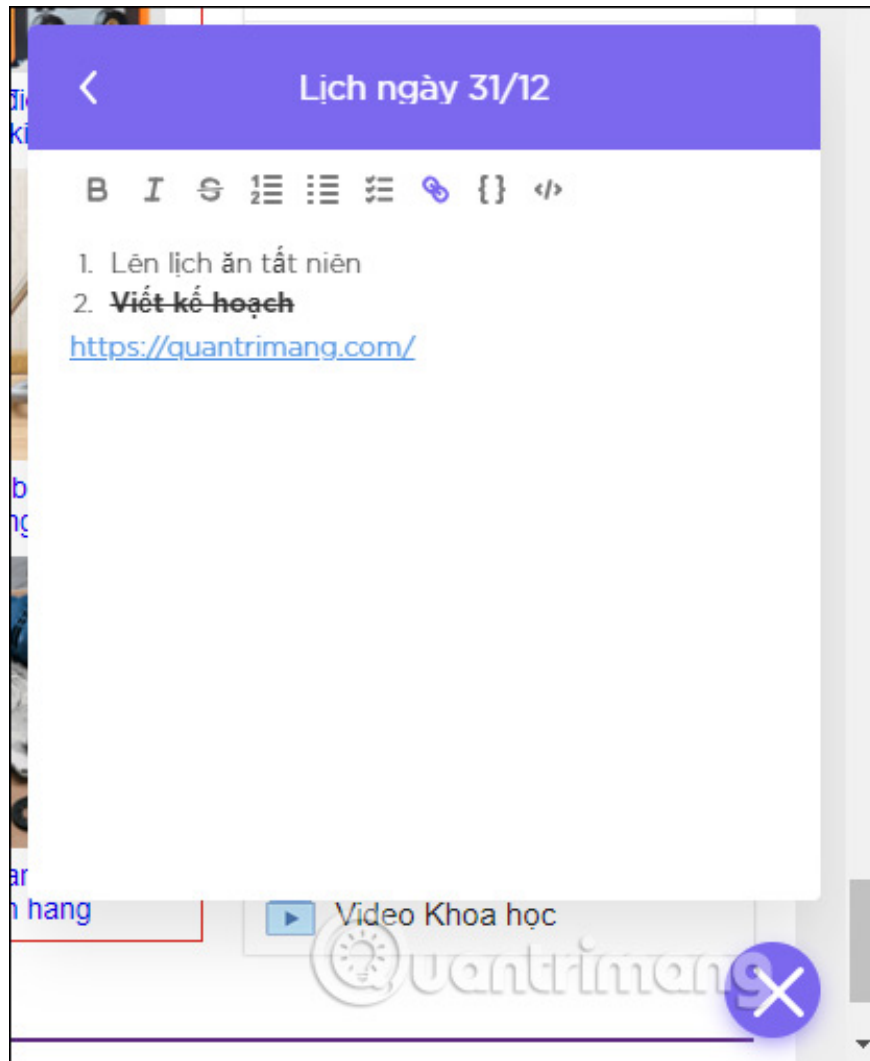

Step 3:

To note the user just need to click on the widget icon, and show the interface for entering notes immediately afterwards. Users click Create new note to write **a title for the note** , then click **the Create button** to create.

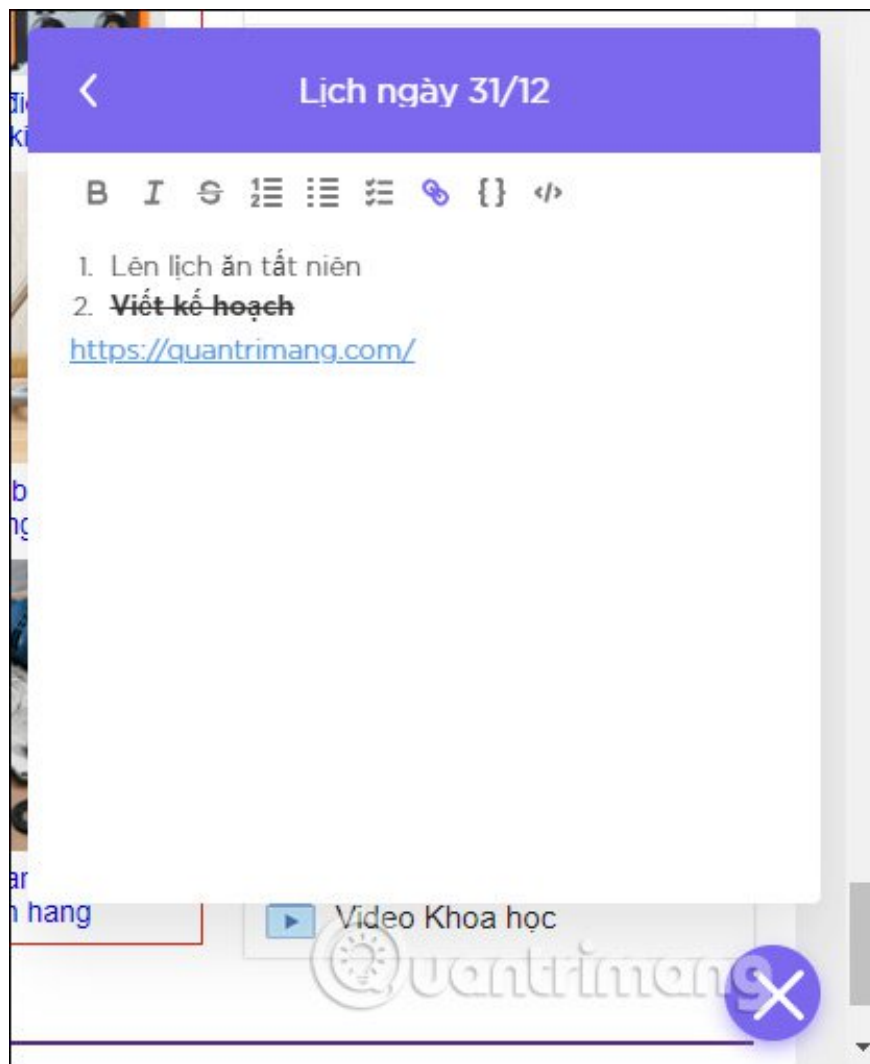

Then it will display more interface to write notes other than the content writing tool, such as bold, italic, dash, align, insert links, . When finished writing press the nose icon Name to save.

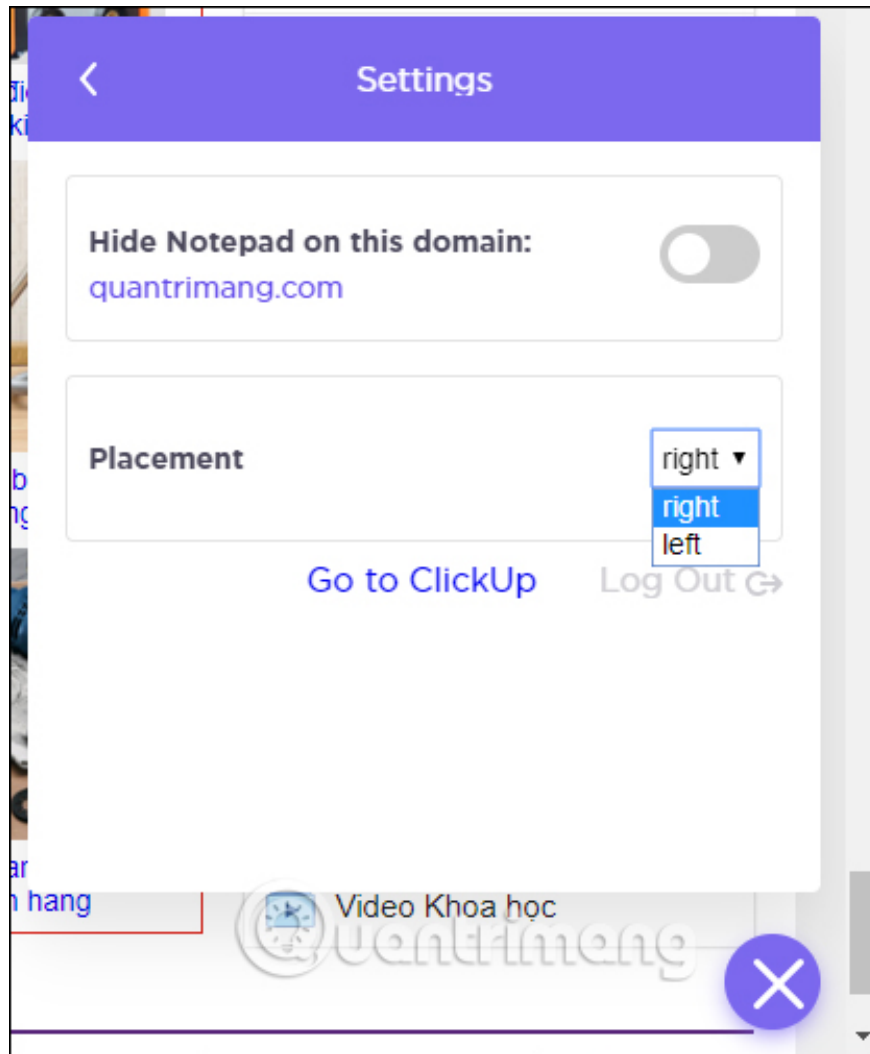

Step 4:

The notes management interface will show only the titles of the notes. In each note will show the trash icon to delete, pen icon to edit the note title.

Step 5:

Clicking on **the gear icon** will display the setting interface for the note. In this interface, users can turn off or hide the note icon at a website in the Hide Notepad on this domain section. Placement section will choose the left or right position of this icon.

Notepad By ClickUp utility provides a simple browser note-taking tool that can be accessed on multiple devices via a utility account. You can write notes on any web page on Chrome, presenting content with editing tools.
