

How to create Instagram fonts: circle letters, squares, reverse letters, icons

Instagram provides you with a bio section (biography) for you to add information about yourself and we can write stylish text on Instagram with italics, squares, circles, and emoticon styles.

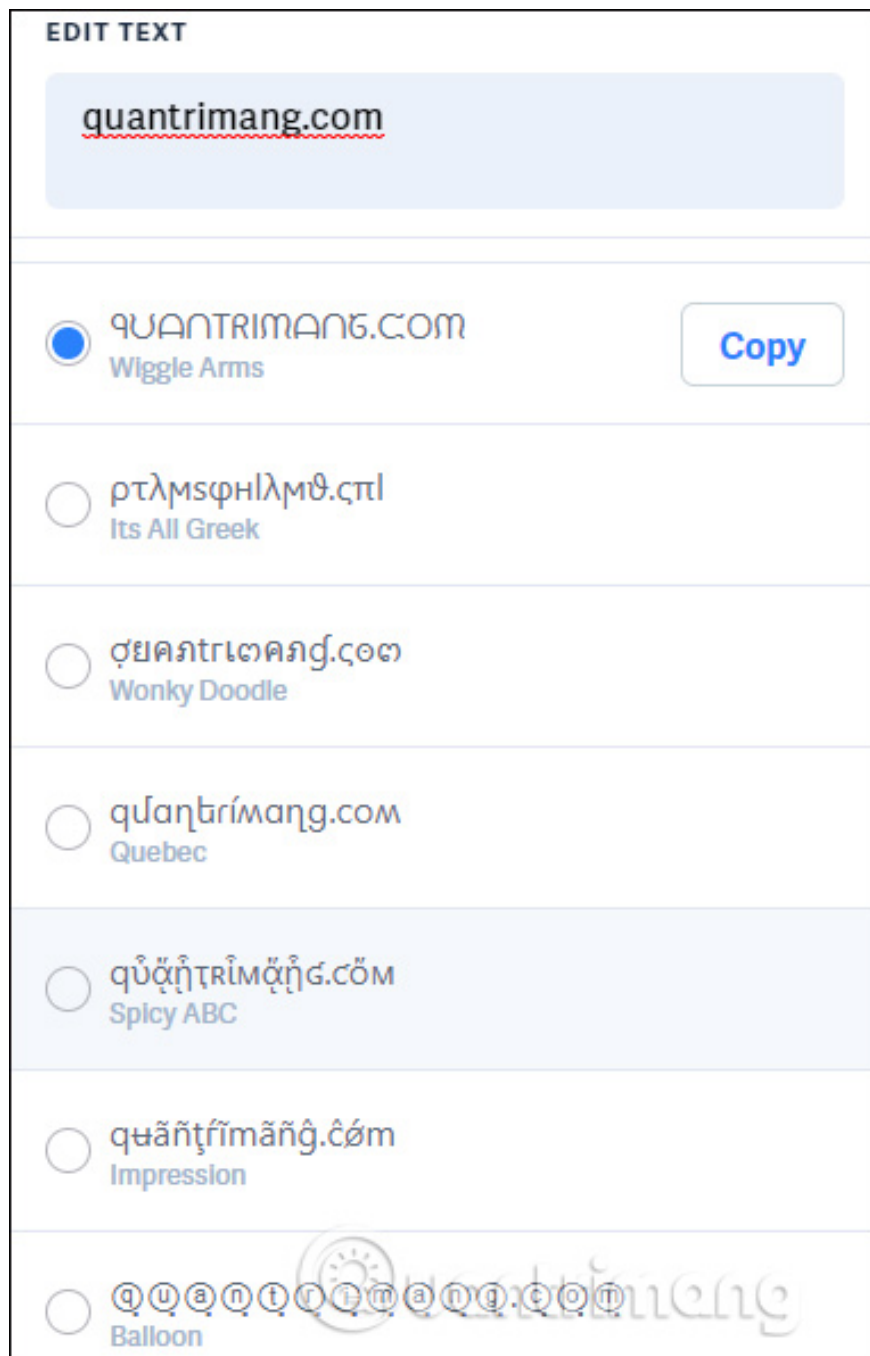

Your personal bio on Instagram will attract the attention of others when they learn more about you. Therefore, the bio should choose short, meaningful sentences, even adding necessary hashtags. And when we use new, unique font styles or use a few funny emoticons, it will make our personal page stand out even more. Here are some Instagram typography pages and how to add an Instagram bio.

1. How to create fonts on Instagram

1. Change the Instagram bio font on Meta Tags

<https://metatags.io/font-generator?>

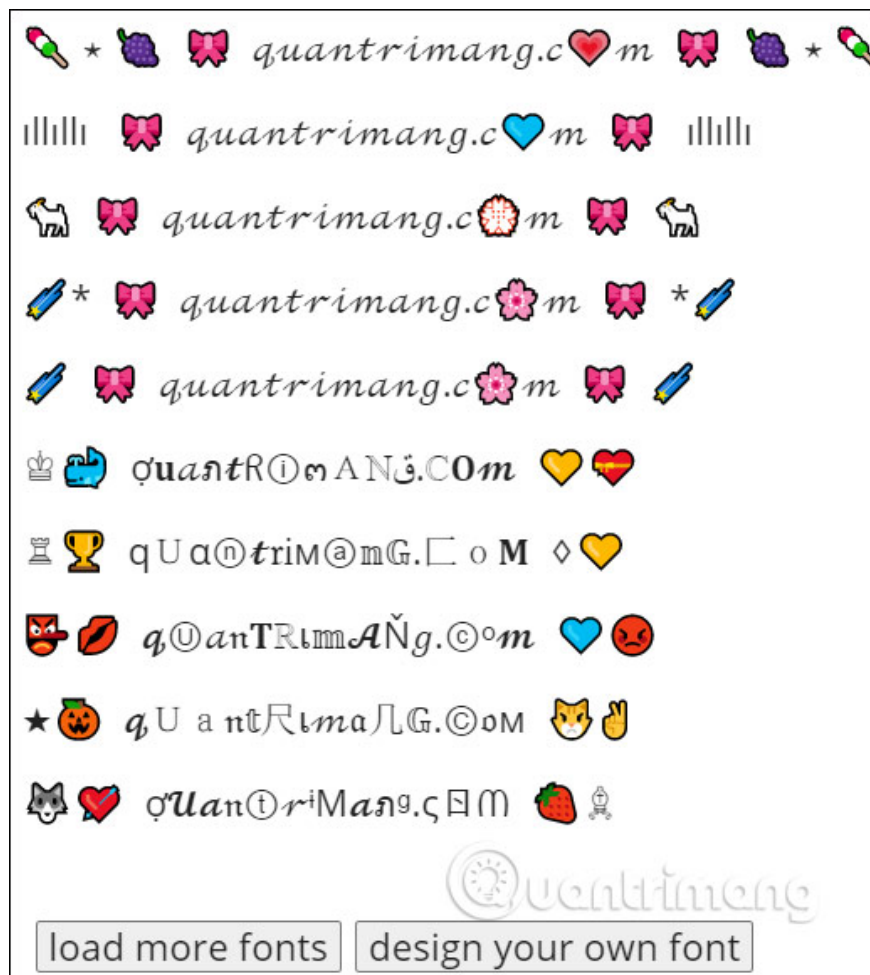

Meta Tags provides many new fonts for users to refer to and use for Instagram or Twitter if desired. The convenience of Meta Tags is that you can preview how the content you write will appear before you want to use them. If you want to use it, just click Copy to use it.

2. Write Instagram style text on Instagram Fonts

<https://igfonts.io/>

Instagram Fonts is simpler when you just need to enter the content you want to write for the bio section on Instagram and then the website automatically changes the font style to many new fonts, including fonts with emojis. However, be careful not to choose fonts that are too complicated.

3. Create Instagram fonts on Instagram Fonts Generator

<https://www.instagramfonts.com/>

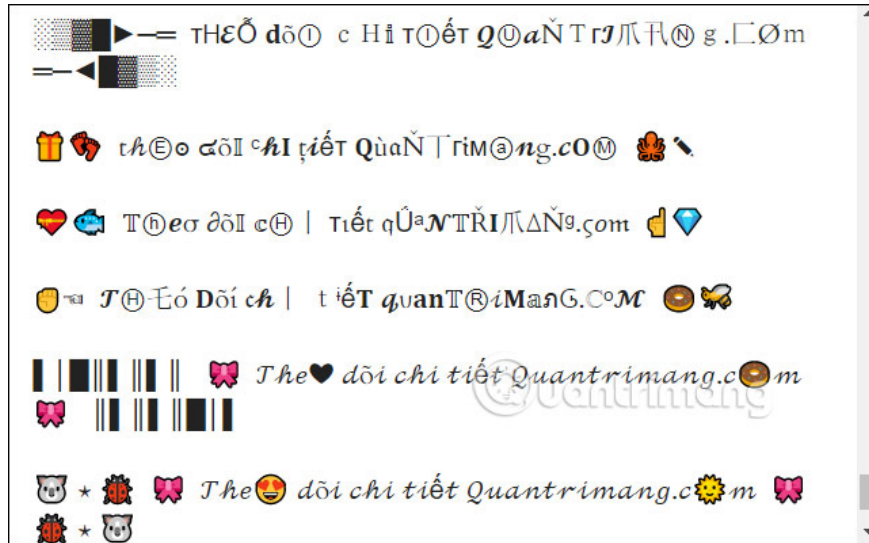

The way Instagram Fonts Generator works is similar to Instagram Fonts, including the typeface that the website then generates with different emojis. You also just need to paste the content you want to write and then choose the font you want.

4. Change Instagram fonts on Fonts for Instagram

<https://lingojam.com/FontsForInstagram>

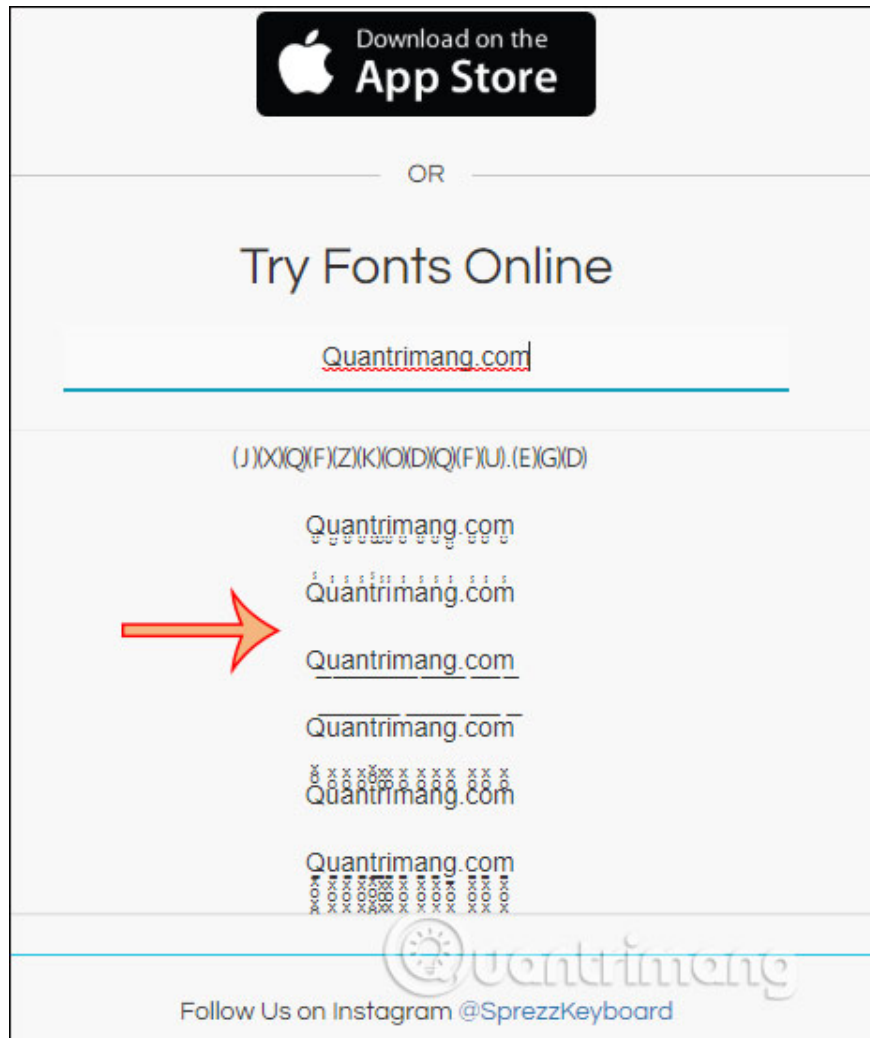

The interface of Fonts for Instagram is different from the above two pages as the styling text is displayed on the right. The typography is also interesting with many artistic styles accompanied by different emojis.

5. Write artistic Instagram-style text with Sprezz

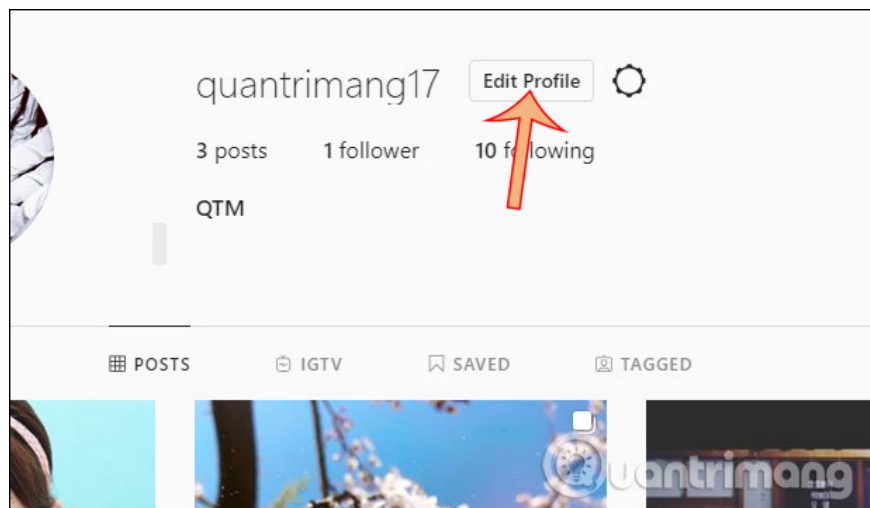

<https://sprezzkeyboard.com/>

Sprezz has an app for iOS or an online version if you want to use it right away. We scroll down to the Try Fonts Online section and enter the content we want to write. The results will display the artistic font for us to choose from.

2. Instructions for creating an Instagram bio

At the Instagram interface, click **Edit profile** or Edit personal page.

Then in **the Bio section**, you just need to **paste the artistic text** you want to use and click Submit below to save.

Name

Help people discover your account by using the name you're known by: either your full name, nickname, or business name.
You can only change your name twice within 14 days.

Username

Website

Bio

Personal Information
Provide your personal information, even if the account is used for a business, a pet or something else. This won't be a part of your public profile.
