

# How to create Answer questions on Facebook

Creating question answers is a recently added feature on both Facebook web and the app. Users will choose questions and answer them themselves and post to Facebook.

Facebook currently has updated many new features in the status writing section such as setting up a poll, creating to-do lists, or creating questions with answers. The question-and-answer feature has been applied on the Android and iOS Facebook and Facebook versions.

Accordingly users will be able to choose the questions that Facebook offers, or write their own answers, then answer that question. Essentially, the question creation feature with Facebook answers is not intended to be a challenge for anyone, but simply you want others to know more about yourself, your hobbies, habits, . through the questionnaire content.
