

# How to create Gif images quickly with Giphy

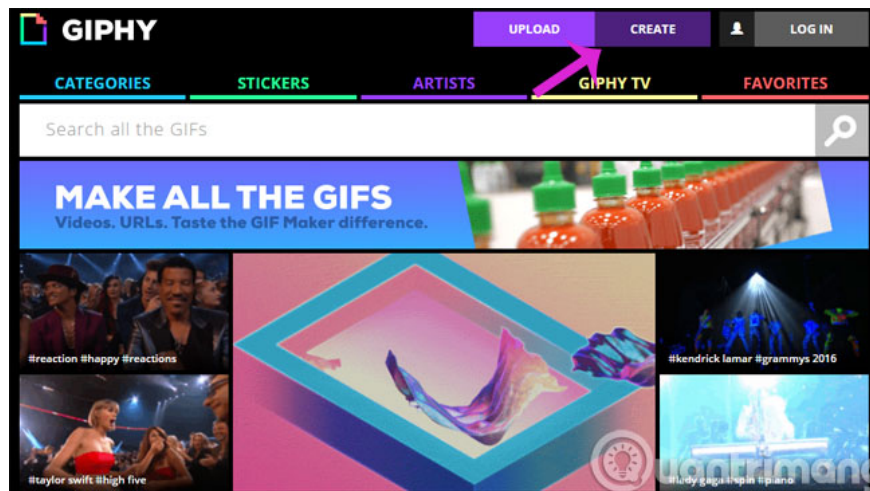

Create animated GIFs at will is not difficult, especially when you use the service to make animation Giphy online. Let's see how to create GIF images with Giphy.

## How to do, create animated GIFs with Giphy

For a long time, we still think that if it is not "good" about graphics, it is quite difficult to create a funny Gif image at will. However, please refer to the article below to see that **making animations** is not difficult at all. With Giphy online tool, you will quickly get the photos you need without installing additional external software. Let's refer to offline.

### Step 1:

Access the **Giphy** homepage and click **Create**

### Step 2:

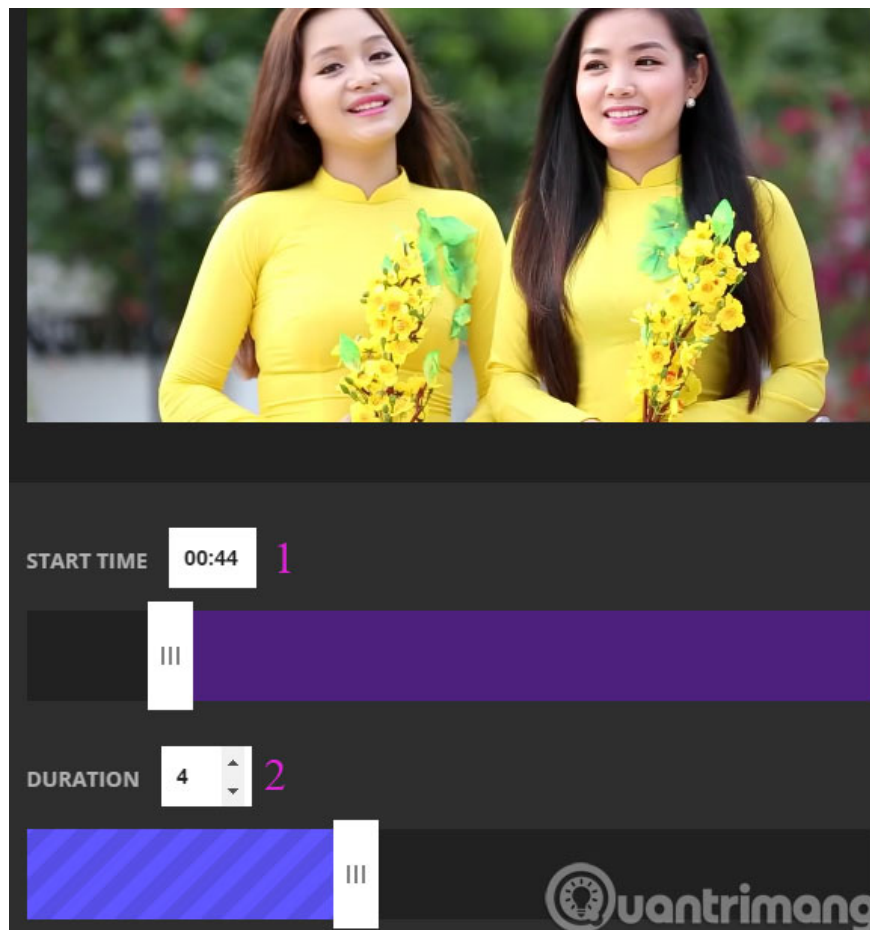

Here, you will import the video you want to upload by clicking **Browse** or you can paste the link **YouTube** , **Vimeo** directly

Note: In addition, there are other options such as creating Slideshow and taking photos from Gif images but in this article content, only mention Gif image creation section.

### Step 3:

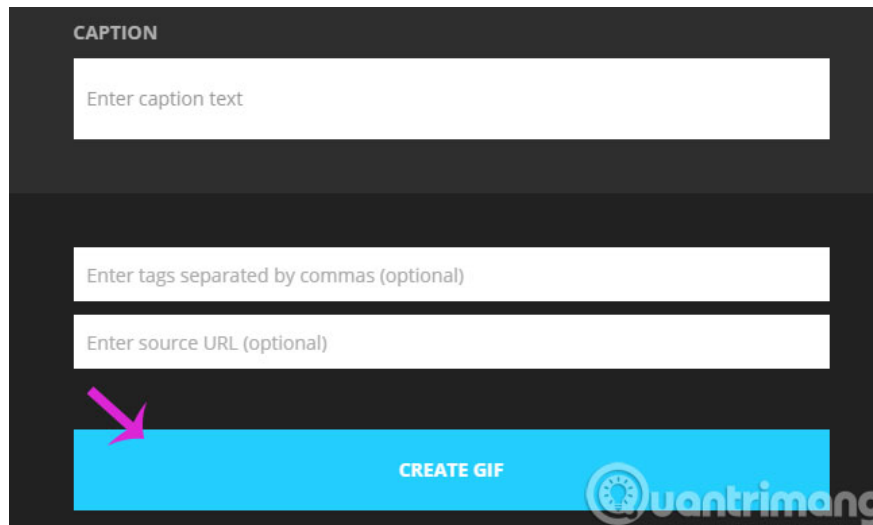

After adding the video, please do the customization

1. **Start Time** : The time when the video started running
2. **Duration** : Duration of motion of Gif image

#### Step 4:

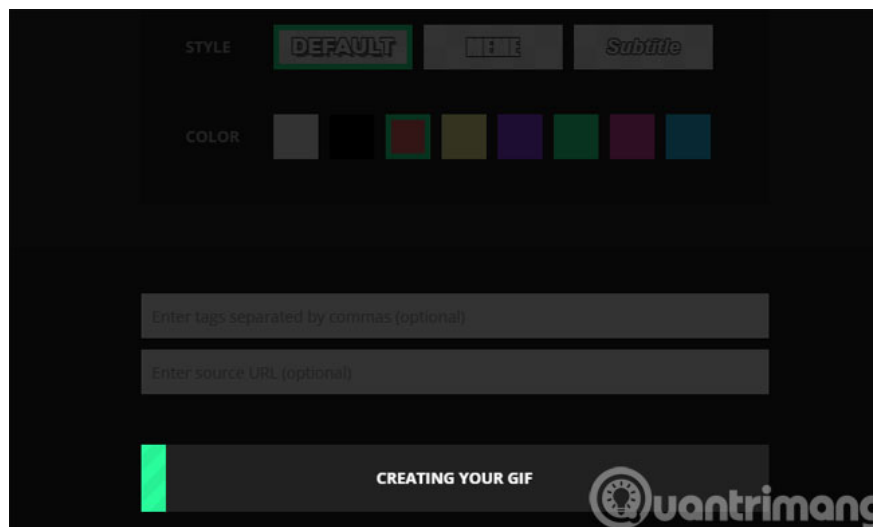

You scroll down to the bottom, there will be 1 more custom like adding Caption, Tag and source and then click **Create Gif**

A screenshot of a web interface for creating a GIF. The background is dark grey. At the top, the word 'CAPTION' is written in white. Below it is a white text input field with the placeholder text 'Enter caption text'. Underneath that is another white text input field with the placeholder text 'Enter tags separated by commas (optional)'. Below that is a third white text input field with the placeholder text 'Enter source URL (optional)'. At the bottom of the form is a large, bright blue button with the text 'CREATE GIF' in white. A pink arrow points to the top-left corner of this button. In the bottom right corner, there is a watermark logo for 'uantrimang'.

#### Step 5:

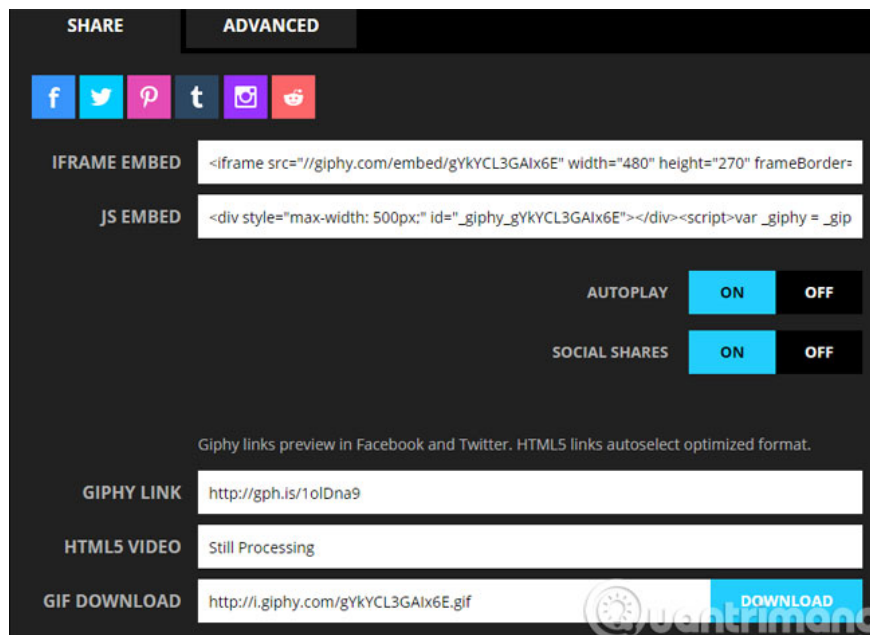

The image creation process will take place quickly or slowly depending on the length of time you choose

A screenshot of a web interface showing the progress of GIF creation. The background is dark grey. At the top, there are three buttons: 'STYLE', 'DEFAULT' (highlighted with a green border), and 'Subtitle'. Below these are several color swatches. Underneath the color swatches are two grey text input fields with the placeholder text 'Enter tags separated by commas (optional)' and 'Enter source URL (optional)'. At the bottom, there is a progress bar with a green segment on the left and the text 'CREATING YOUR GIF' in white. In the bottom right corner, there is a watermark logo for 'uantrimang'.

#### Step 6:

After the image creation process is complete, you can share it on social networks, embed in forums or download it to your computer
