

How to create cartoon style family photos on ChatGPT

ChatGPT not only changes the style of your personal photos according to your requirements, but now we can take advantage of ChatGPT to combine photos together to create complete photos such as creating cartoon-style photos of Anh Dinh.

ChatGPT not only changes the style of your personal photos according to your requirements, but now we can take advantage of ChatGPT to combine photos together to create a complete photo such as creating a cartoon-style family photo. We just need to upload portraits of family members, describe the cartoon-style family photo or any style you want. Immediately after that, ChatGPT creates the cartoon-style family photo you want. Below are instructions for creating a family-style photo on ChatGPT.

How to create animated family photos on ChatGPT

Step 1:

On the ChatGPT application interface, click on **the plus icon** and **select Photo** . Then **upload photos of each family member** to the application.

Step 2:

Then we **enter the prompt into the application** with the content below. You can replace the animation style with another style you want.

'Combine these attached photos of me and my family members into a cartoon [cartoon style wanted] styled photo. All people must wear the exact clothes in the attached photo. The photo must have a cute, delightful setting'.

Step 2:

You wait a moment for ChatGPT to analyze the content and create the image. The result is a chibi style family photo on ChatGPT as shown below.

We click on the image to edit the photo if we want.

You can also use the above prompt to create other style family photos, such as lego style photos.

Combine these attached photos of me and my family members into a lego styled photo or Minecraft characters,. depending on the style of photo you want to create.

The results are also family photos created from photos each member uploaded to ChatGPT.
