

How to create a quick poll on Fast Poll

To create a quick poll, users can use the Fast Poll website.

Creating a survey is easy for surveying, scheduling work, planning in a group. Currently on some applications that have allowed to create polls, the most popular is creating Google Form on Google Drive form, creating poll polls on Facebook, or creating polls on Zalo.

In case the user wants to create a quick poll, do not want to create or use an account, they can use the Fast Poll service. How to create a poll on Fast Poll is simple, fast, no need to create an account. The following article will show you how to use Fast Poll to create a poll.

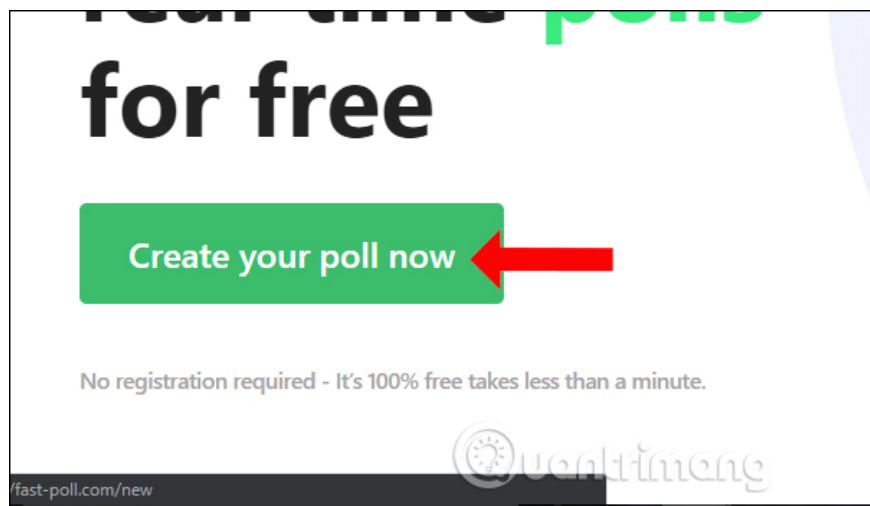

1. How to create Poll on Zalo computer
2. How to create Poll vote on Facebook Messenger
3. How to create a to-do list on Facebook

Instructions for using Fast Poll create polls

Step 1:

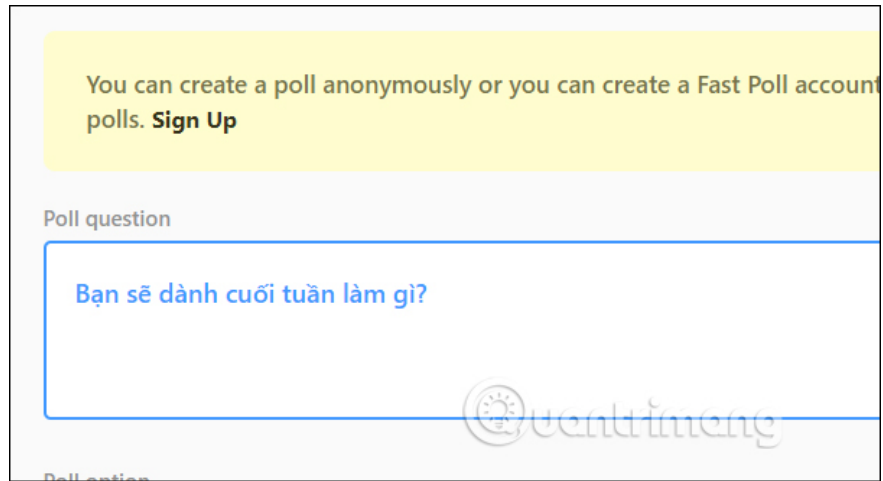

Users access the link below to go to the Fast Poll home page, click on **Create your poll now** .

1. <https://fast-poll.com/>

Step 2:

Next, switch to the new creation interface and enter the question and poll content. In **the Poll question bar** , enter a question for the poll.

The screenshot shows a poll creation interface. At the top, a yellow banner contains the text: "You can create a poll anonymously or you can create a Fast Poll account polls. **Sign Up**". Below this, the "Poll question" section is highlighted with a blue border and contains the text: "Bạn sẽ dành cuối tuần làm gì?". A watermark for "Quantimeng" is visible in the bottom right corner of the interface.

The section below Poll option will enter the options for the question you give.

The screenshot shows the "Poll option" section of the poll creation interface. It features three input fields, each with a "Poll option" label above it. The first field contains the text "Đi xem phim", the second field contains "Đi dạo phố", and the third field contains "Đi nghỉ dưỡng". A watermark for "Quantimeng" is visible in the bottom right corner of the interface.

If you want to add more polls, clicking the **Add another field** will add the following input bar.

Poll option

Eg. Option 4

Poll option

Eg. Option 5

Add another field +

Quantimeng

Step 3:

By default the poll will be **private in the visibility Poll** . That means your poll will only be those who have the poll link can vote, but not on the homepage of Fast Poll.

In case you want to create a public mode for the poll, you need to create an account by clicking Fast Poll account.

Poll visibility

Private - Hidden from our public feed. Only accessible via the url provided

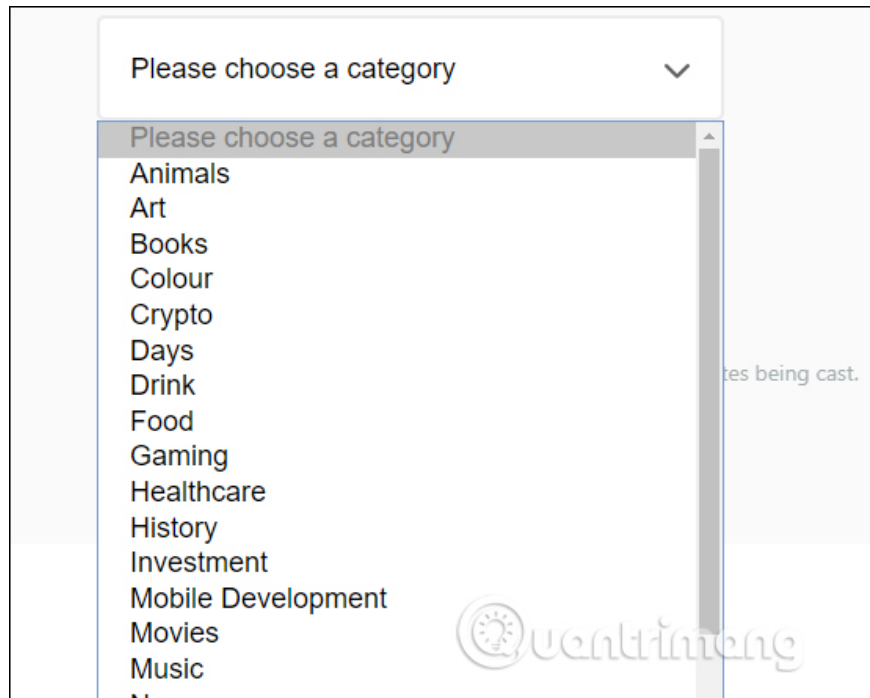

If you create a poll anonymously It will be classed as private and only accessible via the url we provide and will not be shown in our Public Polls stream. If you want to create a public poll you will need to create a free Fast Poll account.

Poll Security

Step 4:

Next in the **Poll category** you select the category for this poll to easily search, in case you have created an account using Fast Poll.

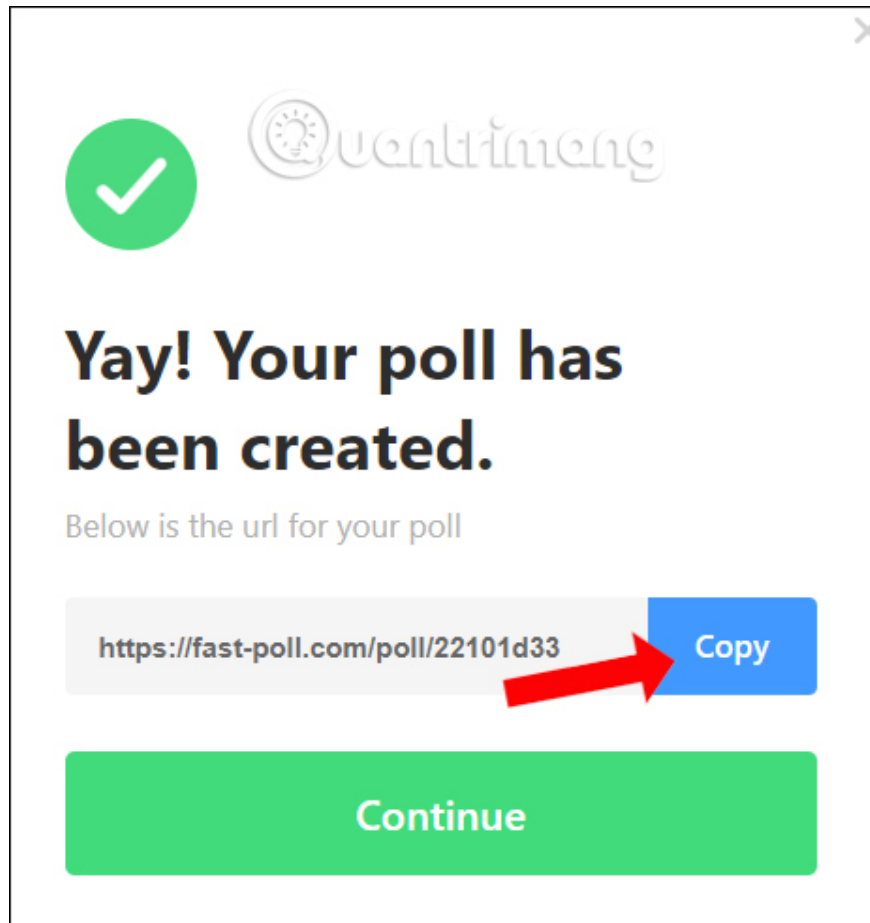

Finally click **Create your poll** to create a poll.

Step 5:

As a result, you will see **the poll URL** to send to the participants.

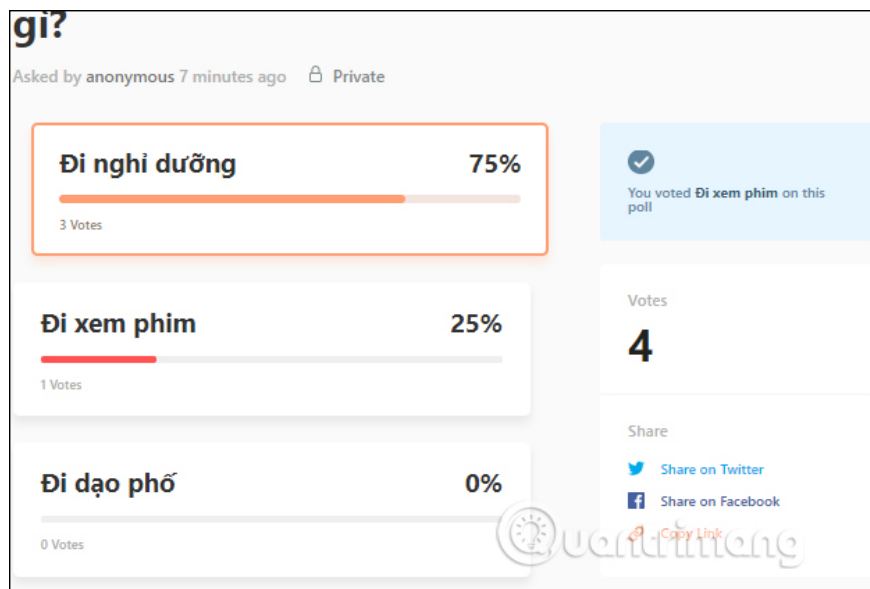

When accessing the link, just click on the opinion you chose and click **Submit your vote** . If you want to see the previous result, click Jump to results to switch to the poll results page.

The voting results will be displayed so that you can know the total number of participants and the percentage of each opinion. To return to the vote, click Submit your vote.

Once successfully selected, participants will be notified of which comments you choose. We can share the results on Facebook or Twitter.

With the Fast Poll website, creating a poll takes place very quickly and simply. Only those with the link will be able to participate in the survey.
