

How to create an ebook using Pages application on iPhone and iPad

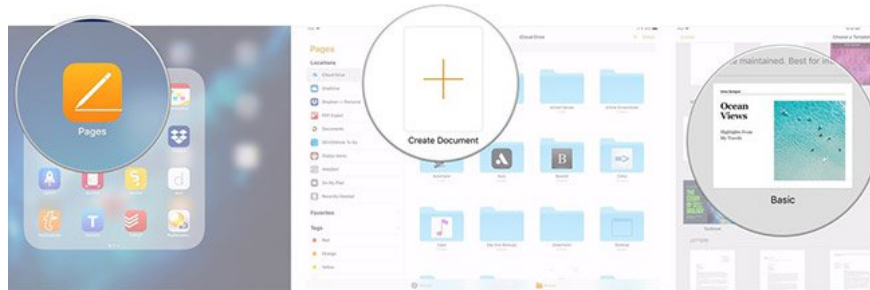

Want to create eBooks on iPhone and iOS devices, Apple's Pages app will be the perfect choice for you.

Want to create eBooks on iPhone and iOS devices, Apple's Pages app will be the perfect choice for you. Pages is one of the iWork suite apps, comes with integrated tools for creating and sharing eBooks, allowing you to publish your articles in EPUB format and easily share them with many people.

Creating eBooks in Pages application is quite simple. You can also add content to an ebook easily.

How to create a book / document in Pages

1. Open the Pages app on your iPhone or iPad.
2. Click **Create Document** or + in the document manager.
3. Choose one of the templates: Books - Portrait or Books - Landscape.

The Portrait templates are suitable for documents that are mainly text, while the Landscape template is suitable for books with many images, or their content is arranged into columns. The Ebook with Portrait template with vertical layout and text content will be adjusted according to the size of the screen or device. In contrast, Landscape template Ebook with horizontal layout will be fixed, not change according to screen size.

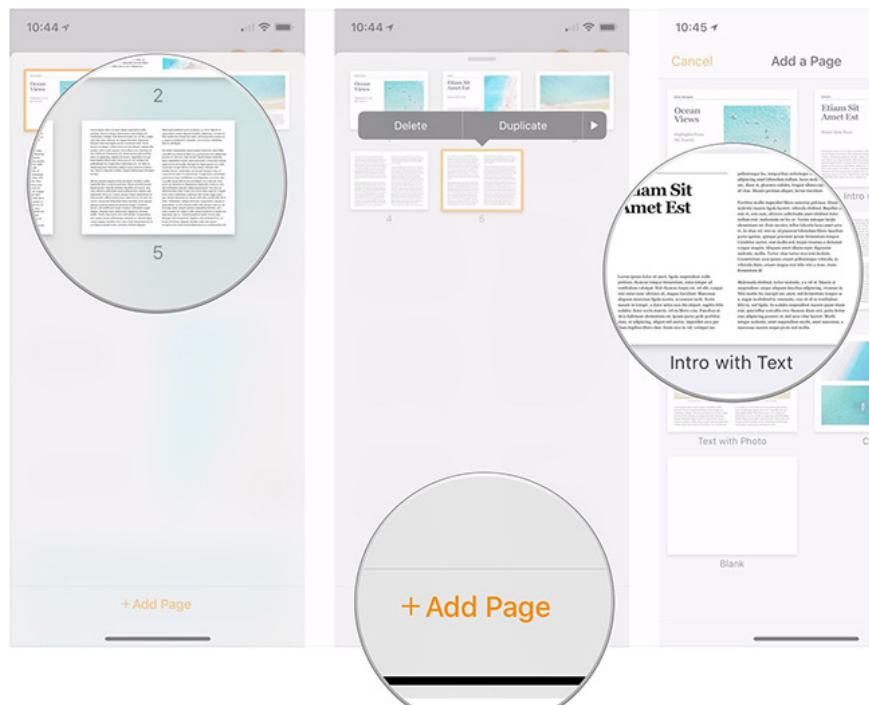

How to add pages to ebook Landscape in Pages on iPhone

If you are writing books with Portrait templates, new pages will automatically be added as you write. However, books are created in horizontal orientation, adding pages will be done manually.

1. Open Pages.
2. Click on your book.
3. Click on the page number at the bottom of the screen.

4. Press and hold the thumbnail of the page to add a new page to the next.
5. Click + Add page.
6. Select the template you want to use.

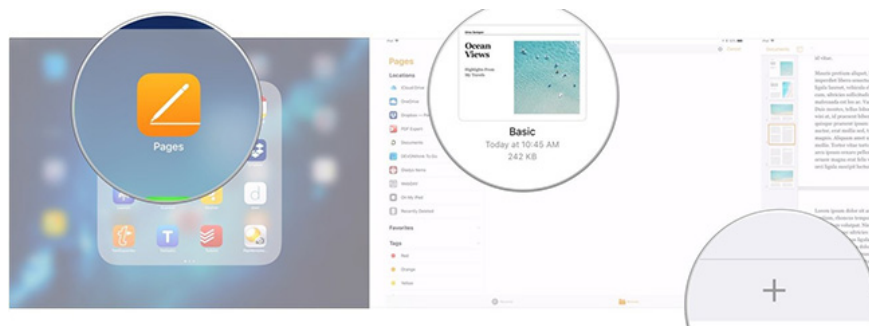

7. Click **Choose**.
8. Drag the **handle** above the thumbnail to return to the current post.

How to add pages to ebook Landscape in Pages on iPad

How to add pages to ebook Landscape on the iPad is a bit different.

1. Open **Pages**.
2. Choose your book.
3. Click the + sign at the end of the left column.

4. Select the page template you want to use.
5. Click, hold and drag to select another location for the new page.

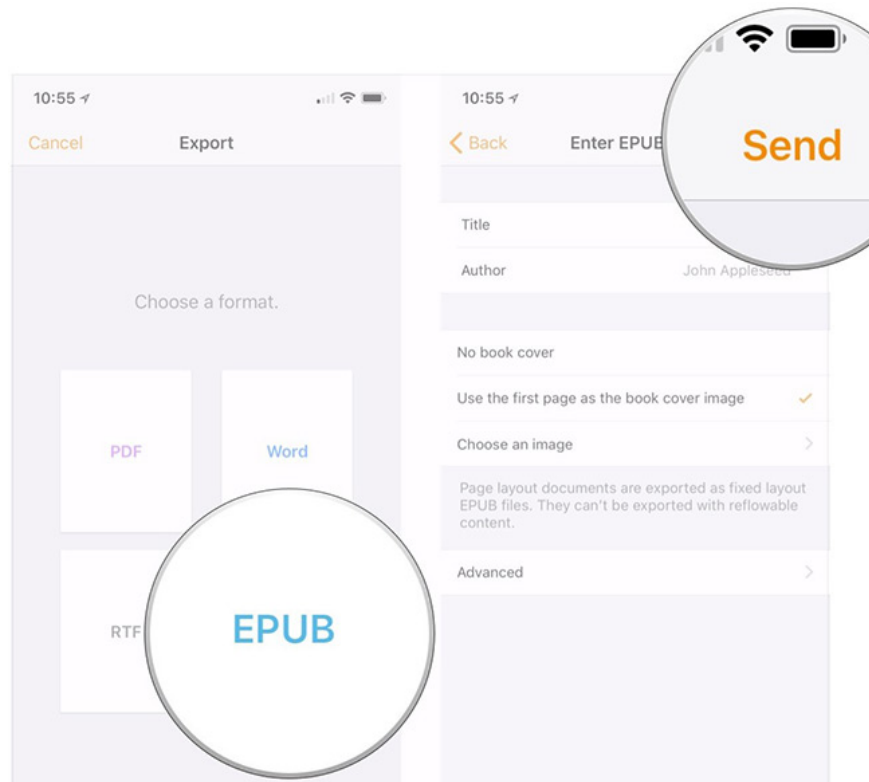

How to share eBooks in Pages for iPhone and iPad

Once you've finished writing the book, you can export it in EPUB format and share it with others.

1. Open books on iPhone or iPad.
2. Click on the button .
3. Click **Export** .

4. Click **EPUB** .
5. Click **Send**.

6. Click **Copy to iBooks** to view your book in iBooks.
