

# How to create and delete video playlists on YouTube

Creating a YouTube video playlist will help viewers easily follow certain video topics, increasing the number of viewers on YouTube channels.

Creating a playlist of videos or creating YouTube video playlists means that you are creating a video collection with the same theme or simply videos that we want to put together in one group. Creating a YouTube video playlist makes it easy for users to manage and search videos when needed.

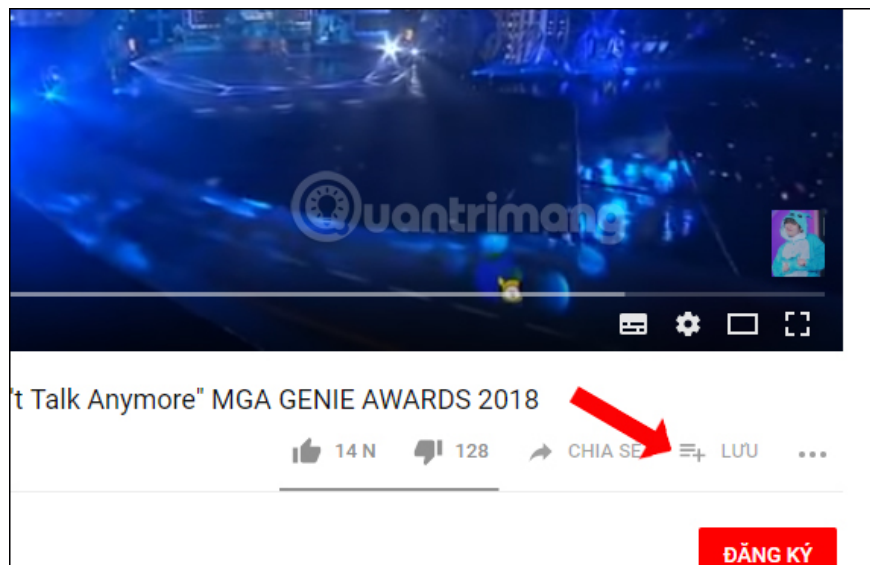

In addition, creating YouTube video playlist also attracts more viewers, especially for those who make money on YouTube, creating science on YouTube channel interface when others can search for videos by each playlist. You can create multiple playlists in your YouTube account. The following article will show you how to create YouTube video playlist and how to delete the created YouTube video playlist.

1. Instructions on how to create a YouTube Channel
2. Instructions for downloading mp3 music YouTube does not need software
3. How to download the entire Video Playlist on Youtube

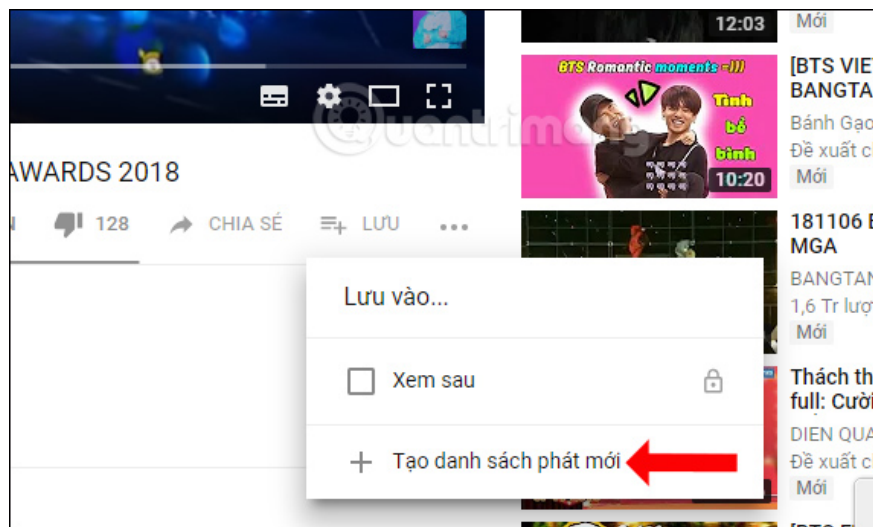

## 1. Instructions for creating YouTube video playlist

### Step 1:

Open the video to add a completely new playlist. Just below the video click on **the 3 dash icon with the plus sign**.

Then click **Create new playlist** .

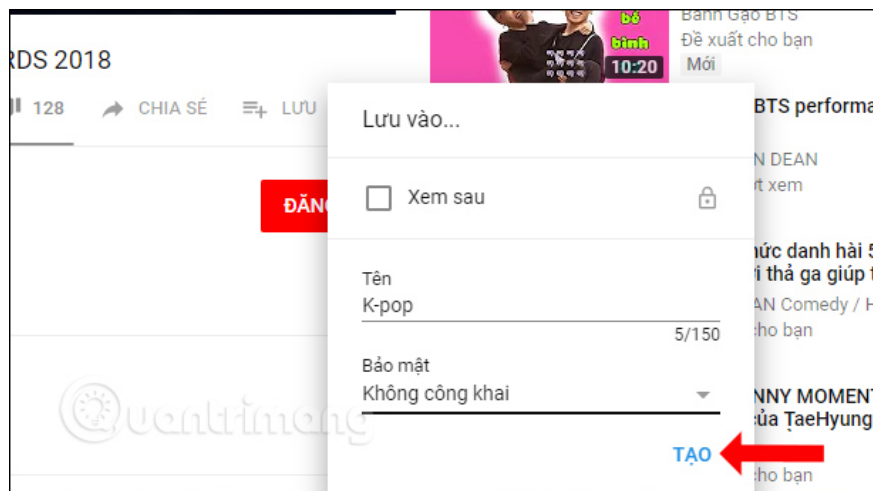

## Step 2:

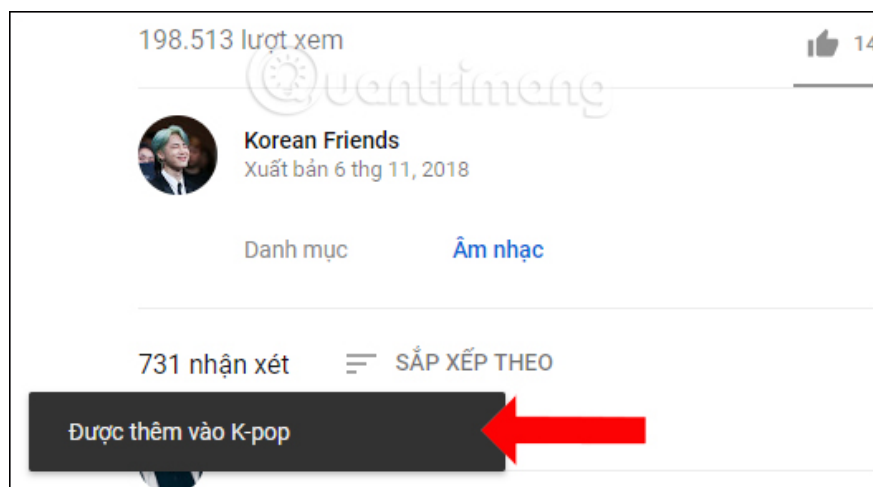

A new interface appears to let users enter a name for the new playlist with 150 characters and select a mode for the playlist. There will be 3 modes of selection for the playlist including:

1. Public: All YouTube users can find your video playlist.
2. Non-public: Only those with the link playlist the video can watch the video.
3. Privacy: Only creators can view videos in playlist created.

Finally click **the Create button** below.

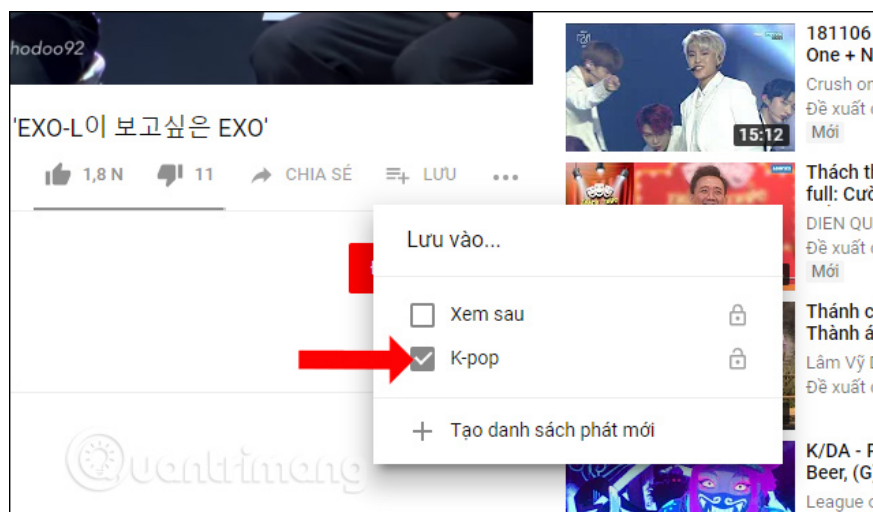

Immediately at the bottom left of the interface shows the message that created the playlist successfully and added the video to the playlist.

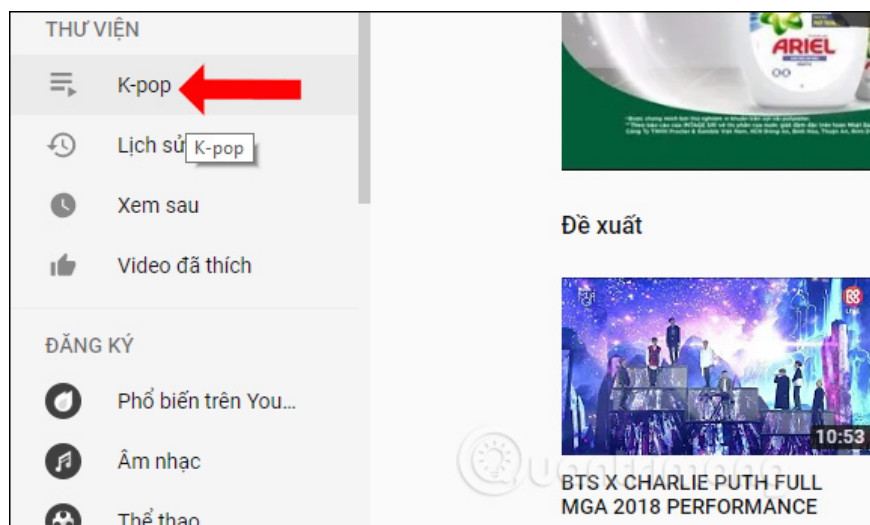

### Step 3:

We continue to add videos to any newly created playlist. The playlist name will then appear in the selected list to save. To create another video playlist just click Create new playlist, then do the same as above.

### Step 4:

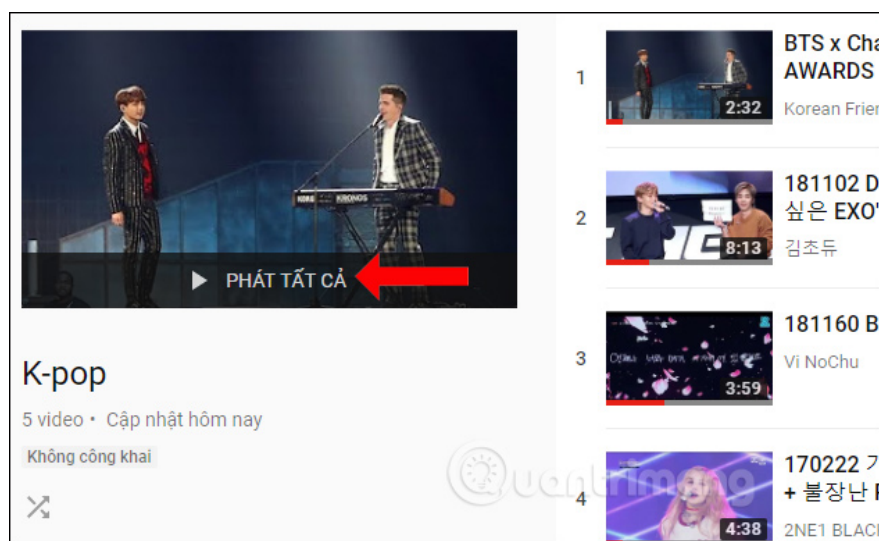

When we return to YouTube homepage, we will see the **name of the newly created playlist** in the list on the left side of the interface, the **Library** section.

### Step 5:

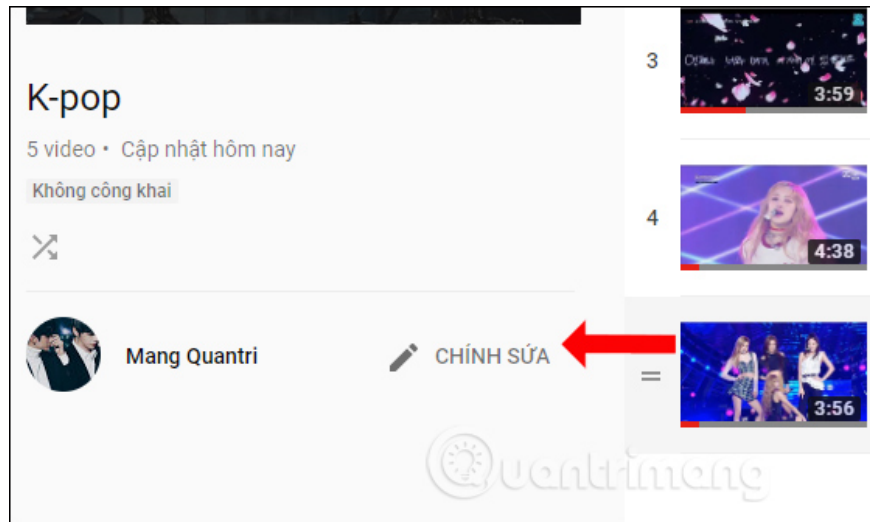

Switch to the new interface and you'll see all the videos in the playlist. The above URL will be used to share the playlist of videos if there are two modes to allow others to watch videos in the playlist.

If you want to watch the whole video click **Play all** .

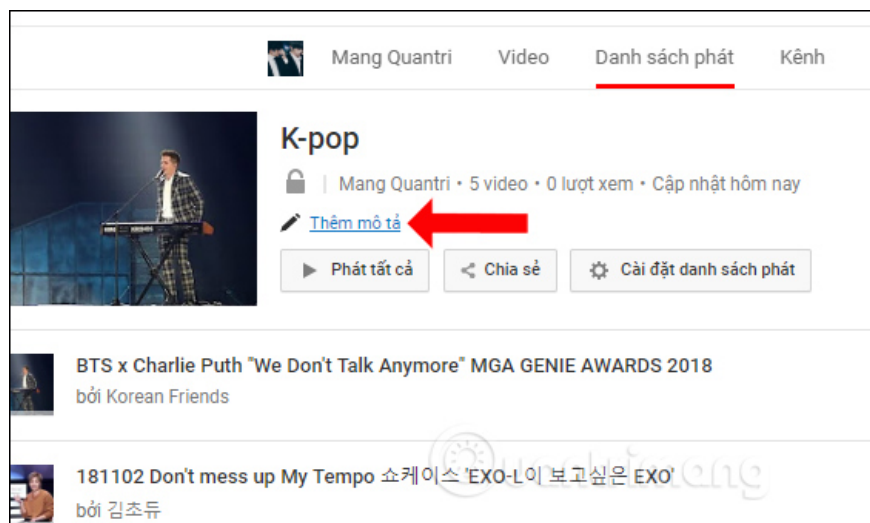

### Step 6:

Right below there is an **Edit option** to reset the YouTube video playlist.

In this section, users can click Add description to brief the playlist of YouTube videos if desired. The Share section will display the URL playlist link.

Playlist settings have the option to adjust the playlist mode, or set the automatic mode to add videos to the playlist.

### Step 7:

Also on each video when hovering will display the **Add button** with options as shown below. If you want to delete the videos in the playlist, click the x icon.

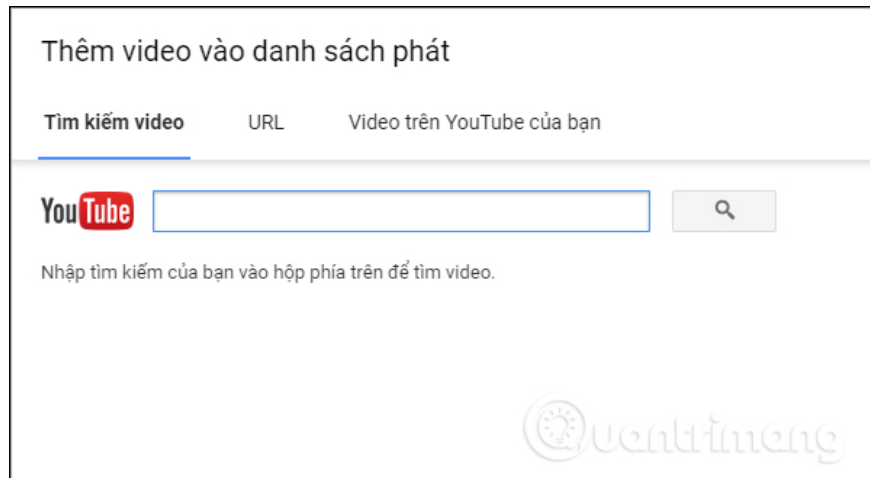

## 2. How to add videos to YouTube playlist

With the playlist created, in addition to streaming the video and then adding the playlist, the playlist also has the option of **Adding videos** .

We will see there are 3 ways to add videos including:

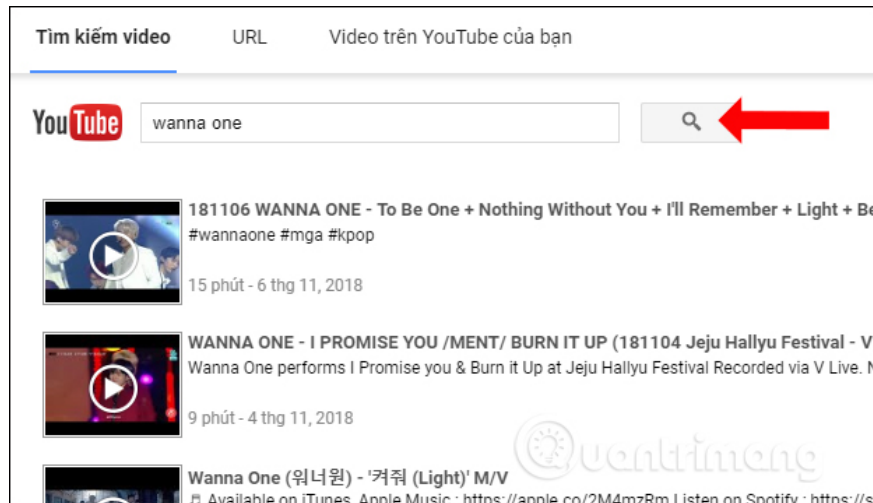

1. Video search: Enter keywords to find videos.
2. URL: Add video with video link.
3. Your YouTube video: Videos are available on YouTube that users post.

### Method 1: Search for videos added to the playlist

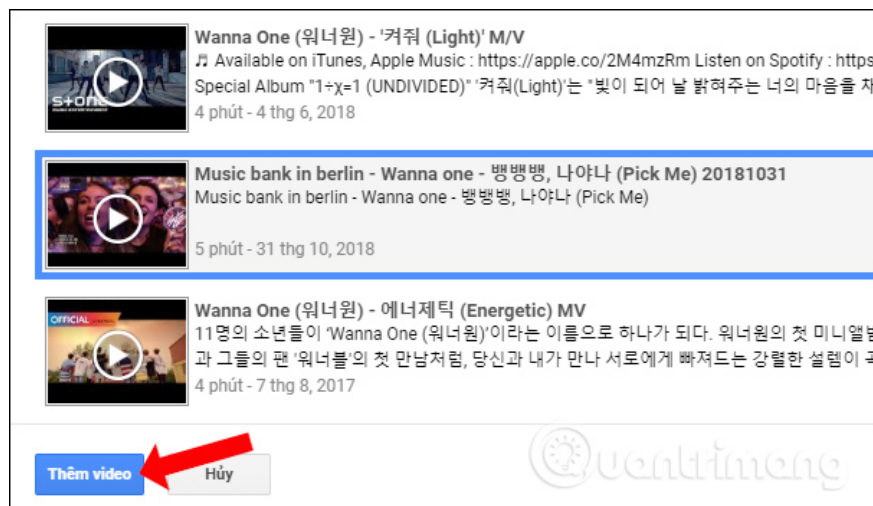

#### Step 1:

You just need to enter **the topic video keyword** to search and will display the list below.

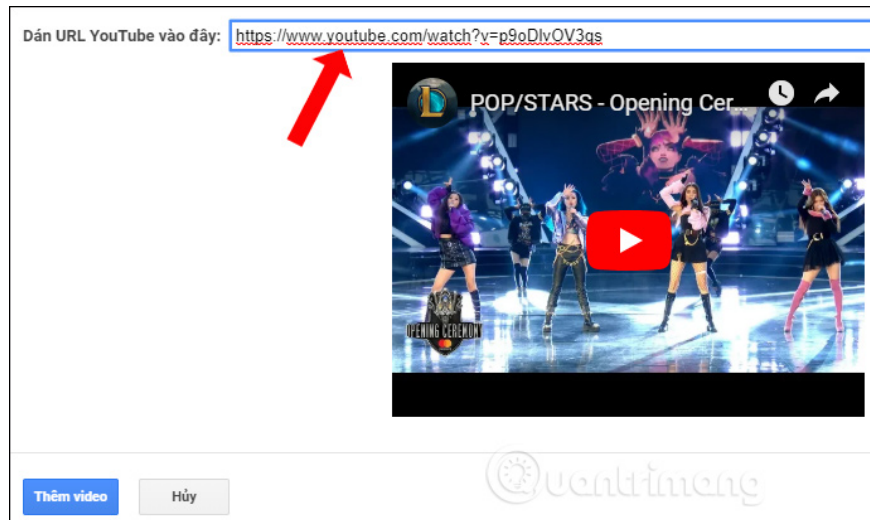

## Step 2:

Click on a video you want to add, then click Next **Add video** below.

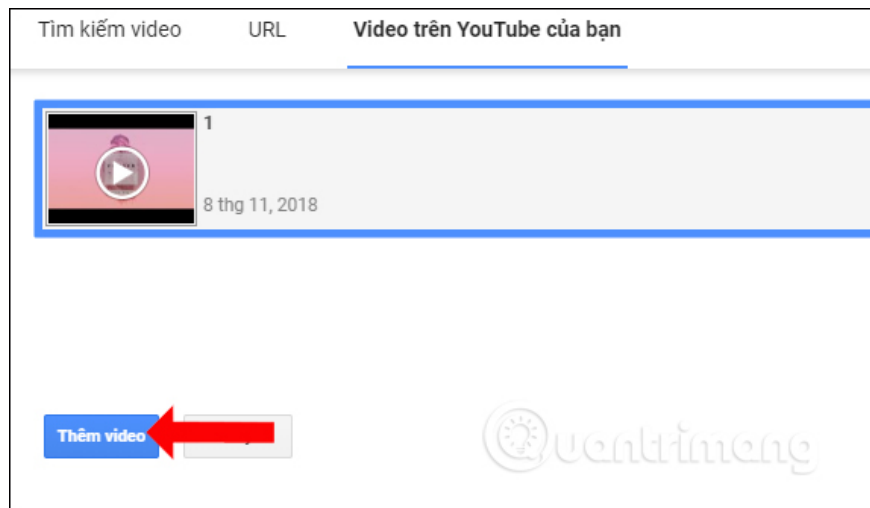

## Method 2: Enter the video URL added to the playlist

You need to **enter the YouTube video URL** into the address bar and see the video below. Also press **the Add video button** to add to the playlist.

### Method 3: Use videos uploaded to YouTube

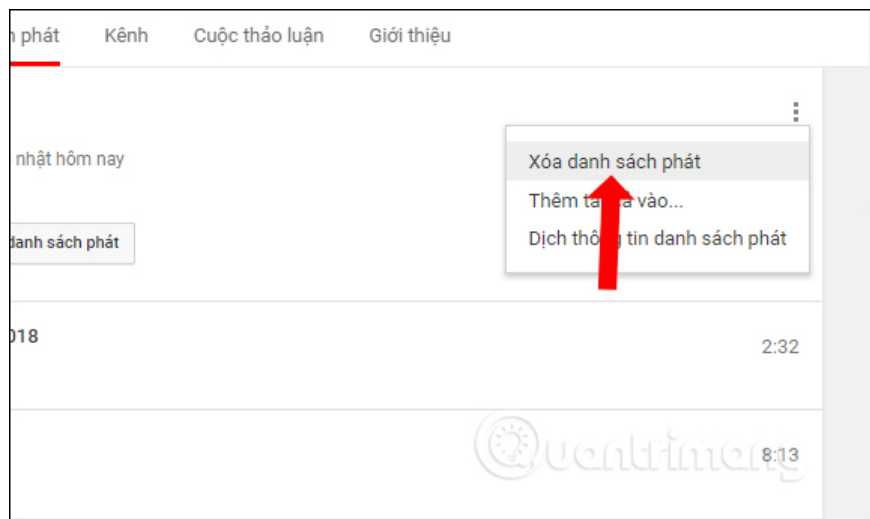

If you have uploaded videos to YouTube, clicking on the YouTube videos section will display all videos. Just click on the video you want to add to the playlist and then click the Add video button below.

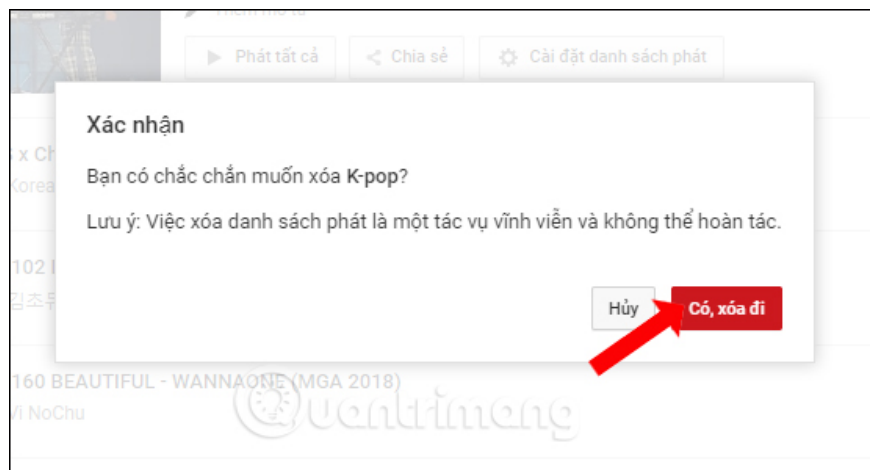

## 3. How to delete playlist YouTube videos

To delete playlist YouTube videos created very simply simply click **the playlist name** in the Library section on the left of the interface. Then click on **Edit** .

On the far right, click on **the 3 vertical dots icon** and select **Delete playlist** .

Then YouTube will ask whether the user is sure to delete this video playlist, click **Yes, delete it** to agree. After deleting the Playlist, it cannot be retrieved, so users need to consider carefully.

Above is how to create YouTube playlist and ways to add videos to created playlist on YouTube. You can create multiple playlists according to different video themes and select playlist mode according to your needs. Before proceeding to delete the created YouTube playlist, it is necessary to download the important video because the playlist will not be recoverable.
