

How to create greeting cards with Windows 10 Live Message

Windows 10 Live Message will create animated cards as gif or mp4 images.

The right day to make cards on the computer, or on the phone and send them to relatives and friends was not too strange. We can find many card-making applications such as Live Message. This application is installed on Windows 10, which allows extracting cards that have created animations or mp4. Users can use colored markers, or other decorating tools to design their own cards. The following article will show you how to use the Live Message application on Windows 10.

1. 13 beautiful event invitation card templates in Microsoft Word
2. Make a Christmas card with Fotojet
3. Making Spring cards with Photoshop (Part 3)

Instructions for creating cards using Live Message

Step 1:

Users click on the link below to download the Live Message application for the computer.

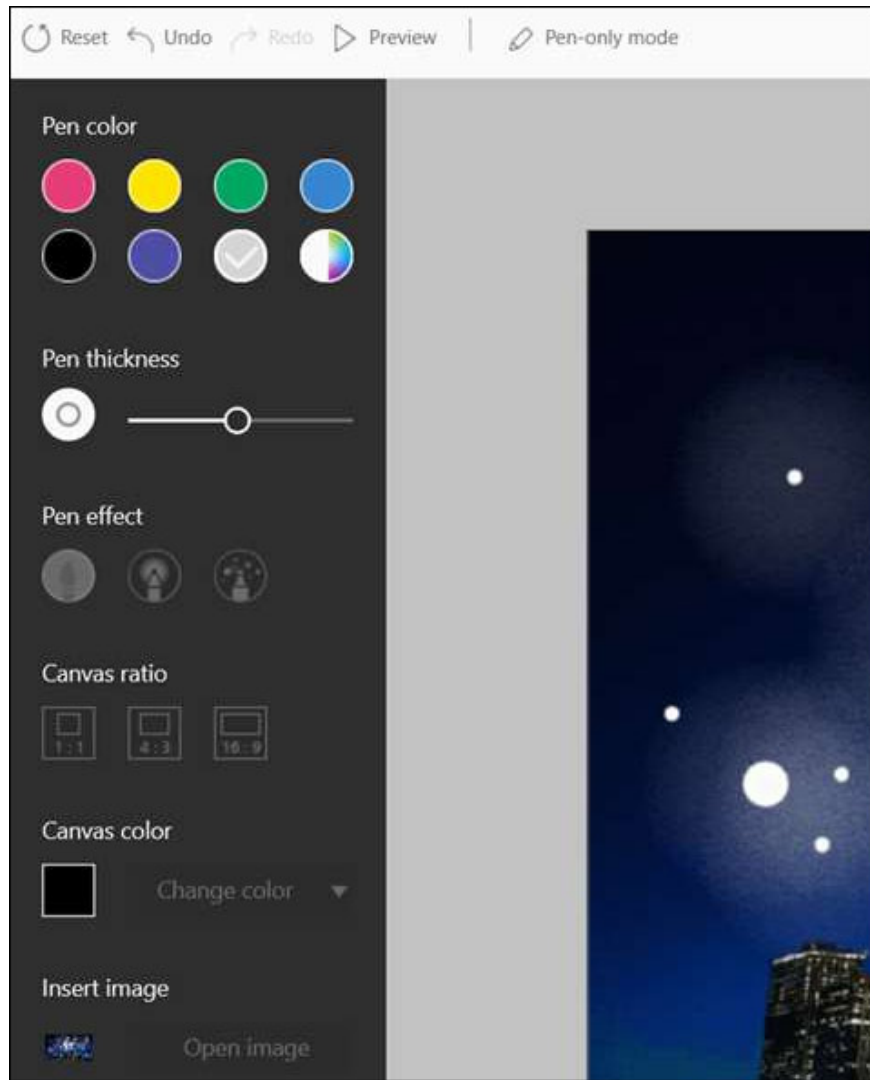

1. Download the Windows 10 Live Message app

Step 2:

After downloading the application, start it for use. In the interface on the left there will be tools to draw pictures on cards.

1. Pen color selects the color of the brush.
2. Pen thickness to adjust the pen thickness.
3. Pen effect to select brush effect.
4. Canvas ratio adjusts the ratio of drawings.
5. Canvas color to adjust the background of the painting.
6. Insert image Click Open image to select the image to be inserted as the background.

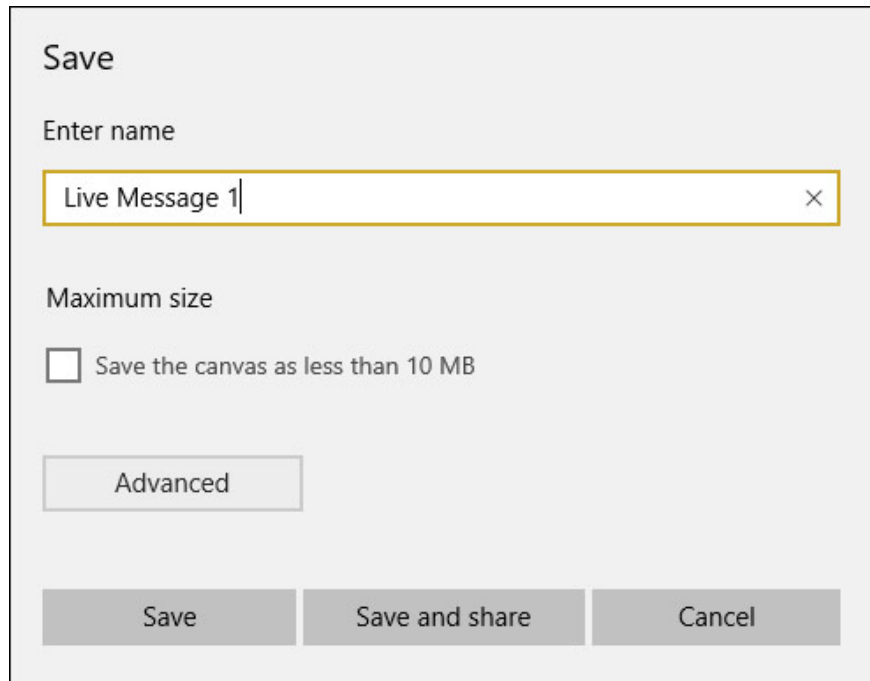

After setting up, the user draws the content on the card. The content will be saved, click Preview to view. To redo click Reset or press Undo / Redo. Finally click the Save button to save.

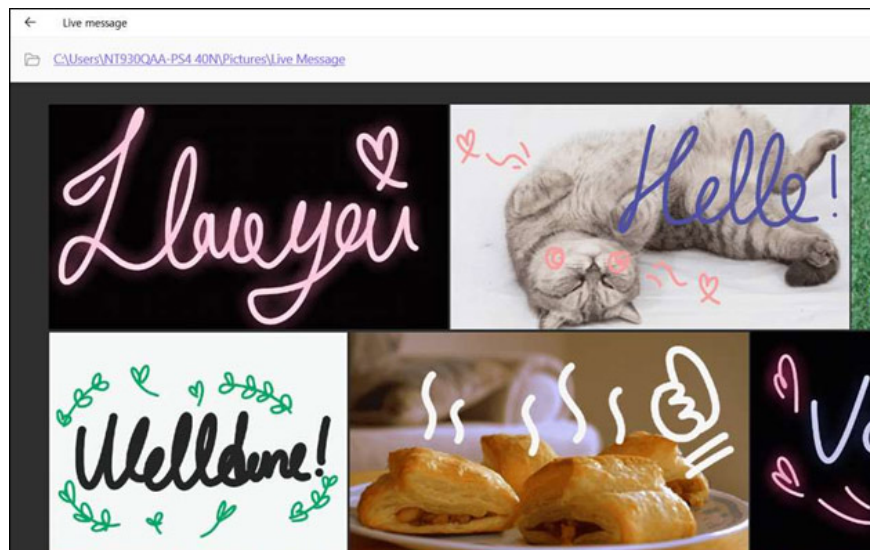

Step 3:

Displays the interface to save the drawing file. We **name it in the Enter name box** . If you want to save the card, which is smaller than 10MB, select Save the canvas less than 10 MB.

Click Advanced to select the format and quality saved. The Exported format option selects to save as MP4 or GIF, Resolution to select the quality saved with high quality (High), medium (Medium), low (Low).

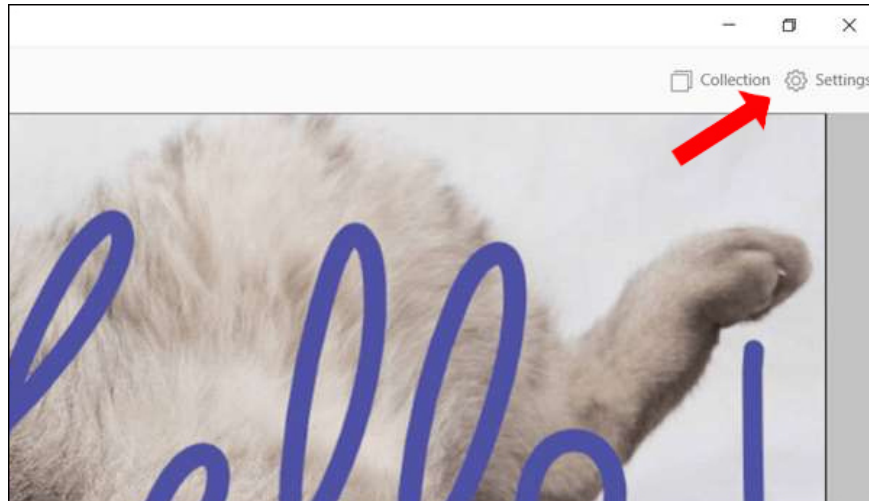

The image after saving will display the directory path above.

Step 4:

Back to the main interface of the application when clicking **the Collection button** , we can open all the drawn cards. Or click **the Settings button** to change the save location, format, quality saved.

With the Live Message app, users will immediately have a Christmas card or a Happy New Year to send to anyone. You can choose brush tools to decorate the card.
