Step 7:

Next, the **Password and security** management group has the option to change the current password.

Password

To change your password, you'll need to verify the current one first. Then create a password you're not using elsewhere, and be sure to change it regularly as well as anytime you suspect it's been compromised.

Current password: ●●●●●●

[Change](#)

Below is the mobile phone number or the 2 -step verification at **Two-step verification** , **press Active** to do so.

Two-step verification *Not activated*

 [Activate](#)

Account recovery

For easy online ID and password recovery assistance, please provide a mobile number and an alternate email address. Keep this information up to date in case you forget your password.

Mobile phone *Not provided*

[Add phone](#)

Alternate email

Enter an email address

Step 8:

We are required to **enter the phone number** to receive our verification code, **click Add** to add the phone number for the Adobe account.

Add a mobile phone number

We'll text you a code to be sure you can use your phone for two-step verification.

This phone number will also be used for operational notifications and account management purposes, including account recovery.

 Enter a mobile number

Our texts are free, but your service provider may charge a usage fee.
[Activate two-step verification using an app.](#)

Adobe will then send a **verification code** sequence to your phone number. Enter this character string into the interface and **click Verify** to finish.

Enter verification code

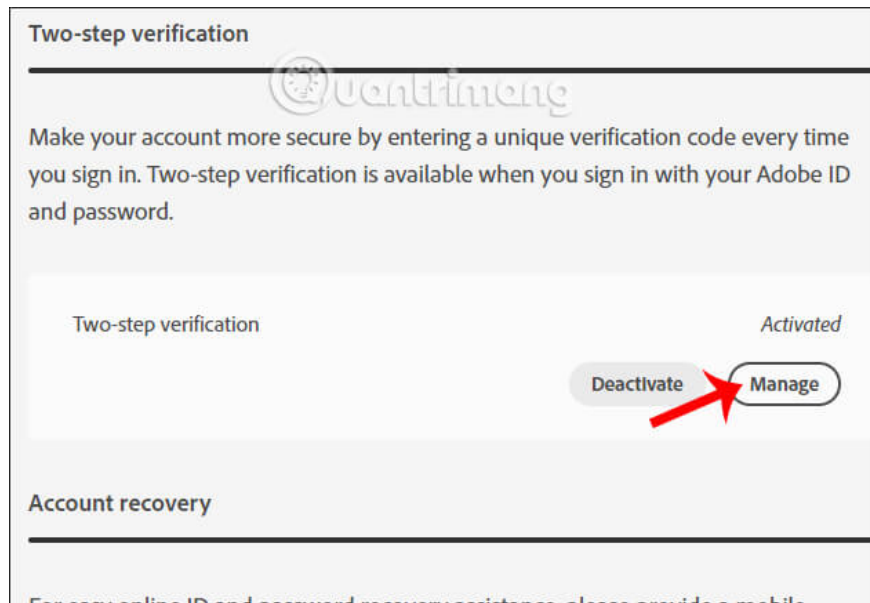

Type in the code we just sent to: +84

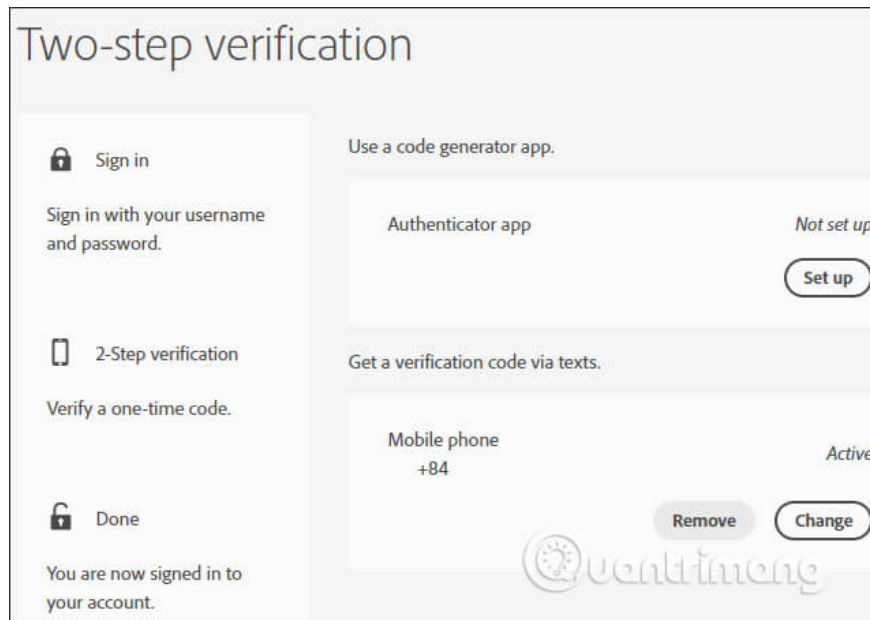

Didn't get the code? Wait a few moments and [try again.](#)

Step 9:

After activating 2-layer verification, if you want to change it again, **click Manage** , if you want to cancel verification, press the Deactive button.

In this content we proceed to change or delete the phone number, use the 2-step verification application if available.

So the steps to create an Adobe account are simple and fast. You need to remember to verify your email address, or use the 2-layer verification feature if you want to increase the security of your Adobe account.

I wish you all success!
