

How to create a simple Mau Mau Tu New Year greeting card with Paint

No need to use complicated software or difficult applications, with just a few simple steps on Paint you have a meaningful New Year greeting card.

Tet is a big holiday for all countries in the world, this is an opportunity for all family members to reunite after a year of studying and working away from home. On this occasion, besides the New Year's gifts and greetings, you can also create greeting cards on your computer with extremely simple, easy-to-implement Paint tools. This tool is very suitable for those who are not specialized in graphics, Photoshop but still want a nice card.

Of course, if you bring Paint in comparison with Photoshop, it is a bit lame, but it is a tool to help you create a new year 2018 greeting card quickly and beautifully that any Windows machine can do.

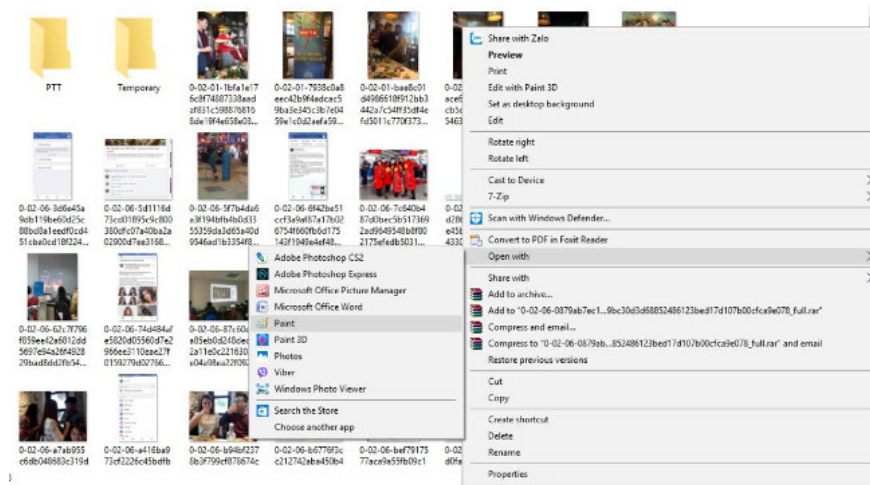

Here's how to make a 2018 New Year greeting card with Paint.

Step 1:

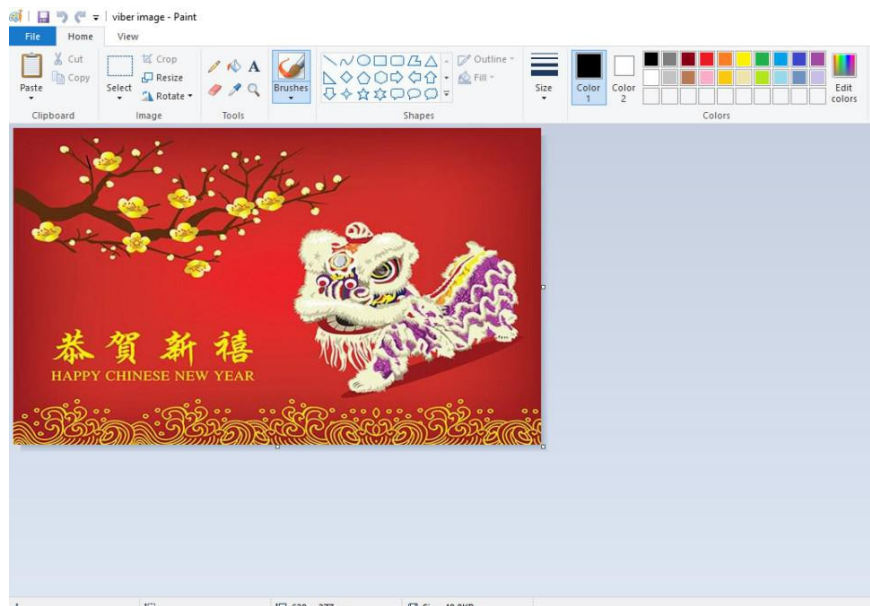

First, you choose the Tet-Lunar New Year wallpapers that best suit your needs and download them to your computer. Or you can use your images to create Tet greeting cards.

Step 2:

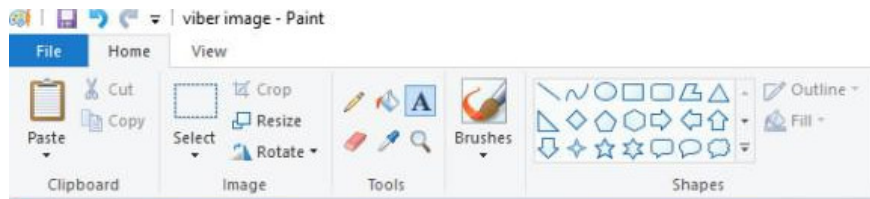

After downloading the image to the computer, go to Download to search for the new image to be taken. Right-click on the image and select Open With to open Paint.

Step 3:

After the picture was opened the Pain tool, now embark on the process of creating a 2018 Tet greeting card.

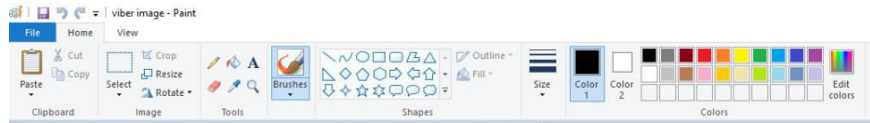

Step 4:

To add new year greetings to the photo, click on the letter A symbol at the top of the tool, now you just need to record meaningful New Year greetings here.

Note: If you click outside the text, it will automatically be assigned there and you will not be able to edit it anymore, this is the limitation of Paint.

Step 5:

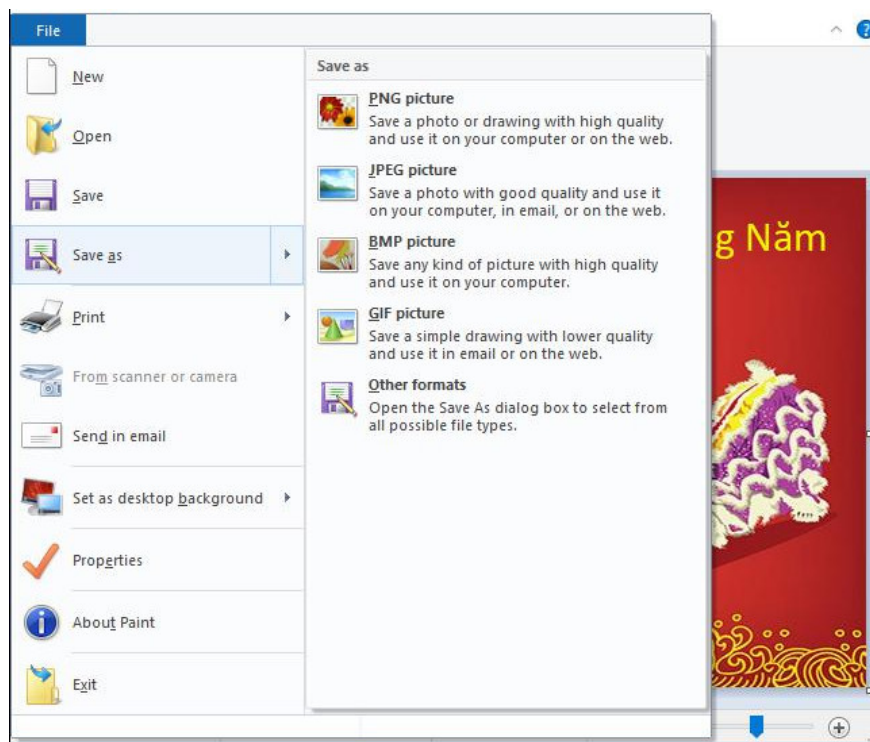

Looking up on the interface we can edit a bit with the current scripts such as:

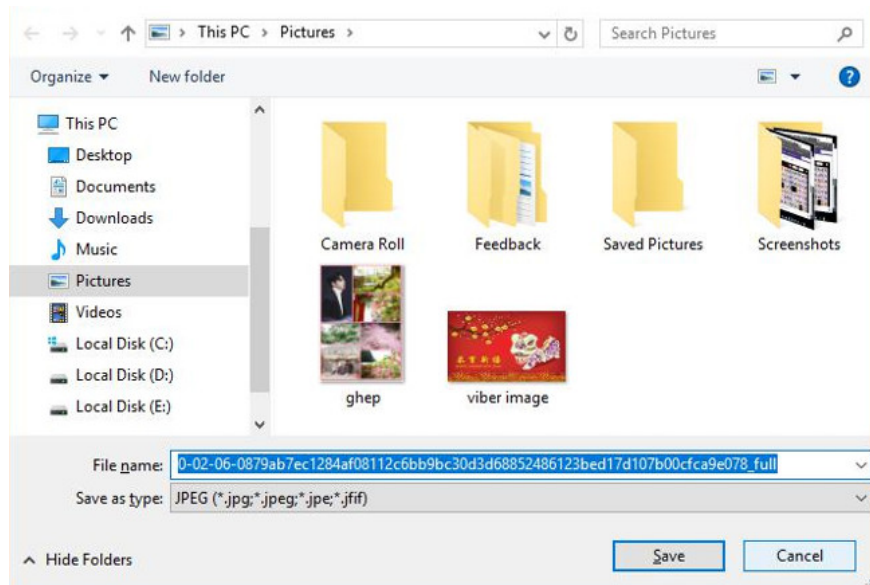

1. Change font, font size, bold, study or dash.
2. Turn on background display - Opaque or turn it off Transparent
3. Also allows color correction in the Color section.

So you have completed the way to create a simple New Year greeting card with Pain.

Step 6:

If you are satisfied with the newly created card, just click File> Select Save as> and select the format you want to save the image.

Proceed to choose where to save the file> name the file and click save.

With just a simple operation, you have a complete Tet card, don't worry about touching with someone to send to your friends.

Hopefully with these helpful sharing, you will have the best Tet cards and have a meaningful Tet with your relatives and friends.

Hope you are successful.
