

How to create a poll on Facebook

Facebook has added a poll creation feature, similar to creating polls in Facebook chat groups.

Not only is the social network friends, socializing like before, Facebook now offers many other useful features, such as creating a poll right on the interface.

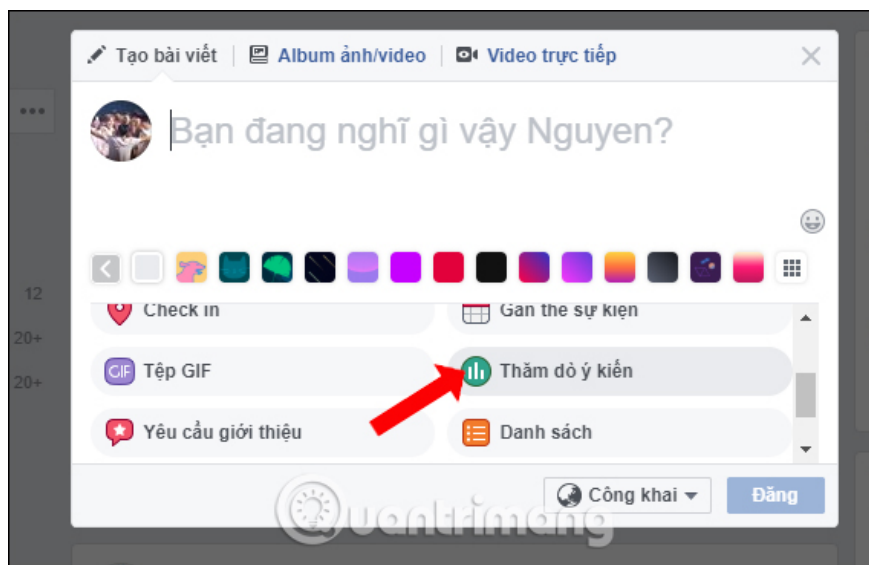

As a result, users can create a poll with their Facebook friends, see the comments selected between the issues you are interested in. The poll creation feature is available in the Facebook chat group, and now on the personal page. We can go through the opinions that people make to have more choices for the question. The following article will guide you how to create a poll on Facebook.

1. How to create a poll in the Facebook group on your phone
2. Guide to creating a survey in Instagram Stories
3. How to create a to-do list on Facebook

Instructions for creating polls on Facebook

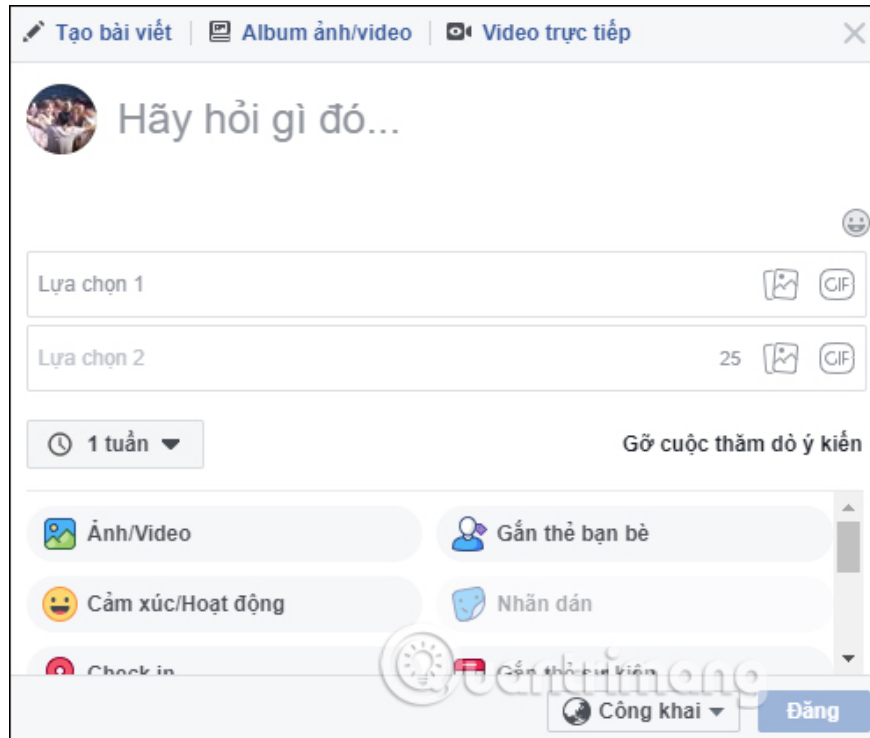

Step 1:

Log in to your personal Facebook account and then click on the write status box. At the options below click on the **Poll** section.

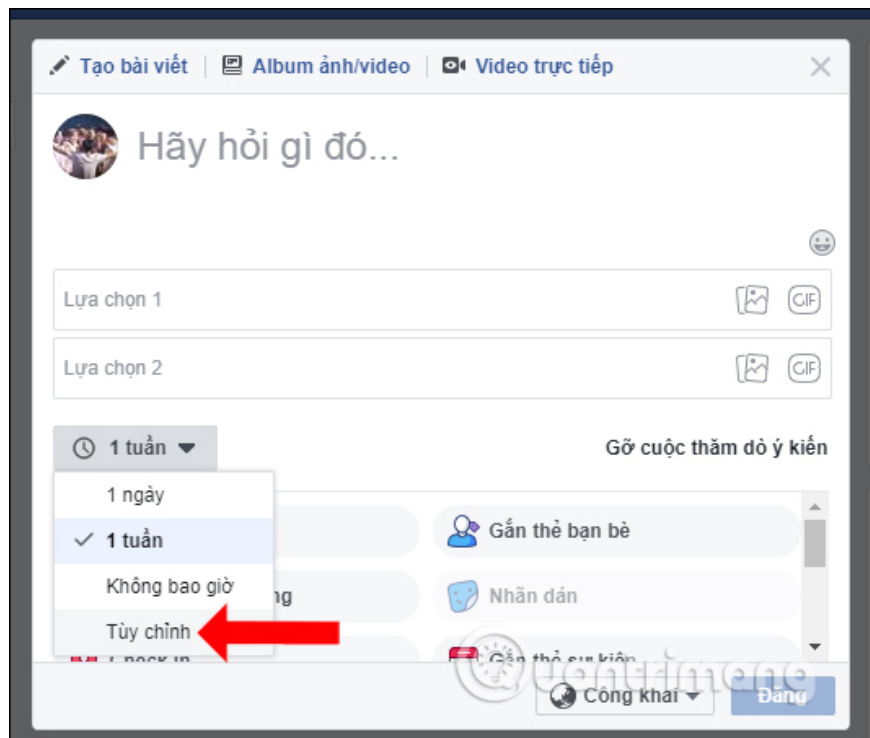

Step 2:

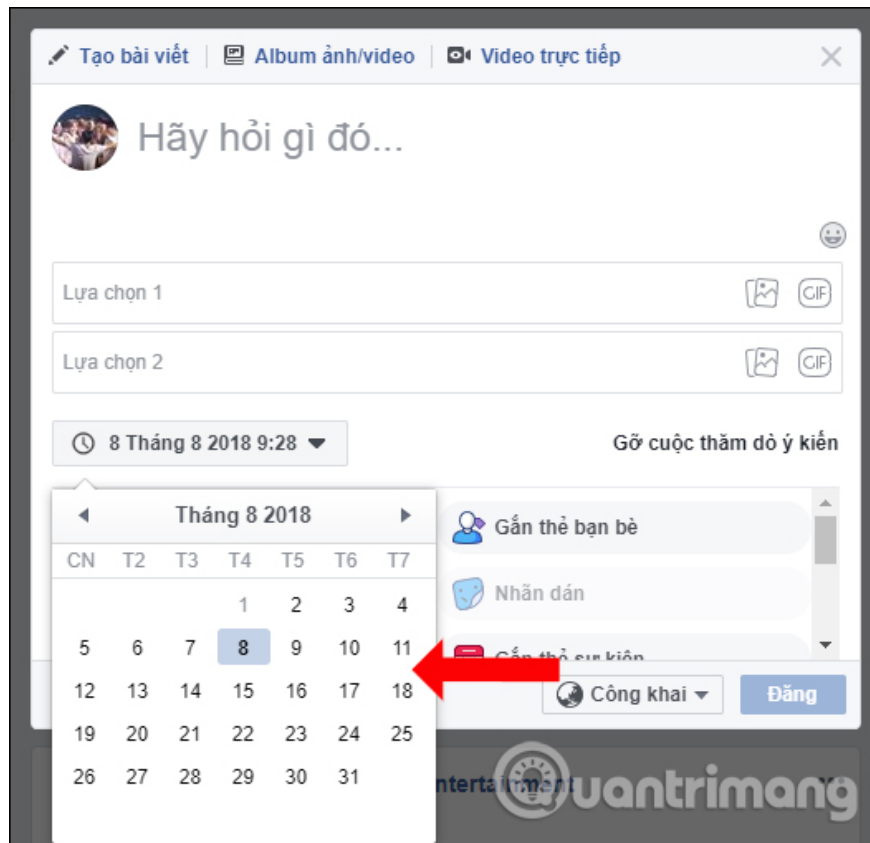

The question input interface appears. Here you will have 2 options for questions and problems that you need to explore. Enter questions and polls into the frames. We can insert images or animations into the comments. **Note** the content selected no more than 25 characters.

Besides, users can choose how long it will take the poll to last. If you want to select a specific time, click **Custom**.

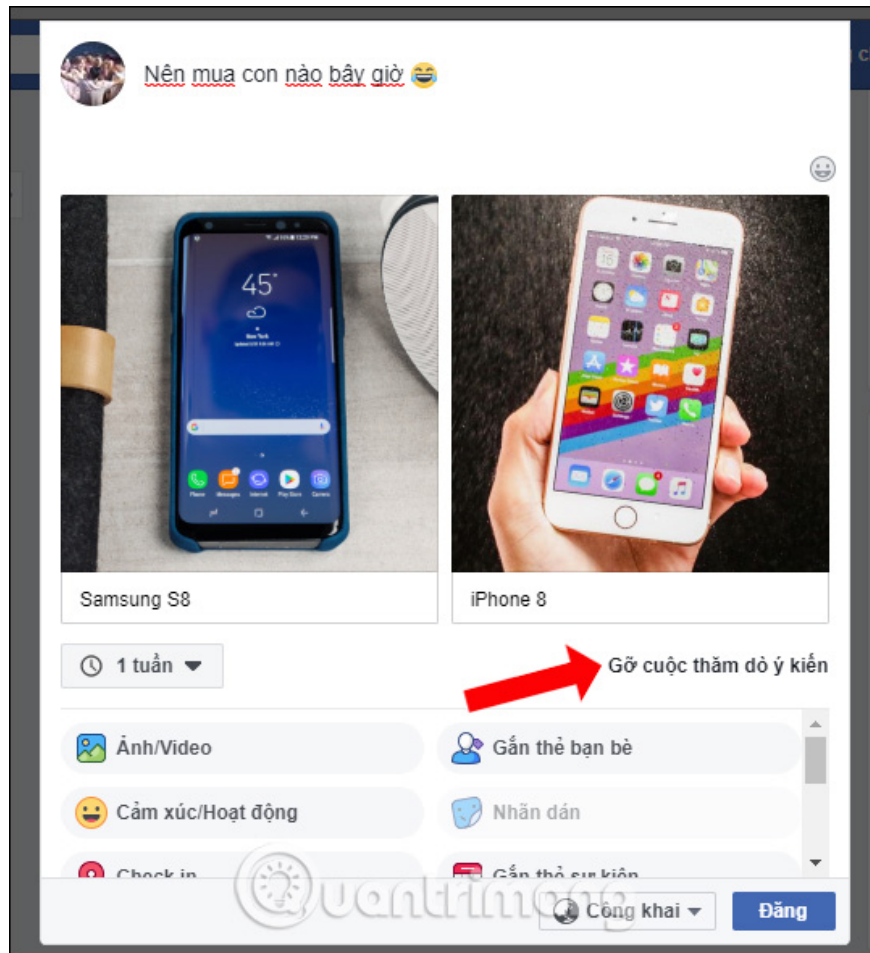

Click to select the time the user wants to display the poll.

Step 3:

If you do not want to continue creating a poll, click Remove poll to perform another poll. Finally click **the Post button** to post the poll.

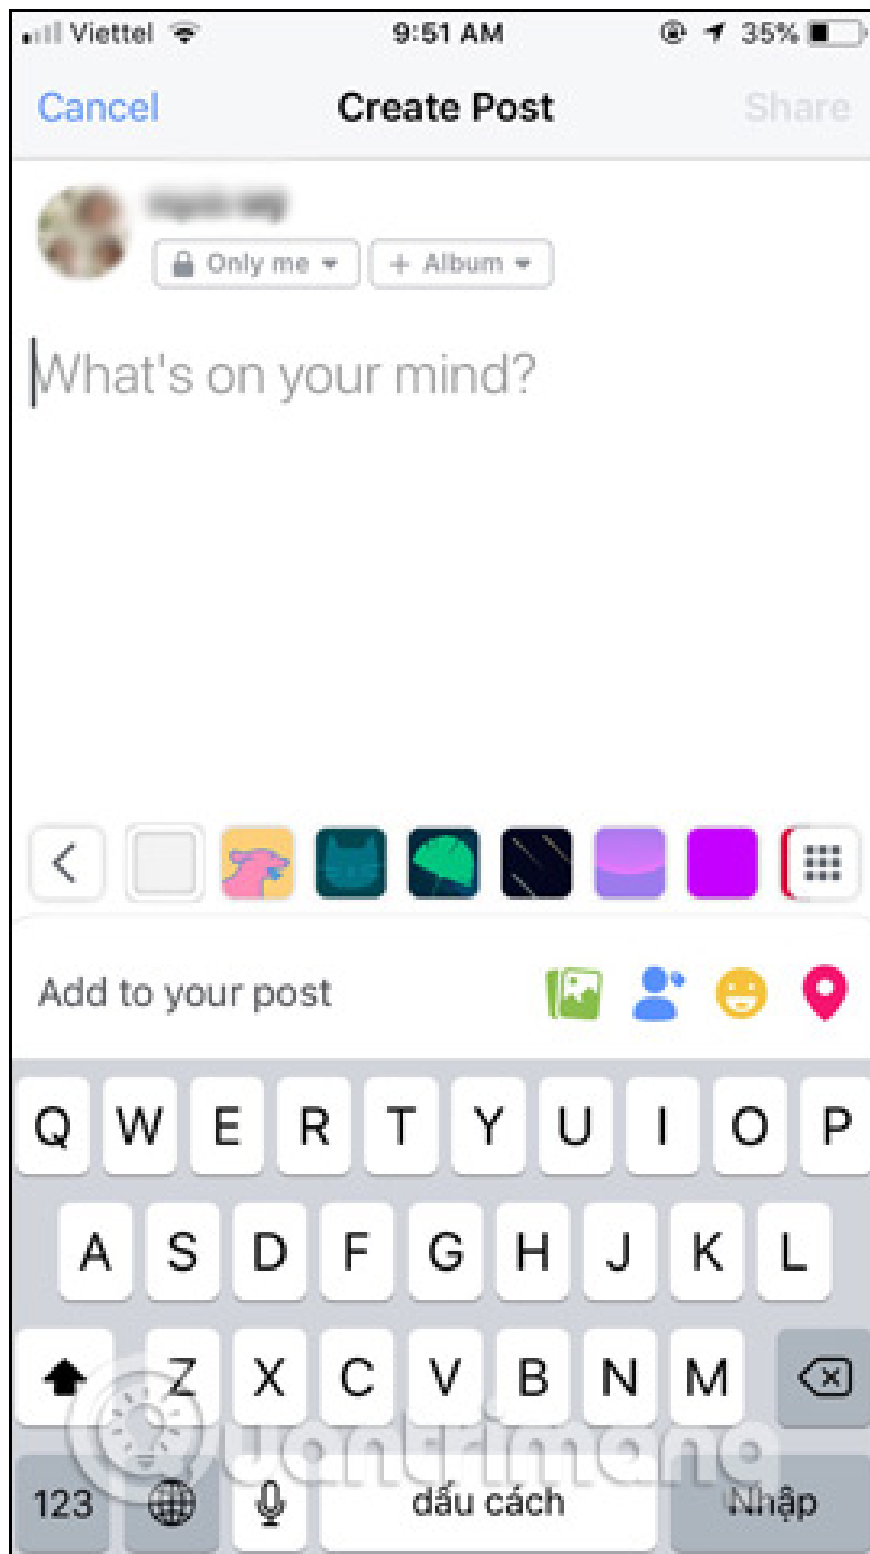

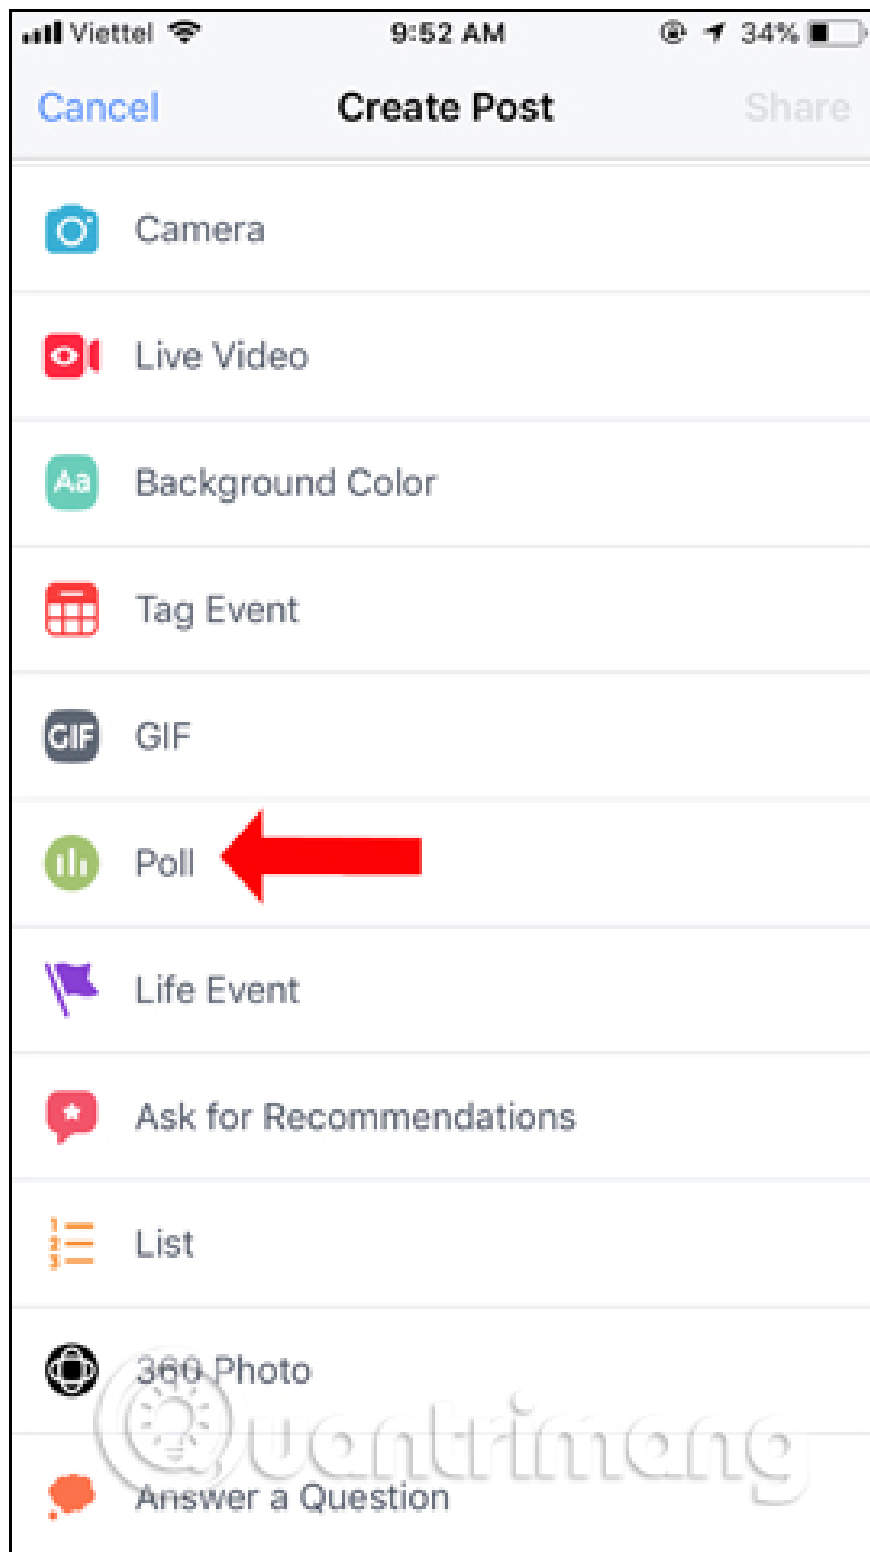

Step 4:

As a result we will get a survey like the one in the picture. When someone votes you will receive a notification, and will display the percentage of votes.

Creating a poll on **Facebook Android and iOS** is similar to creating Facebook on a computer. We also click on the status post on Facebook and then select Poll.

After that, the question input interface and 2 choices also appear. Users can still post images available on the device, or choose the animation that Facebook provides.
