

How to create an account and upload photos to Photobucket?

Photobucket is one of the best online storage services today, in addition to free uploading photos to create personal albums, you can also get the code from there to insert into blogs or other forums. However, to be able to use the exam you need to register an account. If you don't know how to do it, you can refer to our guide below.

Photobucket is one of the best online storage services today, in addition to free uploading photos to create personal albums, you can also get the code from there to insert into blogs or other forums. However, to be able to use the exam you need to register an account. If you don't know how to do it, you can refer to our guide below.

Step 1 : Go to **Photobucket** homepage and click **Sign up**

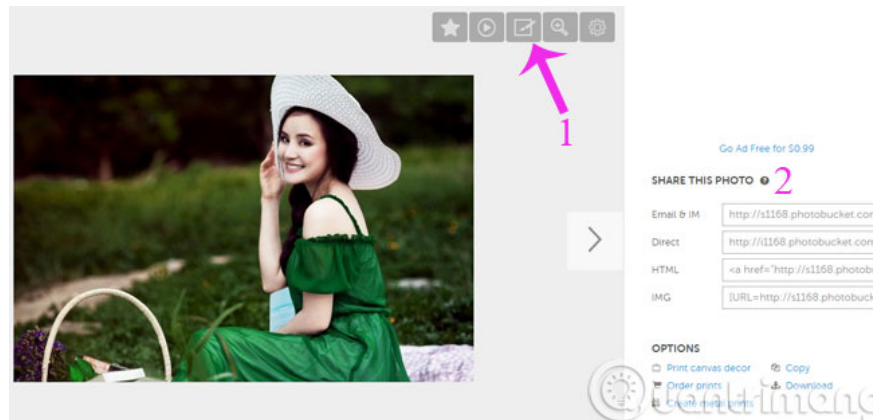

Step 2 : Fill in the registration information or use your **Facebook** account to login

The image shows a registration form for Quantrimang. At the top, there is a 'Connect using Facebook' button. Below it, the word 'OR' is centered. The form contains three input fields, each with a green checkmark to its right: an email field, a username field containing 'quantrimang', and a password field with a lock icon and a visibility toggle. Below these is the 'Birth Date' section, which includes dropdown menus for 'April', '17', and '1987', radio buttons for 'Male' and 'Female', and a text input field containing '10000'. A reCAPTCHA section follows, with the text 'Follow the instructions below to show you are human.' and a box containing 'I'm not a robot' and the reCAPTCHA logo. A red 'X' is placed to the right of the reCAPTCHA box, and a red error message below it reads 'You must check the box to prove you're human.' At the bottom, there is a 'Get Started' button and a watermark for Quantrimang.

Step 3 : So, you have successfully registered an account. To upload photos (videos), click **Choose photos & videos** or **Choose folders** (*if you download the whole folder*)

The image shows the file upload interface. At the top, there are tabs for 'Upload from:' with options 'Computer', 'Facebook', 'URL', and 'Bulk Upload'. Below this, there is a dashed box containing the upload area. It includes a dropdown menu for 'Upload to:' set to 'Your Bucket' and a 'Public' privacy setting. The main instruction is 'Drag 'n Drop photos, videos and folders here' with 'or' below it. A pink arrow points to a blue button labeled 'Choose photos & videos', with 'Choose folders' written below it. At the bottom, there is a small note: 'To select multiple photos, hold SHIFT OR COMMAND as you click. Note: Videos are limited to 500 MB or 10 min. up to 10 min. Supported image file types include gif, jpg, jpeg, png, and bmp. Learn More.' A watermark for Quantrimang is visible at the bottom right.

Step 4 : Once the photo has been uploaded, you can proceed to edit or get the code to insert into the forums

Thus, we have instructed you how to create an account and upload photos to Photobucket. From now on, you already have an effective online photo storage tool that is completely free.

1. Make photos as beautiful as hotgirl with Lightroom
2. How to use Proshow Producer to make photo slides
3. Make sharp photos in 2 ways in Photoshop

I wish you a happy new week!
