

How to Create AI Videos on Canva Using Veo 3

Canva has teamed up with Veo 3 to bring users an AI video maker from text. This makes it easier for users to create AI videos right in Canva without the need for other supporting tools.

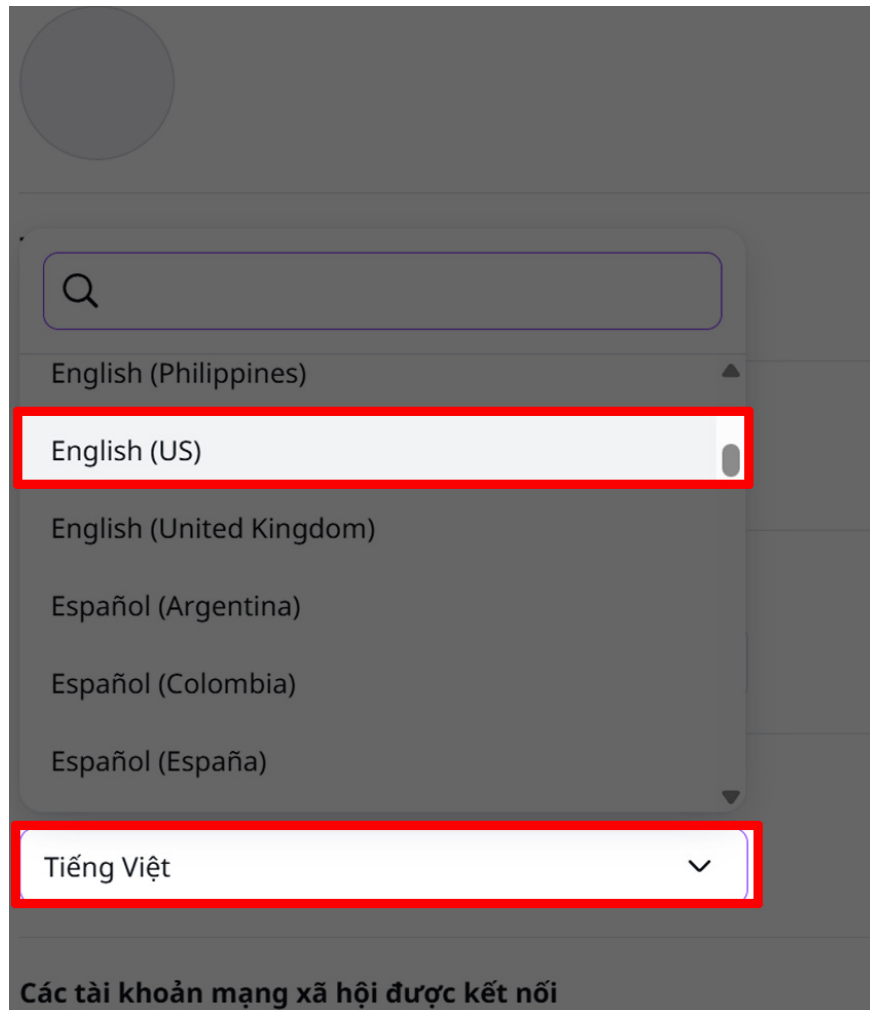

Canva combines with Veo 3 to bring users an AI video maker from text . This helps users create AI videos more conveniently right in Canva without the need for other support tools. Accordingly, you just need to enter the command to create a video into Canva and then Veo 3 will analyze and create a video for you. Below are instructions for creating Veo 3 videos on Canva.

How to create Veo 3 video on Canva

Note, the AI video feature from Veo 3 is currently only available to Canva paid users (Pro, Teams, Enterprise) and Canva Nonprofit, with a limit of 5 videos per month.

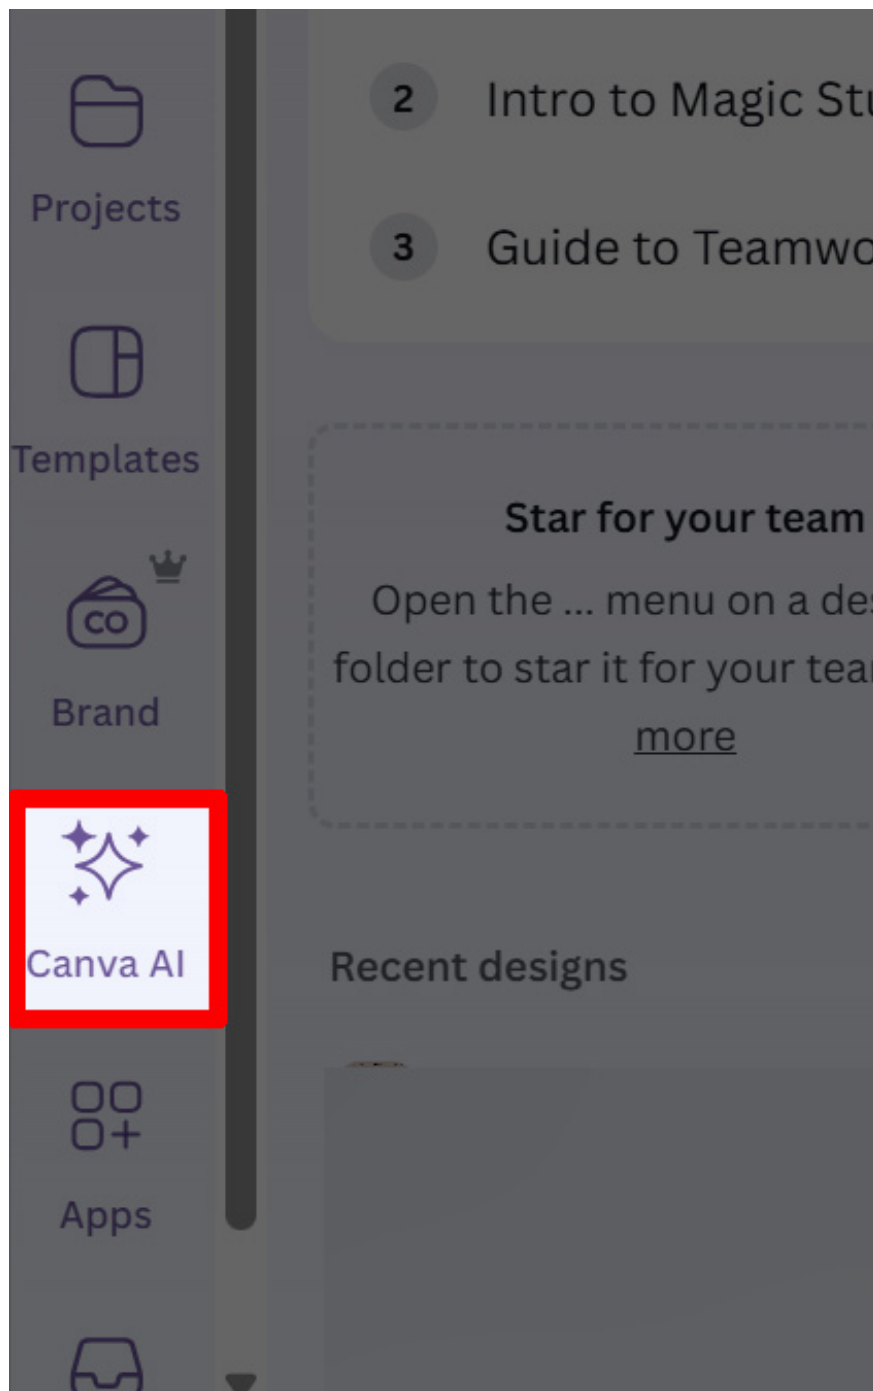

Step 1:

You access your Canva account, then click on **Settings** and select Language to switch to **the English interface** .

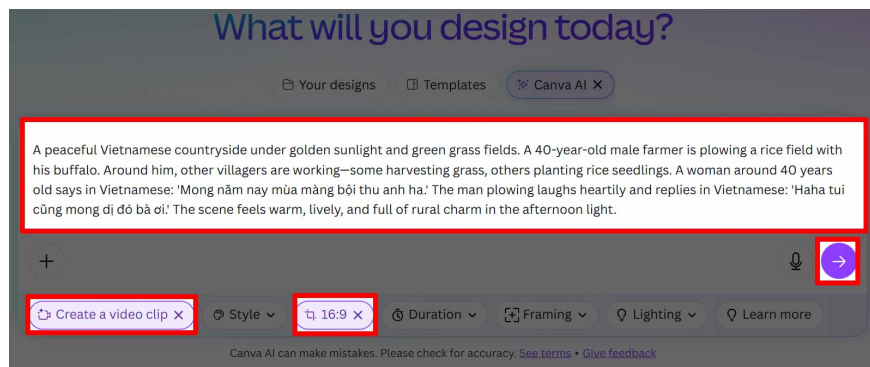

Step 2:

In the left toolbar of the Canva interface, we **click on Canva AI** to access the AI ??tools on Canva to use.

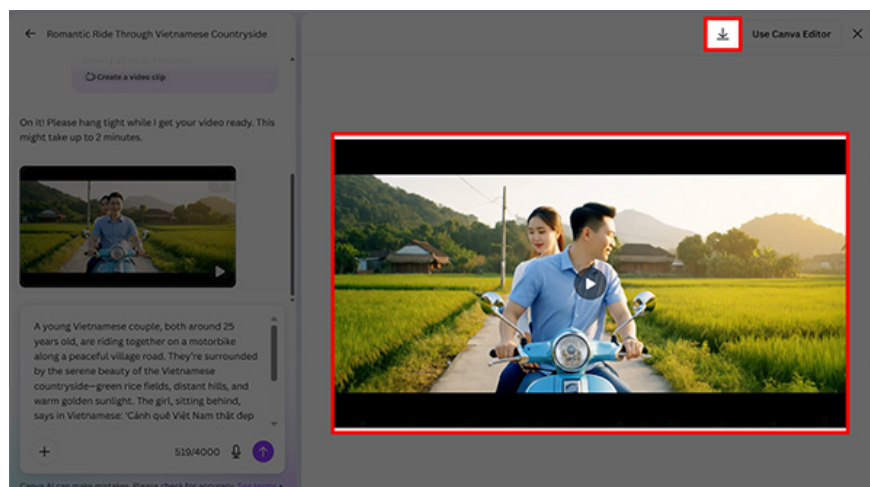

Step 3:

Displays the interface for you **to enter the AI ??video content you want to create with Veo 3 on Canva** . We can choose the size for the video, then **click Create a video clip** and click send to send the content.

Step 4:

You wait a few minutes to create an AI video on Canva and then you get the video you want to create. If you are satisfied, we click on **the download icon** to download it to your computer.
