

# How to create a vote on iMessage iPhone

To create comments for iMessage on iPhone, we install the app Polls for iMessage support.

Currently there are many messaging applications that have added voting to save time, as well as making quick choices for a certain issue, especially when group chat. You can create polls on Zalo, or create polls on Messenger easily. And if users want to create a vote for iMessage application on iPhone, they can install the application Polls for iMessage. This application is integrated right in the message editor toolbar so we can start quickly. You can easily create voting tables even when you are texting. The following article will guide you how to create a voting table on iMessage.

1. How to create a Skype chat group vote
2. How to create a poll in the Facebook group on your phone
3. How to create a quick poll on Fast Poll
4. How to create a to-do list on Facebook

## Instructions for using Polls for iMessage on iPhone

### Step 1:

Users click on the link below to install the application Polls for iMessage on iPhone.

1. Download the app Polls for iMessage iPhone

### Step 2:

After installing the application, go to the message then select the person who wants to send the message. Then we click on the text input box to see **the application icon Polls for iMessage** . Swipe upwards to enter the poll creation interface.
